This book brings together a selection of June Pallot's most significant work. Written from a country (New Zealand) that led the world in many aspects of its financial management reforms, this work provides thoughtful comment on matters that remain of crucial importance today, especially the constitutional need to carefully monitor and respond to the reform initiatives and motives of executive government. Revisiting accounting issues and developments in the public sector, and reminding readers that the fundamental purpose of government accounting is different from that for the business sector, this book provides a timely reminder of the need for caution when considering the application in the public sector of accounting techniques devised for business purposes. June Pallot's legacy challenges accountants in the public sector to find better ways of addressing "collective decision-making under new governance approaches", proposes ways forward and offers suggestions for future research. This book, prepared by her colleague Susan Newberry, is a tribute to June's work.

The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA.BPP Learning Media is an ACCA Official Publisher. P2 is a very challenging paper which builds on the knowledge and skills acquired at earlier levels in the preparation and analysis of financial reports for single entities and groups. It takes these areas to a higher level, putting into context the role of the accountant as a professional steward and adviser, who is responsible to the stakeholders of an organisation.It has five main sections: 1. Regulatory and ethical framework and current issues 2. Reporting the financial performance of entities 3. Group financial statements 4. Specialised entities 5. Analysis of the financial performance of entitiesThe main new topics introduced at this level relate to group accounts, but other topics are tested with a different emphasis and in more depth than at the Fundamentals Level.We provide material for both International and UK streams. International is now the ACCA main stream.The study text has been reviewed by the examiner and takes account of his advice on approaching the paper. Ethics, which have an impact on all aspects of financial reporting, are introduced at an early stage in the text, as is corporate social responsibility, so that students do not neglect these topics when covering the numerical areas. Accounting standards come next, combining revision with extension into more advanced areas. After a brief revision of basic groups, the more advanced consolidation topics are covered. Current issues are covered throughout the text within the appropriate topics, and also summarised in a final chapter. The question bank contains practice at the case study-style question you will encounter in the real exam.BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams.

The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and

now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. Paper F5, Performance Management, aims to develop knowledge and skills in the application of management accounting information. Students will need to have a knowledge of management accounting techniques and be able to apply their knowledge to a performance management problem. The emphasis is on practical elements and application to the real world. F5 is the middle paper in the management accounting section of the qualification structure, between F2, which concerns just techniques and P5, which thinks strategically. The key syllabus areas in F5 are: \* Specialist cost and management techniques \* Decision-making techniques \* Budgeting \* Standard costing and variances analysis \* Performance measurement and control. This examiner-reviewed Study Text contains all you need to know for F5, featuring practical applications of management accounting techniques. Knowledge that you should have from your earlier studies such as basic variance analysis is clearly identified and briefly reviewed. More difficult new topics such as learning curves are clearly explained with plenty of examples and questions to help your understanding. Key terms are identified throughout to help you to learn new terminology such as short-termism and total quality management.
