This book comprises the proceedings of the International Perm Forum "Science and Global Challenges of the 21st Century" held on October 18th-23rd, 2021, at Perm State University, Perm, Russia. Global challenges, which determine the main trends in the development of social and economic life in the XXI century, require the integration of specialists in various fields of knowledge. That is why the main principle of this edition is interdisciplinarity, the formation of end-to-end innovation chains, including fundamental and applied research, and the wide application of smart innovations, networks, and information technologies. The authors seek to find synergy between technologies and such fields as computer science, geosciences, biology, linguistics, social studies, historical studies, and economics. The book is of interest to researchers seeking nontrivial solutions at the interface of sciences, digital humanities, computational linguistics, cognitive studies, machine learning, and others

Give your students the best chance of success with this tried and tested series, combining in-depth analysis, engaging narrative and accessibility. Access to History is the most popular, trusted and wide-ranging series for A-level History students. This title: - Supports the content and assessment requirements of the 2015 A-level History specifications - Contains authoritative and engaging content - Includes thought-provoking key debates that examine the opposing views and approaches of historians - Provides exam-style questions and guidance for each relevant specification to help students understand how to apply what they have learnt This title is suitable for a variety of courses including: - Edexcel: The Unification of Germany, c1840-71 - OCR: The Challenge of German Nationalism 1789-1919 Throughout the 'long 19th century', the Ottoman and Russian empires shared a goal of destroying one another. Yet, they also shared a similar vision for imperial state renewal, with the goal of avoiding revolution, decline and isolation within Europe. Adrian Brisku explores how this path of renewal and reform manifested itself: forging new laws and institutions, opening up the economy to the outside world, and entering the European political community of imperial states. Political Reform in the Ottoman and Russian Empires tackles the dilemma faced by both empires, namely how to bring about meaningful change without undermining the legal, political and economic status quo. The book offers a unique comparison of Ottoman and Russian politics of reform and their connection to the wider European politico-economic space.

The Rise of Modern Warfare 1618-1815

Russia and the Eastern Question

The Russian Officer Corps in the Revolutionary and Napoleonic Wars, 1792-1815

Russia, 1815-81

Ath Russia 1815-81

In this volume an international team of scholars builds up a

comprehensive analysis of the fiscal history of Europe over six centuries. It forms a fundamental starting-point for an understanding of the distinctiveness of the emerging European states, and highlights the issue of fiscal power as an essential prerequisite for the development of the modern state. The study underlines the importance of technical developments by the state, its capacity to innovate, and, however imperfect the techniques, the greater detail and sophistication of accounting practice towards the end of the period. New taxes had been developed, new wealth had been tapped, new mechanisms of enforcement had been established. In general, these developments were made in western Europe; the lack of progress in some fiscal systems, especially those in eastern Europe, is an issue of historical importance in its own right and lends particular significance to the chapters on Poland and Russia. By the eighteenth century 'mountains of debt' and high debt-revenue ratios had become the norm in western Europe, yet in the east only Russia was able to adapt to the western model by 1815. The capacity of governments to borrow, and the interaction of the constraints on borrowing and the power to tax had become the real test of the fiscal powers of the 'modern state' by 1800-15.

Russia in 1815 - Alexander I - Nicholas I - The emancipation of the serfs - The reforming Tsar - Reactions to reform - Russian foreign policy from Vienna to the Congress of Berlin.

While it is generally acknowledged that Russia's culture has been influenced by France, the present study goes beyond the Francophile preferences of the noble elite and examines Russian society more broadly, exploring those elements of French cultural influence still relevant today. This is done through an historical analysis of French loanwords in the Russian language from the time of Peter the Great to

the present. The result of this lexical analysis and subsequent study of eighteenth- and nineteenth-century archival, periodical, and memoir material is to empirically link Russia's present culture to two major Franco-Russian events: the wave of immigration to Russia following the French Revolution and Russia's war with Napoleon. This is primarily a book for those interested in European history, particularly imperial Russia, the French Revolution, and Napoleonic Wars. The study of Russian officer memoirs includes original campaign maps, which may be of interest to military historians. The analysis of periodical literature will likewise be a resource for those studying the history of printing, publishing, and journalism in Russia. The book's interdisciplinary nature, however, broadens its relevance to linguists, cultural historians, and those in the emerging field of Immigration Studies.

