Quilling is considered as an ancient art form and it is still being practiced today. This is
sometimes called the paper filigree, this is an art form that involves paper strips that are
rolled, shaped, and glued together to create very decorative designs. The rolled paper is wound
around the quill that creates a basic coil shape. The paper will be glued at its tip and the
coil will then be shaped, the shaped coils will then be arranged to form flowers, leaves, and
other ornamental patterns that can also be similar to ironwork; this is the basic way on how to
do quilling Nowadays, paper quilling is still alive and well. People who practice this kind of
artwork are called "quillers". Quillers teach young ladies on how to do quilling, as a part of
their income, hobby, interest, or even do this for leisure. Doing this art is no longer
classified as an "upper class" art since ordinary people can also do this. The art suddenly
became the people's art form and the beauty they create is always expanding and innovated. The
said craft easily became popular because of its low cost of materials. It is often used to make
an invitation for wedding, birth announcements, scrapbook pages, and different storage boxes. I
will show you a step by step guide on how to create animal quilling masterpieces. Happy
Quilling!

In bead quilling--instead of thin strips of paper--thin strips of beads, made with square stitch, are wrapped to form circles, scrolls, and squares. The holes of the beads, rather than the sides, are exposed, to become part of the distinctive design. The author works with simple and complex combinations of quilled beads to create a variety of jewelry designs. She also incorporates crystals, pearls, and decorative threads into the pieces to add interest and texture.
