An award-winning documentary photographer delivers a stunning visual history of the Silicon Valley technology boom, in which he was witness to key moments in the careers of Steve Jobs and more than seventy other leading innovators as they created today's digital world. An eye-opening chronicle of the Silicon Valley technology boom, capturing key moments in the careers of Steve Jobs and more than seventy other leading innovators as they created today's digital world In the spring of 1985, a technological revolution was under way in Silicon Valley, and documentary photographer Doug Menez was there in search of a story--something big. At the same time, Steve Jobs was being forced out of his beloved Apple and starting over with a new company, NeXT Computer. His goal was to build a supercomputer with the power to transform

education. Menuez had found his story: he proposed to photograph Jobs and his extraordinary team as they built this new computer, from conception to product launch. In an amazing act of trust, Jobs granted Menuez unlimited access to the company, and, for the next three years, Menuez was able to get on film the spirit and substance of innovation through the day-to-day actions of the world's top technology guru. From there, the project expanded to include the most trailblazing companies in Silicon Valley, all of which granted Menuez the same complete access that Jobs had. Menuez photographed behind the scenes with John Warnock at Adobe, John Sculley at Apple, Bill Gates at Microsoft, John Doerr at Kleiner Perkins, Bill Joy at Sun Microsystems, Gordon Moore and Andy Grove at Intel, Marc Andreessen at Netscape, and more than seventy other leading companies and innovators. It would be fifteen years before Menuez stopped taking pictures, just as the dotcom bubble burst. An extraordinary era was coming to its close. With his singular behind-the-scenes access to these notoriously insular companies, Menuez was present for moments of heartbreaking failure and unexpected success, moments that made history, and moments that revealed the everyday lives of the individuals who made it happen. This period of rapid, radical change would affect almost every aspect of our culture and our lives in ways both large and small and would also create more jobs and wealth than any other time in human history. And Doug Menuez was there, a witness to a revolution. In more than a hundred photographs and accompanying commentary, *Fearless Genius* captures the human face of innovation and shows what it takes to transform powerful ideas into reality.

Many leaders take a haphazard approach to leadership, positioning themselves and their organizations for failure by adapting whichever methods and practices they believe will prove effective at the moment and demanding results no matter the cost. However, there is a more viable, effective leadership strategy one that allows the goals of an organization to be achieved when leaders embrace and replicate their leadership DNA. *Mastering Your Leadership DNA* defines the concept of this leadership DNA, exploring how a scientific principle can be applied to leadership. Author Linsdale McKenzie, an experienced leader with an extensive track record of managing employees to foster corporate growth, examines and explains the fundamental and foundational measures that foster the high level of managerial competency needed to motivate and support employee performance and build a foundation for organizational success.

A business memoir from fifteen year-old lemonade entrepreneur and one of TIME Magazine's Top 30 Most Influential Teens, Mikaila Ulmer, and her advice for life and business. When Mikaila Ulmer was four, she was stung by a bee--twice in one week. She was terrified of going outside, so her parents encouraged her to learn more about bees so she wouldn't be afraid. It worked. Mikaila didn't just learn what an important role bees play in our ecosystem, but she also learned bees are endangered, and set out to save them. She started by selling cups of lemonade in front of her house and donating the small proceeds to organizations dedicated to bee conservation. When she realized the more lemonade she sold, the more bees she could help, Me & the Bees Lemonade was born. Now she sells her lemonade across the country. From meetings with Fortune 500 CEOs, to securing a deal on Shark Tank, to even visiting the Obama White House, Mikaila's lemonade and passion for bee conservation have taken her far. In *Bee Fearless*, part memoir, part business guide, Mikaila--now fifteen--shares her personal journey and special brand of mindful entrepreneurship and offers helpful tips and guidance for young readers interested in pursuing their own ventures, instilling in them the bee-lief that they can be fearless and achieve their dreams too.

Former Secret Service agent and star of Bravo's *Spy Games* Evy Poumpouras shares lessons learned from protecting presidents, as well insights and skills from the oldest and most elite security force in the world to help you prepare for stressful situations, instantly read people, influence how you are perceived, and live a more fearless life. *Becoming Bulletproof* means transforming yourself into a stronger, more confident, and more powerful person. When you have become bulletproof, you are your best, most courageous, and most powerful version of you. Poumpouras shows us that ultimately true strength is found in the mind, not the body. Courage involves facing our fears, but it is also about resilience, grit, and having a built-in BS detector and knowing how to use it. In *Becoming Bulletproof*, Poumpouras demonstrates how to heighten our natural instincts to employ all these qualities and move from fear to fearlessness.

Psychotherapist Jonathan Alpert shares his revolutionary five-step program that teaches readers to get rid of their fears--large and small--and find true happiness and success. Most people have something that gnaws at them at night, a mess or unrealized dream somewhere in their lives that causes them to feel stuck, out of control, overwhelmed, incomplete, and dissatisfied. They want to run away, back away, and ignore what they fear--whether it's a demanding boss, unsatisfying sex life, or distant love interest, but they can't. The fear finds them anyway. It's always there, and it's the source of all of their unhappiness. It's what lies behind every problem, and it's what stands between them and the lives they were meant to live. Psychotherapist Jonathan Alpert wants readers to know one thing: you can face your fear and create your ultimate life--and you can do it quickly. You can find your dream job. You can end that dead end relationship and get the love you want and deserve. You can overcome perfectionism, procrastination, panic, worry, rejection, failure, excuses and even the people in your life who keep telling you that you can't. You can turn your dreams into reality. You can find happiness, success and love. And you don't need years of therapy or even medications to do it. BE FEARLESS is a 5 step plan that is guaranteed to transform the fearful into fearless. It's based on a revolutionary formula developed by Jonathan Alpert, and it's worked on countless patients whose amazing stories are told throughout the book. In as few as 3 weeks readers will transform their lives using the 5 step program: Define Your Dream Life Break Your Fear Pattern Rewrite Your Inner Narrative Eliminate Your Fear Response Live Your Dream By teaching readers to use fear to their advantage and take important risks BE FEARLESS will make the impossible possible.

The winning game plan for channeling fear into world-class performance Fear comes in all forms, but one thing is always true: Fear is an obstacle to success. Every successful person has overcome fear. Hailed as "the female Jerry Maguire" by CNN, top sports agent-turned-entrepreneur Molly Fletcher knows all about performing under pressure. Talent, skill, and endurance may be necessary ingredients to athletic achievement, but Fletcher zeroes in on the one common trait that drives elite individuals and teams to unparalleled success: a winning, fearless mindset. Success isn't built in a day, so she guides you to recognize, seize, and shape the small moments that will make the greatest difference. Filled with play-by-play insights and field-tested strategies?and anchored by inspiring stories from an all-star roster of sports and business leaders?Fearless at Work shows you how to: • trade your self-defeating attitudes and self-imposed hurdles for a new outlook rooted in a sense of mission and purpose • defeat toxic thinking, push beyond your comfort zone, embrace new challenges, and achieve your stretch goals • prepare yourself to seize the moment when opportunity presents itself • harness the heightened alertness that comes with fear to drive positive outcomes • shrug off the fear of failure and not worry so much about what other people think, while gaining the confidence that comes from achieving meaningful change It takes awareness, it takes work, and it takes determination—but in the end, conquering your fear is a choice. It's your choice to become Fearless at Work.

What does it take to have fearless schools? It starts with psychological safety--students, teachers, and leaders who know that mistakes are the source of learning, not shame or embarrassment. In order for great learning to take place, we first must build the trust and resilience needed to produce fearless students, teachers, and leaders--and ultimately create fearless schools. "If we are truly going to make schools inviting places for all students to come to and flourish, then the status quo, the 'normal,' is not good enough. To build the trust, the collegiality, the aspirational expectations among educators for this to happen--we need to be fearless. Doug Reeves outlines the conditions for such fearlessness: not tolerating mediocrity, confronting reality over wishful thinking, listening and candor, and resilience and learning together from errors. Written with passion, this book invites you to develop the courage to create schools that are fearless such that all (educators and students) are improving, aspiring, and are part of a learning organization." -John Hattie, Emeritus Laureate Professor, Melbourne Graduate School of Education; Chair, Board of the Australian Institute for Teaching and School Leadership "In Fearless Schools, Dr. Reeves tackles an urgent issue facing our children and the staff members who work with them. Fear of the virus, fear of change, and even fear of interacting with others will create a critical need to address these fears, reduce anxiety, and generally tend to the social and emotional health of children and staff." -Chris Lee Nicastro, PhD, former Commissioner of Education, State of Missouri

