And Another Thing ... will be the sixth novel in the now improbably named Hitchhiker's Guide to the Galaxy trilogy. Eight years after the death of its creator, Douglas Adams, the author's widow, Jane Belson, has given her approval for the project to be continued by the international number one

bestselling children's writer, Eoin Colfer, author of the Artemis Fowl novels. Douglas Adams himself once said, 'I suspect at some point in the future I will write a sixth Hitchhiker book. Five seems to be a wrong kind of number, six is a better kind of number.' Belson said of Eoin Colfer, 'I love his books and could not think of a better person to transport Arthur, Zaphod and Marvin to pastures new.' Colfer, a fan of Hitchhiker since his schooldays, said, 'Being given the chance to write this book is like suddenly being offered

the superpower of your choice. For years I have been finishing this incredible story in my head and now I have the opportunity to do it in the real world.' Prepare to be amazed...

A Trilogy in Four Parts

From Douglas Adams, the legendary author of one of the most beloved science fiction novels of all time, *The Hitchhiker's Guide to the Galaxy*, comes a wildly inventive novel—in trade paperback for the first time—of ghosts, time travel, and one detective's mission to save humanity from extinction. Quirky and bumbling private investigator Dirk Gently stumbles upon a ghost, millions of years old, wandering the earth and disturbing its people. Dirk

soon discovers this phantom yearns for more than a good haunting: it is desperately trying to go back in time to prevent its own death. But this ghost was no ordinary person, and helping it save itself just might change the modern world as we know it. And not in a good way...

Endlessly entertaining, Dirk Gently's Holistic Detective Agency proves that, indeed, "few writers have had such an infectious prose style as Adams" (The Observer). As Dirk Gently tries to solve the mysteries of the universe and the human soul, readers will have their own mystery to solve: Where did the time go?

terrible mistake of starting to enjoy life a bit—and immediately all hell breaks loose. Hell takes a number of forms: there's the standard Ford Prefect version, in the shape of an all-new edition of *The Hitchhiker's Guide to the Galaxy*, and a totally unexpected manifestation in the form of a teenage girl who startles Arthur Dent by being his daughter when he didn't even know he had one. Can Arthur save the Earth from total multidimensional obliteration? Can he save the Guide from a hostile alien takeover? Can he save his daughter, Random, from herself? Of course not. He never works out exactly what is going on. Will you? "Douglas Adams is a terrific satirist. . . . He is anything but harmless."—*The Washington Post Book World*

From the unique mind of Douglas Adams, legendary author of *The Hitchhiker's Guide to the Galaxy*, comes *Shada*, a story scripted for the television series *Doctor Who* but never produced—and now transformed into an original novel. A little knowledge is a dangerous thing. Imagine how dangerous a LOT of knowledge is...

The Doctor's old friend and fellow Time Lord, Professor Chronotis, has retired to Cambridge University, where among the other doddering old professors nobody will notice if he lives for centuries. Even more carelessly, he has loaned this immensely powerful book to clueless graduate student Chris Parsons, who intends to use it to impress girls. *The Worshipful and Ancient Law* is among the most dangerous artifacts in the universe; it cannot be allowed to fall into the wrong hands. Sadly for his countless admirers, he hitched his own ride to the great beyond much too soon. center of the galaxy, a vast, unknown civilization is preparing for an event of epic proportions: the launching of the greatest, most gorgeous, most technologically advanced Starship ever built-the Starship Titanic. An earthling would see it as a mixture of the Chrysler Building, the tomb of Tutankhamen, and Venice. But less provincial onlookers would recognize it as the design of Leovinus, the galaxy's most renowned architect. He is an old man now, and the creation of the Starship Titanic is the pinnacle achievement of his twenty-year career. The

night before the launch, Leovinus is prowling around the ship having a last little look. With mounting alarm he begins to find things are not right: unfinished workmanship, cybersystems not working correctly, robots colliding with doors. How could this have happened? And how could this have happened without his knowing? Something somewhere is terribly wrong. On the following day, in an artificial event staged for the media, the Starship Titanic will leave its construction dock under autopilot and, a few days later, make its way to the terminal to pick up

passengers for its maiden voyage. Although the ship will be deserted during its very first flight, it is nevertheless a major event, watched by all the galaxy's media. Hugely, magnificently, the fabulous ship eases its way forward from the construction dock, picks up speed, sways a bit, wobbles a bit, veers wildly, and just before it can do massive damage to everything around it, appears to undergo SMEF (Spontaneous Massive Existence Failure). In just ten seconds, the whole, stupendous enterprise is over. And our story has just begun. Somehow three earthlings, one Blerontin

*That's just not cricket ...
or is it? The Doctor
promised Romana the end of
the universe, so she's less
than impressed when what she
gets is a cricket match. But
then the award ceremony is
interrupted by eleven
figures in white uniforms
and peaked skull helmets,
wielding bat-shaped weapons
that fire lethal bolts of

back. Millions of years ago,

After a long and bloody*

conflict, the Time Lords imprisoned Krikket within an envelope of Slow Time, a prison that could only be opened with the Wicket Gate key, a device that resembles – to human eyes, at least – an oversized set of cricket stumps... From Earth to Gallifrey, from Bethselamin to Devalin, from Krikket to Mareeve II to the far edge of infinity, the Doctor and Romana are tugged into a pan-galactic conga with fate as they rush to stop the Krikketmen gaining all five pieces of the key. If they fail, the entire cosmos faces a fiery retribution that will leave nothing but ashes...

is the story of Arthur Dent and his

quest for the answers to these problems. After the destruction of Earth the only surviving Englishman Dent hitchhikes through the width of time and space, finds out the answer to the ultimate question, dines at the Restaurant at the End of the Universe, saves the world, falls in love with a woman whose feet cannot touch the ground, is worshipped by birds and sandwich-lovers, is enlightened by God's final message to His Creation and finally meets his fate on STAVROMULABETA. It is the aim of this thesis to analyse appearances of religious motives, ideas or traditions in the five

novels that belong to the HG-trilogy and to interpret their function in the works.

Comment garder tout son flegme quand on apprend dans la même journée : que sa maison va être abattue dans la minute pour laisser place à une déviation d'autoroute ; que la Terre va être détruite d'ici deux minutes, se trouvant, coïncidence malheureuse, sur le tracé d'une future voie express intergalactique ; que son meilleur ami, certes délicieusement décalé, est en fait un astrostoppeur natif de Bételgeuse et s'apprête à vous entraîner aux confins de la galaxie ? Inside, men and women live an enclosed life full of rules and regulations, of secrets and lies. To live, you must follow the rules. But some don't. These are the dangerous ones; these are the people who dare to hope and dream, and who infect others with their optimism. Their punishment is simple and deadly. They are allowed outside. Jules is one of these people. She may well be the last.

the most remarkable book ever to come out of the great publishing corporations of Ursa Minor (and Earth) was made available to humanity - The Hitchhiker's Guide to the Galaxy. It's an ordinary Thursday lunchtime for Arthur Dent until his house gets demolished. The Earth follows shortly afterwards to make way for a new hyperspace bypass and his best friend has just announced that he's an alien. At this moment, they're hurtling through space with nothing but their towels and an innocuous-looking book inscribed with the big, friendly words:
