A Users Guide to Tapping Prayer

Adobe Indesign CS, Design Professional

Tapping is an activity that many of us engage in everyday without even thinking about what we are doing. We drum our fingers on a desk or table while we wait for something to happen. We tap our forehead while we are figuring out a problem. We stroke our chin or rub our head as we contemplate the issues of the day. Each of these acts is our body's clumsy way of attending to a need for peace or resolution. Tapping

prayer is a spiritual practice that intentionally focuses our attention on the rhythmic movement of our finger tips. It directs the energy of God's healing onto specific points on our body that through the practice of acupuncture and reiki, have shown to be conduits of healing. Tapping prayer is the most exciting addition to my spiritual tool belt in 25 years of ministry. It's fun and effective and easy to administer alone, one on one, or in a group. It is very flexible...and did I mention, effective? Tapping prayer is effective in bringing individuals into a one on one relationship with God that creates peace, healing, and a desire to share those gifts with other individuals, communities, and Creation. Tapping prayer is an integration of sacred wisdom from the East and West. It is a spiritual practice that blends a knowledge of the Spirit's movement through our body with an understanding of meridian tapping based on the Emotional Freedom Technique created by Gary Craig. Tapping prayer brings balance and peace to individuals who are experiencing spiritual distress. By gently tapping on identified points of entry for the Holy which correspond to meridian end points in acupuncture, while praying for God to attend to a particular pain, we focus God's intention to heal and in most cases actually experience a peace which is not of our own doing. By acknowledging pain instead of wishing for relief, we recognize God's interest to heal us and indeed, God heals us. This

technique can be used for individuals who are seeking peace from a wide variety of issues ranging from: trauma such as a car accident, an abusive parent, a friend killed in battle, a sudden illness, a job loss, a fire, a damaged relationship. Tapping prayer can also facilitate forgiveness and/or letting go. Tapping prayer is effective in praying for others (surrogate prayer tapping focused on an individual who is not present to the prayer tapping), for events (9/11, Sandy Hook, a company leaving a community), or Creation (an oil spill, deforestation, strip mining). Wherever there is a disruption to the peaceful flow of the Holy Spirit, tapping prayer can be applied. When I first learned about the Emotional Freedom Technique as a tool to help veterans in our community, I thought it was weird. The tapping. The repetition. It seemed...odd. This was not how I understood healing from trauma to work, and yet it worked. Clearly, my Western roots were showing. When I got home from the training I began using the technique with members of my community and saw such dramatic results I had to learn more. They also found it strange, but effective. Some folks were uncomfortable with the language of "energies" and "chi," so I experimented a bit and added more traditional faith language to the mix. I dug deeply into my own faith traditions and discovered a theology of healing that accompanied tapping prayer. I found that by invoking God's presence into the act

of tapping, people from varying faith experiences were able to connect to the Holy on a deeper level. They began to experience God as very real and very present in their lives. They asked to learn more about this new way of praying. They discovered that by using tapping prayer on a wide variety of issues, their relationship with God grew deeper. If you are ready to draw closer to God's healing love for you, please take responsibility for your participation in tapping prayer, and let's pray! --Todd Farnsworth

This book, entitled "How to Fly like an Eagle," is a motivational book written by the author in French, Spanish, and English to help people learn the techniques and to get the skills to help them to fly to the top like that bird of prey which is the eagle. In this book, the readers will learn how to overcome obstacles and to cultivate the fruit of persistence which is an essential factor in the process of transformation of desire into its monetary equivalent. The basis of persistence is the power of will. When this power and desire combine correctly, they form an irresistible combination, the perfect one to help you overcome your failures. There are four simple steps which lead to the habit of persistence. This does not require a large amount of intelligence or a special education, but time and minimal effort. The four steps are as follows: 1- A target set backed by a burning desire to achieve it. 2- A definite plan, expressed in continuous action. 3- A closed mind to any negative influence (including negative suggestions of relatives, friends and others). 4- A harmonious agreement with one or more persons, able to lead someone to go forward with the plan and with the goal. These four steps are essential for success in all areas of life. These are the steps with which you can control your economic destiny. These are the steps that lead to freedom and independence of thought, that convert dreams into reality. These are the steps that lead to the

domination of fear, discouragement and indifference. I do not know the situation you are facing currently, maybe you are in a wheelchair, or in a hospital bed and without any hope of survival, maybe you're on the verge of divorce, or you are unable to complete your schooling or university, or find a job. You can now be crawling like a snake or you have broken wings preventing you from being able to fly like an eagle, but one thing is certain, regardless of your economic, family, health situation you can have a better life, develop your potential and fly as high as the eagle above any obstacles or constraints you are facing right now. Of course, this will be possible if you apply the principles to be taught in this book. I testify to you with all my heart that this book has the power to transform the lives of people from nothing to excellence, from the dust of the ground to the top of success. I promise you if you read it, and put the principles into practice, your life will be completely blessed!