Because goals must be thought big, so that you are also motivated accordingly to work towards the vision. "The odds of the Foxes winning the Premier League at the start of the season were the same as the Yeti or the Loch Ness Monster being proven to exist, Christmas being the warmest day of the year in England or Barack Obama playing cricket for England after he left the Oval Office." -ESPN On March 21, 2015, Leicester City lost their sixth game in eight matches. Without a victory for two months, they were rock bottom of the English Premier League, heading for certain relegation to the lower division, and about to miss out on a once-in-a-lifetime financial bonanza of TV money and opportunity. As usual, London and Manchester would clean up, the rich would get richer, and the hopes of the small, overlooked, multicultural city would sink. But Leicester started to win. They stayed up; and in the new season they kept on winning. Favorites for relegation, rank outsiders as potential champions (their 5000-1 odds were the longest in the world for any major sporting event), their entire squad had been assembled for less than the cost of a single player for Manchester City. Still, they beat Manchester City and Liverpool, Tottenham and Chelsea: the most incredible cast of written-offs, grafters, misfits, and journeymen came together for the season of their lives. This is the story every underdog dreams of, every small town with a much larger, more affluent neighbor hopes for, and a triumph that defies logic and expectation.

Conquer the most essential adaptation to the knowledge economy The Fearless Organization: Creating Psychological Safety in the Workplace for Learning, Innovation, and Growth offers practical guidance for teams and organizations who are serious about success in the modern economy. With so much riding on innovation, creativity, and spark, it is essential to attract and retain quality talent-but what good does this talent do if no one is able to speak their mind? The traditional culture of "fitting in" and "going along" spells doom in the knowledge economy. Success requires a continuous influx of new ideas, new challenges, and critical thought, and the interpersonal climate must not suppress, silence, ridicule or intimidate. Not every idea is good, and yes there

are stupid questions, and yes dissent can slow things down, but talking through these things is an essential part of the creative process. People must be allowed to voice half-finished thoughts, ask questions from left field, and brainstorm out loud; it creates a culture in which a minor flub or momentary lapse is no big deal, and where actual mistakes are owned and corrected, and where the next left-field idea could be the next big thing. This book explores this culture of psychological safety, and provides a blueprint for bringing it to life. The road is sometimes bumpy, but succinct and informative scenario-based explanations provide a clear path forward to constant learning and healthy innovation. Explore the link between psychological safety and high performance Create a culture where it's "safe" to express ideas, ask questions, and admit mistakes Nurture the level of engagement and candor required in today's knowledge economy Follow a step-by-step framework for establishing psychological safety in your team or organization Shed the "yes-men" approach and step into real performance. Fertilize creativity, clarify goals, achieve accountability, redefine leadership, and much more. The Fearless Organization helps you bring about this most critical transformation.

In July 2007, Lewis Gordon Pugh became the first person to swim at the North Pole, in temperatures that would kill a normal person, primarily to raise awareness of climate change. Nicknamed 'the human polar bear' for his ability to raise his body temperature at will, he has pioneered swims in the world's most hostile waters, redefining what it is possible to achieve in terms of endurance. A former member of the SAS, Lewis tells his fantastic story here for the first time. Chapters cover his childhood, growing up with his 'hero' Surgeon Rear Admiral father, his early life in South Africa, his gruelling training in the army's elite regiment, his inspiration and, of course, plenty of action/adventure stories, chronicling his many nail-biting endurance swims. With practical lessons taken from his own life, Lewis explains how recognising one's passions and taking calculated risks is essential for anyone looking to fulfil their goals. The book will also cover his expedition kayaking to the North Pole in summer 2008 and preparing for his most dangerous swim yet - on Everest! - planned for May 2010. His story is inspiring, entertaining and thrilling in equal measure, and its 39-year-old author is a much-needed role model for our times.

Jordan Zimmerman is among the most provocative entrepreneurs of the last quarter century, and a singular expert on how to achieve success. As founder and chairman of one of the most successful—and client-focused—ad agencies in the world, his formula is simple: Everything begins with insane commitment—and plenty of it. *Leading Fearlessly* is a pull-no-punches guide to success—whether you need some inspiration on a new business idea, motivation to continue fighting obstacles, or if you just need some direction. The undisputed “bad boy” of advertising shows you how success goes only to those who do whatever it takes—and who relentlessly pursue the goal, but never rest in the glory. *Leading Fearlessly* is a powerful and inspiring prescription for anyone who dreams of success and is willing to sacrifice all that it takes, as long as it takes, to get there.

Be Fearless is researched-based call to action for those seeking to live extraordinary lives and bring about transformational change. LOS ANGELES TIMES BESTSELLER * NATIONAL BESTSELLER Weaving together storytelling, practical tips and inspiration, the book will teach you how to put the five fearless principles to work so that you too can spark the sorts of remarkable breakthroughs that can impact the world. Philanthropist, investor, and technology pioneer Jean Case brings to life the five *Be Fearless* principles common to the people and organizations that bring about transformational change. When National Geographic Chairman Jean Case set out to investigate the core qualities of great change makers, past and present, from inventors to revolutionaries, she found five surprising traits they all had in common. These weren't wealth, privilege, or even genius. What all of these exceptional men and women shared was that they had chosen to make a “big bet,” take bold risks, learn from their failures, reach beyond their bubbles, and let urgency conquer fear. Throughout *Be Fearless*, Jean vividly illustrates these principles through storytelling—from her own transformational life experiences, to Jane Goodall's remarkable breakthroughs in understanding and protecting chimpanzees, to celebrity chef José Andrés' decision to be a “first responder” and take his kitchen to the sites of devastating hurricanes to feed the hungry, to Madame C.J. Walker's vision to build a hair care empire that would employ thousands across the country, and more. She shares new insights to stories you might think you know—like Airbnb's tale of

starting from scratch to transform the hospitality industry, to John F. Kennedy's history-making moonshot—and gems from changemakers you've never heard of. Be Fearless features a compelling foreword from Jane Goodall saying "there is no time in history when it has been more important to Be Fearless" and a new afterword with stories of people inspired to take action after reading the book.

Through the ages, strong, inspirational women and girls have risen in response to uncertainty and injustice. A timeless call to arms that many like Fatima Jinnah, Asma Jehangir, Sheema Kirmani, Nighat Dad and Malala Yousafzai have always been answering. Demonstrating that one girl can change everything. Fearless: Stories of Amazing Women from Pakistan chronicles the lives of fifty such incredible women—scientists, lawyers, politicians, activists and artists—who incite hope, inspire action and initiate dialogue. Fiercely bold, this beautifully illustrated book holds up a mirror to South Asians across the world and highlights that their voices are crucial.

Vinny Grosso is in the business of doing the impossible, he is an internationally recognized magician. His illusions, however, pale in comparison to the real life stories he is writing about in Exposed & Fearless. Grosso draws inspiration from many of the people he knows and works with that really doing amazing, seemingly impossible things. From Cesar Millan who whispers to dogs, to Colin Mochrie and Brad Sherwood, stars of the hit improv comedy show Whose Line is it Anyway, who create a new comedy show every night, to Banachek, a man who literally fooled scientists with his incredible feats of mentalism. Exposed & Fearless will reveal the secrets of how these and others went from ordinary to extraordinary and how you too can do the same. Exposed & Fearless presents, in narrative, a behind the scenes glimpse into the lives of these remarkable people, providing the reader with first hand insight into how they captivate our imaginations. Grosso's personal experiences are neatly harmonized with stories of inspiration and motivation daring us to do the same. Imagine elements from a mind teasing magic show combined with a university lecture about overcoming fear intertwined into an inspirational book. It is an uncommon twist on the old familiar "Great book turned blockbuster movie" success story.

Learn to unlock your inner explorer in this riveting account of a great, forbidding adventure and "a fascinating examination of the seven key traits of history's most famous explorers...[with] infusions of insight and enthusiasm" (Publishers Weekly, starred review). In 1856, two intrepid adventurers, Richard Francis Burton and John Hanning Speke, set off to unravel a geographical unknown: the location of the Nile River's source. They traveled deep into an uncharted African wilderness together, arrived at two different solutions to the mystery, and parted ways as sworn enemies. The feud became an international sensation on their return to England, and a public debate was scheduled to decide whose theory was correct. What followed was a massive spectacle with an outcome no one could have foreseen. In The Explorers, New York Times bestselling author Martin Dugard shares the rich saga of the Burton and Speke expedition and guides readers through the seven traits that history's most legendary explorers called on to survive their impossible journeys. In doing so, Dugard demonstrates that these traits have a most practical application in everyday life. We see St. Brendan the Navigator, driven by hope, sail into the unknown, and the curiosity that inspired John Ledyard to attempt to walk around the globe, and the perseverance Howard Carter needed to discover Tutankhamen's tomb. From these and other examples, Dugard extracts lessons for unlocking the explorer in us all.

Author, syndicated columnist, occasional actress, and businesswoman Ariana Huffington examines the ways in which fear affects the lives of women, and the steps

anyone can take to conquer fear. Observing that her own teenage daughters were beginning to experience some of the same fears that had once burdened her -- How attractive am I? Do people like me? Do I dare speak up? -- Arianna Huffington was compelled to look at the subject and impact of fear. In stories drawn from her own experiences and with contributions from Nora Ephron, Diane Keaton and many others, she points toward the moments of extraordinary strength, courage, and resilience that result from confronting and overcoming fear. Her book shows us how to become bold from the inside out: from feeling comfortable in our own skin, to getting what we want in love and at work, to changing the world.