Russia and the Russians

A History of Modern Europe

Remember the Ladies

Identity Meets Nationality

Proceedings of the International Perm Forum "Science and Global Challenges of the 21st Century"

Insurrection of Poland in 1830-31

PULITZER PRIZE WINNER • An “urgently readable” (Newsweek) biography of the captivating tsar who changed Russian history—from the New York Times bestselling author of *Nicholas and Alexandra*, *The Romanovs*, and *Catherine the Great* “Enthralling . . . as fascinating as any novel and more so than most.”—The New York Times Book Review Against the monumental canvas of seventeenth- and eighteenth-century Europe and Russia unfolds the magnificent story of Peter the Great, crowned co-tsar at the age of ten. Robert K. Massie delves deep into his life, chronicling the pivotal events that shaped a boy into a legend—including his “incognito” travels in Europe, his unquenchable curiosity about Western ways, his obsession with the sea and establishment of the stupendous Russian navy, his creation of an unbeatable army, his transformation of Russia, and his relationships with those he loved most: Catherine, the robust yet gentle peasant, his loving mistress, wife, and successor; and Menshikov, the charming, bold, unscrupulous prince who rose to wealth and power through Peter’s friendship. Impetuous and stubborn, generous and cruel, tender and unforgiving, a man of enormous energy and complexity, Peter the Great is brought fully to life.

Chronicles the history of the Russian Empire from the Mongol Invasion, through the Bolshevik Revolution, to the aftereffects of the Cold War.

Questions about how social conditioning and historical circumstances influence assumptions about who we are and how others perceive who we are have attracted wide ranging discussion across the disciplines in the arts, humanities and allied sciences. Simultaneously, since the Independence period, scholars have deliberated over the varied implications of new states emerging throughout Africa. The peer-reviewed selected papers for this anthology represent a cross section of the diverse perspectives reflecting research and cross-disciplinary collaborations undertaken by members of the University of Ghana faculty and graduate students working in archaeology, literary criticism of African as well as English and Russian literatures, economics, history, cognitive psychology, linguistics, dance, music, philosophy, sociology, and the study of religions.

This third edition has been revised and updated to reflect the needs of the current specifications. The title explores the developments and factors in nineteenth century Germany that affected the move towards national unity, before going on to examine Bismarck's Germany and his fall, and ending with a new section examining the policies and changes within the new German state up to the formation of the Weimar Republic in 1919. The book also includes an assessment of Bismarck as a leader and questions how united Germany really was by 1890. Throughout the book, key dates, terms and issues are highlighted, and historical interpretations of key debates are outlined. Summary diagrams are included to consolidate knowledge and understanding of the period, and exam-style questions and tips for each examination board provide the opportunity to develop exam skills. Russia 1815-81 Hodder Education

During the Napoleonic Wars (1799-1815), the Cossacks were Russia's unique and plentiful supply of irregular cavalry. They were employed as skirmishers, raiders and scouts, and their tactics of harassment and harrying caused great problems for Napoleon's Grand Armée as it retreated through Russia in 1812. This title shows how, although labelled as rapacious, lascivious, mercenary and ill-disciplined on the field by their detractors, they laid claim to being the finest light cavalry in Europe. This book also details the various tribes that made up the Cossack nation, the social structure of Cossack life, and how they were organised and employed in war.

Presented here, for the first time in any language, are more than 800 detailed biographies of the senior Russian officers who commanded troops in the Revolutionary and Napoleonic Wars, together with 440 b&x portraits. This amazing study spans the critical years of 1792 to 1815, but also includes those officers whose service fell before and after this period. Dr. Mikaberidze's *The Russian Officer Corps* is based upon years of research in Russian archives. Each biography includes the subject's place of birth, family history, educational background, a detailed description of his military service, his awards and promotions, wounds, transfers, commands, and other related information, including the date and place of his death and internment, if known. In addition to the biographies is an introductory chapter setting forth in meticulous detail the organization of the Russian military, how it was trained, the educational and cultural background of the officer corps, its awards and their history and meaning, and much more. This outstanding overview is supported and enhanced by three dozen charts, tables, and graphics that illustrate the rich history of the Russian officer corps. This study also includes a Foreword by Dr. Donald H. Horward, and an annotated bibliography to help guide students of the period through the available Russian sources. Stunning in its scope and depth of coverage, *The Russian Officer Corps* will be of tremendous use to historians, scholars, genealogists, hobbyists, wargamers, and anyone working or studying late 18th and early 19th-century European history. Every student of the

Revolutionary and Napoleonic Wars, as well as every academic library, will find this impressive reference work absolutely indispensable. Serious readers of this momentous period of history cannot afford to be without this exceptional reference work. About the Author: Alexander Mikaberidze is an assistant professor of history at Mississippi State University. He holds a law degree from the Republic of Georgia and a Ph.D. in history from Florida State University, where he worked at the Institute on Napoleon and the French Revolution. He serves as president of the Napoleonic Society of Georgia. In addition to his numerous articles on various Napoleonic-related topics, Dr. Mikaberidze's publications include a biography of Napoleon in Georgian, two volumes on the Russo-Turkish War of 1806-1812, and the forthcoming *Lion of the Russian Army: Life and Career of General Peter Bagration*

Russia and the Napoleonic Wars

A History of Modern Europe surveys European history from the defeat of Napoleon to the twenty-first century, presenting major historical themes in an authoritative and compelling narrative. Concise, readable single volume covering Europe from the early nineteenth century through the early twenty-first century Vigorous interpretation of events reflects a fresh, concise perspective on European history Clear and thought-provoking treatment of major historical themes Lively narrative reflects complexity of modern European history, but remains accessible to those unfamiliar with the field

"Focuses on networks of people, information, conveyances, and other resources and technologies that moved slave-based products from suppliers to buyers and users." (page 3) The book examines the credit and financial systems that grew up around trade in slaves and products made by slaves.

Comprehensive books to support study of History for the IB Diploma Paper 3, revised for first assessment in 2017. This coursebook covers Paper 3, History of Europe, Topic 14: European States in the Inter-War Years (1918-1939) of the History for the IB Diploma syllabus for first assessment in 2017. Tailored to the Higher Level requirements of the IB syllabus and written by experienced IB History examiners and teachers, it offers authoritative and engaging guidance through the topic, exploring domestic developments during this time in Germany, Italy, Spain and France.

*The complex and often turbulent history of Russia over the course of 2,000 years is brought to life in a series of 176 maps by one of the most prolific and successful historian authors today. This fourth edition of *The Routledge Atlas of Russian History* covers not only the wars and expansion of Russia but also a wealth of less conspicuous details of its history, from famine and anarchism to the growth of naval strength and the strengths of the river systems. From 800 BC to the fall of the Soviet Union, this indispensable guide to Russian history covers: war and conflict: from the triumph of the Goths between 200 and 400 BC to the defeat of Germany at the end of the Second World War and the end of the Cold War politics: from the rise of Moscow in the Middle Ages to revolution, the fall of the monarchy and the*

collapse of communism industry, economics and transport: from the Trans-Siberian Railway between 1891 and 1917 to the Virgin Lands Campaign and the growth of heavy industry society, trade and culture: from the growth of monasticism to peasant discontent, Labour Camps and the geographical distribution of ethnic Russians. Now bringing new material to view, and including seven new maps, this popular atlas will more than readily gain a place on the bookshelves of anyone interested in the history of Russia.

The Beginnings of Russian-American Relations, 1775-1815

In *From Victory to Peace*, Elise Kimerling Wirtschafter brings the Russian perspective to a critical moment in European political history. This history of Russian diplomatic thought in the years after the Congress of Vienna concerns a time when Russia and Emperor Alexander I were fully integrated into European society and politics. Wirtschafter looks at how Russia's statesmen who served Alexander I across Europe, in South America, and in Constantinople represented the Russian monarch's foreign policy and sought to act in concert with the allies. Based on archival and published sources—diplomatic communications, conference protocols, personal letters, treaty agreements, and the periodical press—this book illustrates how Russia's policymakers and diplomats responded to events on the ground as the process of implementing peace unfolded. Thanks to generous funding from the Sustainable History Monograph Pilot and the Mellon Foundation the ebook editions of this book are available as Open Access (OA) volumes from Cornell Open (cornellopen.org) and other Open Access repositories.

Comprehensive books to support study of History for the IB Diploma Paper 3, revised for first assessment in 2017. This coursebook covers Paper 3, HL option 4: History of Europe, Topic 11: Italy (1815–1871) and Germany (1815–1890) of the History for the International Baccalaureate (IB) Diploma syllabus for first assessment in 2017. Tailored to the requirements of the IB syllabus, and written by experienced examiners and teachers it offers authoritative and engaging guidance through events in Italy and Germany in the 19th century, from the impact of revolutions to the emergence of nationalism and the factors involved in the unification process. This book will appeal to scholars and students of naval and military history, veterans, current officers, and maritime-oriented history buffs.

A History

Russia 1815-81

Ensure your students have access to the authoritative and in-depth content of our popular and trusted A Level History series. For over twenty years Access to History has been providing students with reliable, engaging and accessible content on a wide range of topics. Each title in the series provides comprehensive coverage of different history topics on current AS and A2 level history specifications, alongside exam-style practice questions and tips to help students achieve their best. The series: - Ensures students gain a good understanding of the AS and A2 level history topics through an engaging in-depth and up-to-date narrative, presented in an accessible way. - Aids revision on key A level history topics and themes through frequent summary diagrams - Gives exam support with assessment, both through the books providing exam-style questions and tips for AQA, Edexcel and OCR A level history specifications and through FREE model answers with supporting commentary at Access to History online (www.accesstohistory.co.uk) Russia 1815-1881 Reaction and reform in nineteenth century Russia is the focus for this second edition. Incorporating the latest historical interpretations, the book highlights the problems faced by those who endeavour to modernise and restructure the Russian state, and examines why they were frequently characterised as repressors rather than reformers.

From the end of the Mongol Empire to today, Russian history is a tale of cultural and political, economic and military interaction with Western powers. The depth of this relationship has created a geopolitical dilemma: Russia has persistently been both attracted to and at odds with Western ideas and technological development, which tended to threaten Russia's sense of identity and create destabilizing divisions within society. Simultaneously, deepening involvement in Western international affairs

brought meddling in Russian domestic politics and military invasion. This book examines how the centuries-old Western threat has shaped Russia's political and strategic structures, creating a culture of security rooted in vigilance against Western influence and interference.

Europe, 1890-1945 is a new approach to teaching and learning early twentieth century European history at A level. It meets the needs of teachers and students studying today's revised AS and A2 exams. In a unique style, Europe, 1890-1945 focuses on key topics within the period. Each topic is then comprehensively explored to provide background information, essay writing advice and examples, source work, and historical skills exercises. From 1890 to 1945, the key topics featured include: * the origins and impact of the First World War * the Russian Revolution and the rise of Stalin * the Weimar Republic and the rise of Hitler * Mussolini and Fascist Italy * Stalin and the Soviet Union, 1928-41.

This book covers one of the most important and persistent problems in nineteenth century European diplomacy, the Eastern Question. The Eastern Question was essentially a short hand for comprehending the international consequences caused by the gradual and apparently terminal decline of the Ottoman Empire in Europe. This volume examines the military and diplomatic policies of Russia, as it struggled with the Ottoman Empire for influence in the Balkans and the Caucasus. The only research monograph in English to cover this subject in such breadth and depth, Russia and the Eastern Question is based on extensive use of Russian archive sources. It makes a significant contribution to our understanding of issues such as the development of Russian military thought, the origins and conduct of the 1828-1829 Russo-Turkish War, the origins and conduct of the 1826-1828 Russo-Persian War and the Treaty of Adrianople. The author also branches out into new territory by considering issues such as the Russian army's use of Balkan irregulars, the reform of the Danubian Principalities (1829 -1834), the ideas of the 'Russian Party' and the little-known views of Russian public opinion toward the Eastern Question. Providing a fascinating integration of the various aspects of Russian military thought, war planning and campaign history, diplomacy, imperial expansion, geopolitics and propaganda into a coherent whole, this volume will be of great interest to scholars and students in the fields of nineteenth-century Russian, Ottoman, Balkan, Caucasus and Persian history, European diplomacy and warfare and war and society studies. It will also be of interest to all those concerned with the historical background to the Crimean war and later episodes in the Eastern Question.
