(Previously known as "Advanced Level Audit Risks & Tests") New revised 2018 edition of our very popular Exam Room Notes book. RETAINED FEATURE FROM MAJOR 2017 UPDATE - following numerous requests from students, for the 2017 edition of the book we added exam room notes on all Advanced Level Assurance areas such as internal audit, corporate governance, due diligence, examination of prospective information (ISAE 3400) and other areas - we have retained this feature for the 2018 edition of the book so our Exam Room Notes therefore provide reminders not only for statutory audit risks & tests questions but also on specialist assurance areas. Provides an alphabetical quick reference list of approximately 70 key audit test and risk areas and 14 assurance topics, based on our careful review of the ICAEW Study Manual for Corporate Reporting, the ICAEW Question Bank for Corporate Reporting and the previous "old" TI paper in Business Reporting, together with past papers and ICAEW mocks for both the evolved Advanced Level and "old" TI level. Useful as a quick reference guide to generate reminders in the exam, reducing the time that you will need to invest in revising Audit & Assurance, which is a fundamental element of the Corporate Reporting paper - 2 of the 3 questions in CR will have a heavy or even exclusive emphasis on Audit & Assurance so the importance of this book's information and quick reference approach has been further enhanced under the evolved ACA. This book removes the need for you to prepare your own folder notes on Audit & Assurance, leaving more time to invest in other aspects of the Advanced Level syllabus. In addition to reviewing past papers and mocks, we have carefully summarised the audit tests in the "Audit Focus" sections now included in the 2015 and later editions of the Corporate Reporting Study Manual to ensure that you have a quick reference source of tests which have been emphasised in the new Advanced Level materials (i.e. tests which the examiners appear keen for students to learn and mention but which are somewhat hidden away at the end of the financial reporting chapters of the Corporate Reporting Study Manual). All such tests are now indicated in bold in the relevant sections of our book. All 70 Audit areas and 14 Assurance topics are arranged in alphabetical order, allowing quick reference without having to remember which chapter to consult. Risks & tests are contained in the first part of the book and Assurance is split out separately in the second part of the book for ease of reference. Where relevant, cross references between Audit areas are also included, giving you reminders and hints. Important notice: this set of Exam Room Notes has been designed as a quick reference resource to remind you of content that you should already have studied in detail based on the ICAEW Study Manual and your tuition provider's notes. You must already have studied the Advanced Level syllabus in detail before using this book - the book is in no way designed to replace the Study Manual as a learning resource. If you have invested insufficient time in learning the syllabus content then our Exam Room Notes will not be comprehensible or useful as the book only provides reminders regarding material you must already have studied. Look out for our other Advanced Level Exam Room Notes publications (SBM Exam Room Notes and FR Exam Room Notes)! See www.acasimplified.com for more information on our popular Exam Room Notes series.

This study guide uses text integrated with video to help you gain real-world skills that will get you started in your career in web

graphics, animation, or interactive media, and lays the foundation for taking the Flash Professional ACA exam. A mix of project-based lessons, practical videos, and regular assessments throughout prepares you for an entry-level position in a competitive job market. Adobe conducted research to identify the foundational skills students need to effectively communicate using digital media tools. Based on feedback from educators, design professionals, businesses, and educational institutions around the world, the objectives cover entry-level skill expectations for each topic. The ACA exams have proved to be highly successful; Adobe reports that the total number of exams taken worldwide has reached one million since 2008. To create this new product, Peachpit and Adobe Press have joined forces with team of outstanding instructors who have a great track record getting students certified: Rob Schwartz and his colleagues at BrainBuffet.com.