Drawing on all the community's collective voices--from "doctors to drug dealers"--Fearless Dialogues is a groundbreaking program that seeks real solutions to problems of chronic unemployment, violence, and hopelessness. In cities around the United States and now the world, the program's founder, Gregory C. Ellison, and his team create conversations among community members who have never spoken to one another, the goal of which are real, implementable, and lasting changes to the life of the community. These community transformations are based on both face-to-face encounters and substantive analysis of the problems the community faces. In Fearless Dialogues: A New Movement for Justice, Ellison makes this same kind of analysis available to readers, walking them through the steps that must be taken to find common ground in our divided communities and then to implement genuine and lasting change.

An Indie Next Pick! Avie Reveare has the normal life of a privileged teen growing up in L.A., at least as normal as any girl's life is these days. After a synthetic hormone in beef killed fifty million American women ten years ago, only young girls, old women, men, and boys are left to pick up the pieces. The death threat is past, but fathers still

fear for their daughters' safety, and the Paternalist Movement, begun to "protect" young women, is taking over the choices they make. Like all her friends, Avie still mourns the loss of her mother, but she's also dreaming about college and love and what she'll make of her life. When her dad "contracts" her to marry a rich, older man to raise money to save his struggling company, her life suddenly narrows to two choices: Be trapped in a marriage with a controlling politician, or run. Her lifelong friend, student revolutionary Yates, urges her to run to freedom across the border to Canada. As their friendship turns to passion, the decision to leave becomes harder and harder. Running away is incredibly dangerous, and it's possible Avie will never see Yates again. But staying could mean death. From Catherine Linka comes this romantic, thought-provoking, and frighteningly real story, *A Girl Called Fearless*, about fighting for the most important things in life—freedom and love.

'My favourite book' Tinchy Stryder BA Business Life Book of the Month The ultimate hustle is to move freely between the street and corporate worlds, to find your flow and never stay locked in the same position. This is a manifesto for how to operate in the twenty-first century, where everything has been turned on its head. Building on the runaway success of Robert Greene's *The 48 Laws of Power* (almost five million copies sold), the 'modern Machiavelli' teams up with rapper 50 Cent to show how the power game of success can be played to your advantage. Drawing on the lore of gangsters, hustlers, and hip-hop artists, as well as 50 Cent's business and artistic dealings, the authors present the 'Laws of 50', revealing how to become a master strategist and supreme realist. Success comes from seeking an advantage in each and every encounter, and The 50th Law offers indispensable advice on how to win in business - and in life.

Into the Planet

Leah Guy believes that disconnection is the root of all fear, and the attempt at letting go causes more problems than it solves. Debunking the myth of detachment and other popular New Age ideologies, she emphasizes that there's no escapism in emotional healing. Rather, the process is about putting the personal pieces of your heart, mind, and soul back together again. The Fearless Path offers a radical approach that will heal trauma, fear, heartache, and mental and physical health. Overcoming anxiety, sexual abuse, eating disorders, and addiction using the principles in this book, Leah has spent her life helping others find relief and freedom from personal afflictions. In *The Fearless Path*, you will learn: Why "letting go" is the worst advice for healing, and how to really move on. How to understand the stories your energy system tells about your mind, body, and spirit--and how to rewrite the script. How to transform fear and anxiety into love and inner peace. Why the law of attraction isn't all it's cracked up to be. Find strength and serenity in the midst of a personal storm.

What does *Doing the Impossible* really mean? This book is for those who have a desire to achieve greatness and are ready to take the steps to turn that desire into a reality. At one point or another in this book, you will experience several different reactions - excitement, curiosity, joy, laughter, or even tears - but the ultimate goal is to encourage and challenge you to make a decision to do the impossible. That may have a totally different meaning to you than it did to Steve Jobs, Thomas Edison, or any of the other role models we will look at; but whatever *Doing the Impossible* means to you, the goal of this book is to help you realize that you have the capacity to do what the critics think is impossible. - Patrick Bet-David, Introduction to *Doing the Impossible*. *Doing the Impossible* is a roadmap for those who want to do something big with their lives. The book goes over 25 steps that the reader should take to re-create themselves, identify their cause, and make history. Patrick Bet-David shares his own impossible crusade and gives key principles for anyone looking to do the same.
