Financial Accounting for BBA has been written to meet the requirements of undergraduate students, particularly at the BBA level. This book covers the syllabi of major

universities across the country, providing basic knowledge of accounting principles and practices in a systematic manner. The topics have been dealt with in a lucid manner to enable better understanding, especially for those students who do not have an accounting background. The text is examination-oriented and is supplemented with relevant solved illustrations for all the topics.

This book has been written specifically for the students of B. Com. (Hons.) of the Utkal University in accordance with its prescribed syllabus. It gives a through grounding in cost concepts, cost behavior, and costing methods. Every discussion involving conceptual difficulties is immediately followed by a numerical example. **KEY FEATURES** • Ideal for self-study, making learning a painless exercise. • Examination-oriented approach • Around 260 solved problems and illustrations accompanied by 'working notes' • Theoretical, Practical and Objective Type Questions selected mostly from the past examinations

Issues for Feb. 1965-Aug. 1967 include Bulletin of the Institute of Management Sciences.

Merchant activity across Europe, America and China during the long eighteenth century is explored in this collection of essays. Using a unique data set from accounts and correspondence, contributors are able to show the fragmented nature of merchant activity and the importance of trust-based social and cultural networks.