New fully revised and updated edition of our popular and student-focused guide to passing this unusual examination. We have extensively revised the text to take into account the lessons learned from the latest examination (True Taste Limited, November 2016), integrating some related tips provided by the Case Study examiners at the 2017 ICAEW Tutor Conference. We have also added our review of the 2017 ICAEW Study Manual for Case Study which has been heavily redrafted by the examiners. This new edition of Cracking Case has been rewritten from scratch, representing our first substantial rewrite for several sittings. We have reduced the number of chapters from 24 to 18 whilst maintaining all essential content and tips. The new edition further improves our popular and ICAEW prize-winning "Planning & Reminder Sheets", lovingly honed and prepared to keep you focused on mark-scoring points - as used on our November 2016 tuition courses, which achieved a pass rate of 98%. This book is aimed at both re-sit students and first timers who wish to ensure a pass in this highly unusual examination. Includes 20 discount voucher against our July 2017 live mock exam pack: 5 realistic mock exams based on the live July 2017 Advance Information, giving you 5 opportunities to practise your timing and technique whilst only reading one set of (relevant) Advance Information. (We are aiming to release the mock pack in June 2017.) Explains the ACA Simplified "40 Task Approach(TM)" to cracking the ACA Case Study. Organised into 18 Chapters and 5 Appendices, this book will take you through our carefully designed and practical approach to gaining the marks you need to pass. Includes detailed "student eye" views from 2 students who increased their grades by 20 percentage points each between the July 2012 and November 2012 sittings using the 40 Task Approach(TM). Our unique method is completely focused on the markscheme and unlocks the secrets of a pass through a simplified approach which is radically different from the standard "4 Column Planning Grid" endorsed by many other providers. Successfully used by the July 2014 ICAEW international Case Study prize winner who scored 92% at his first attempt and also by the 2014 ICAEW East Midlands Case Study prize winner who placed first in his region after attending our retake course (having failed first time with another provider). Please also see the numerous other 5 star reviews on Amazon.co.uk posted by students we have helped since the first edition of "Cracking Case" was published. Our Advanced Level Financial Reporting Exam Room Notes 2018 provide an alphabetically-organised set of quick reference notes of relevance to both the Corporate Reporting and Strategic Business Management Advanced Level examinations. We have worked backwards from the model answers to all Advanced Level past papers, mock exams and Question Bank questions to summarise 80 highly examinable financial reporting areas into sets of key mark-scoring points - ideal to prevent you dropping easy marks by forgetting basic points and also helpful when attacking harder parts of the questions. In addition, as it is vital to revise brought forward knowledge from FAR as part of your preparations for the Advanced Level examinations (in many Corporate Reporting examinations, brought forward FAR knowledge is worth at least as many marks as the new Advanced Level FR topics) the book also includes key model answer points from our review of all FAR past papers, mock exams and Question Bank questions to provide useful reminders - examiner feedback is often that the brought forward knowledge of candidates is weak, losing many potentially easy marks. All content is organised in a sensible alphabetical format so that you can very quickly find the content that you need. This organisation is more efficient than organisation by Study Manual chapter and should save you time in finding the information you require - just head to the "D" section for Deferred Tax, rather than having to remember to look in chapter 22 of the Study Manual. The book has been developed by the same authors behind our very successful BPT Exam Room Notes and SBM Exam Room Notes and is based on our trademark style of simple, clear and succinct explanations of syllabus content. Important notice: this set of Exam Room Notes has been designed as a quick reference resource to remind you of content that you should already have studied in detail based on the ICAEW Study Manual and your tuition provider's notes. You must already have studied the Advanced Level syllabus in detail before using this book - the book is in no way designed to replace the Study Manual as a learning resource. If you have invested insufficient time in learning the syllabus content then our Exam Room Notes will not be comprehensible or useful as the book only provides reminders regarding material you must already have studied. Look out for our other Advanced Level Exam Room Notes publications (SBM Exam Room Notes and Audit and Assurance Exam Room Notes)! See www.acasimplified.com for more information on our popular Exam Room Notes series.

Our Advanced Level Financial Reporting Exam Room Notes 2019 provide an alphabetically-organised set of quick reference notes of relevance to both the Corporate Reporting and Strategic Business Management Advanced Level examinations. The 2019 edition of the book has been extensively revised to allow for IFRS 9 and IFRS 15 becoming the main examinable standards on financial instruments and revenue (respectively) in the 2019 Advanced Level syllabus. We have worked backwards from the model answers to all Advanced Level past papers, Mock exams and Question Bank questions to summarise approximately 75 highly examinable financial reporting areas into sets of key mark-scoring points - ideal to prevent you dropping easy marks by forgetting basic points and also helpful when attacking harder parts of the questions. In addition, it is vital to revise brought-forward knowledge from the Professional Level paper in Financial Accounting and Reporting (FAR) as part of your preparations for the Advanced Level examinations (in many Corporate Reporting examinations, brought-forward FAR knowledge is worth at least as many marks as the new Advanced Level FR topics). Therefore, the book also includes key model answer points from our review of all FAR past papers, Mock exams and Question Bank questions to provide useful reminders - examiner feedback is often that the brought-forward knowledge of candidates is weak, losing many potentially easy marks. All content is organised in a sensible alphabetical format so that you can very quickly find the content that you need. New fully revised and updated edition of our popular and student-focused guide to passing this unusual examination. We have extensively revised the text to take into account the lessons learned from the latest examination (Piccolo Limited, July 2017), including the new markscheme evidence regarding the importance of background and contract outline points, as well as revisions to the testing of the querying of assumptions. The book also contains some related tips provided by the Case Study examiners at the 2017 ICAEW Tutor Conference. The new edition further improves our

popular and ICAEW prize-winning "Planning & Reminder Sheets", lovingly honed and prepared to keep you focused on mark-scoring points - as used on our July 2017 tuition courses, which achieved a pass rate of 98%. This book is aimed at both re-sit students and first timers who wish to ensure a pass in this highly unusual examination. Includes £20 discount voucher against our November 2017 live mock exam pack: 5 realistic mock exams based on the live November 2017 Advance Information, giving you 5 opportunities to practise your timing and technique whilst only reading one set of Advance Information (and the only set of Advance Information which really matters to you). (We are aiming to release the mock pack in October 2017.) Cracking Case(TM) explains the ACA Simplified "40 Task Approach(TM)" to cracking the ACA Case Study. Organised into 18 Chapters and 5 Appendices, this book will take you through our carefully designed and practical approach to gaining the marks you need to pass. Includes detailed "student eye" views from 2 students who increased their grades by 20 percentage points each between the July 2012 and November 2012 sittings using the 40 Task Approach(TM). Our unique method is completely focused on the markscheme and unlocks the secrets of a pass through a simplified approach which is radically different from the standard "4 Column Planning Grid" endorsed by many other providers. Successfully used by the July 2014 ICAEW international Case Study prize winner who scored 92% at his first attempt and also by the 2014 ICAEW East Midlands Case Study prize winner who placed first in his region after attending our retake course (having failed first time with another provider). Please also see the numerous other 5 star reviews of this and previous editions as posted on Amazon.co.uk by students we have helped since the first edition of "Cracking Case" was published in 2013.
