When 14- and 12-year-old sisters embark on a global family adventure, they learn that surviving new cultures and customs is even scarier than surviving middle school. This TRUE, dual POV, coming-of-age journey features maps and images of people and places around the globe. "THANKS FOR RUINING MY LIFE!" Delaney's eighth-grade dreams crumble when her parents announce their "global family field trip." While her younger sister, Riley, is thrilled to ditch middle school for world school, Delaney cringes at trading parties and a passport and 24/7 family time. While Riley researches bungee jumping and packing tips, Delaney must decide whether to continue the silent treatment or embrace this adventure. What about school? Forget acing science and math, the only way to pass this scam artists, monster cockroaches, deadly stingers, projectile vomiting, public nudity, and toilet catastrophes. And those lessons aren't in their textbooks. Each passport stamp is a real-life social studies lesson in new religions and new rules--resulting in so many moments. But when an itinerary mistake puts the family's freedom at risk, they learn the most valuable lesson of their lives. Trapped together in their parents' mid-life crisis, will the sisters survive this global adventure? And will non-stop family time turn their enemies?

A few years ago, the novelist T Cooper wrote his parents a letter telling them he “wasn’t their daughter anymore.” And that was the “good news.” Real Man Adventures is Cooper’s brash, wildly inventive, and often comic exploration of the paradoxes and pleasures of masculinity. He takes us through his transition into identifying as male, and how he went on to marry his wife and become an adoring stepfather of two children. Alternately bemused and exasperated when he feels compelled to explain all this, Cooper never loses his sense of humor. “Ten Things People Assume I Understand About Women But Actually Don’t,” reads one chapter title, while another proffers: “Sometimes I Think the Whole of Modern History Can Be Explained by Testosterone.” A brilliant collage of letters, essays, interviews, and a brother, with his wife, with the parents of other transgender children), artwork, and sharp evocations of difficult conversations with old friends and puzzled bureaucrats, Real Man Adventures will forever change what you think about what it means to be a man. In 2015, Rob Krause and Daria Salamon sold their car, rented out their Winnipeg home, and packed up their two young children to embark on a 12-month journey around the world. In this dual retelling of their ambitious year away from home, Don’t Try This at Home is the hilarious and sensational misadventures of a Canadian family as they travel across 15 different countries in the southern hemisphere. In an honest reflection on parenting, marriage, and living for a year on a tight budget, Krause and Salamon take readers on a journey around the world’s most stunning vistas while meeting the challenges of foreign customs, broken-down buses, stomach bugs, personal loss, and their often less-than-enthusiastic children to discover that perhaps they should never have left home in the first place.

*“She was part of the ‘stunt girl’ movement that was very important in the 1880s and 1890s as these big, mass-circulation yellow journalism papers came into the fore.”—Brooke Kroeger Around the World in Seventy-Two Days (1890) is a travel narrative by American investigative journalist Nellie Bly. Proposed as a recreation of the journey undertaken by Phileas Fogg in Jules Verne’s Around the World in Eighty Days (1873), Bly’s journey was covered in Joseph Pulitzer’s popular newspaper the New York World, inspiring countless others to attempt to surpass her record. At the time, readers at home were encouraged to estimate the hour and day of Bly’s arrival, and a popular board game was released in commemoration of her undertaking. Embarking from Hoboken, noted investigative journalist Nellie Bly began a voyage that would take her around the globe. Bringing only a change of clothes, money, and a small travel bag, Bly travelled by steamship and train through England, France—where she met Jules Verne—Italy, the Suez Canal, Ceylon, Singapore, Hong Kong, and Japan. Sending progress reports via telegraph, she made small reports back home while recording her experiences for publication upon her return. Despite several setbacks due to travel delays in Asia, Bly managed to beat her estimated arrival time by several days despite making unplanned detours, such as visiting a Chinese leper colony, along the way. Unbeknownst to Bly, her trip had inspired Cosmopolitan’s Elizabeth Brisland to make a similar circumnavigation beginning on the exact day, launching a series of copycat adventures by ambitious voyagers over the next few decades. Despite being surrounded by this air of popularity and competition, however, Bly took care to make her journey worthwhile, showcasing her skill as a reporter and true pioneer of investigative journalism. With a beautifully designed cover and professionally typeset manuscript, this edition of Nellie Bly’s Around the World in Seventy-Two Days is a classic work of American travel literature reimagined for modern readers.*

*Intrepid international explorer, biologist, and photographer Mark W. Moffett, “the Indiana Jones of entomology,” takes us around the globe on a strange and colorful journey in search of the hidden world of ants. In tales from Nigeria, Indonesia, the Amazon, Australia, California, and elsewhere, Moffett recounts his entomological exploits and provides fascinating details on how ants live and how they dominate their ecosystems through strikingly human behaviors, yet at a different scale and a faster tempo. Moffett’s spectacular close-up photographs shrink us down to size, so that we can observe ants in familiar roles; warriors, builders, big-game hunters, and slave owners. We find them creating marketplaces and assembly lines and dealing with issues we think of as uniquely human—including hygiene, recycling, and warfare. Adventures among Ants introduces some of the world’s most awe-inspiring species and offers a startling new perspective on the limits of our own perception. • Ants are world-class road builders, handling traffic problems on thoroughfares that dwarf our highway systems in their complexity • Ants with the largest societies often deploy complicated military tactics • Some ants have evolved from hunter-gatherers into farmers, domesticating other insects and growing crops for food*

**How is a single dad supposed to navigate a new girlfriend into and out of his California king bed without his son or daughter noticing? For Trey Ellis, raising children while trying to find his way through the unfamiliar nuances of the contemporary dating scene as a single father has been a a sometimes nerve-racking challenge. A Don Juan with a heart of gold, Ellis tracks both his sexy life as a swinging single father—his dates have included a model, a French actress, and even an Italian contessa—and his nurturing and loving relationship with his two young children. The result is Bedtime Stories, a charmingly poignant and hilarious story that shows what happens when the glamorous life of an LA singleton collides with the life of a less than glamorous dad who eats frozen dinners and changes dirty diapers.**

For readers of Three Cups of Tea; Eat, Pray, Love; and Wild comes the inspiring story of an ordinary American family that embarks on an extraordinary journey. Wide-Open World follows the Marshall family as they volunteer their way around the globe, living in a monkey sanctuary in Costa Rica, teaching English in rural Thailand, and caring for orphans in India. There’s a name for this kind of endeavor—voluntourism—and it might just be the future of travel. Oppressive heat, grueling bus rides, backbreaking work, and one vicious spider monkey . . . Best family vacation ever! John Marshall needed a change. His twenty-year marriage was falling apart, his seventeen-year-old son was about to leave home, and his fourteen-year-old daughter was lost in cyberspace. Desperate to get out of a rut and reconnect with his family, John dreamed of a trip around the world, a chance to leave behind, if only just for a while, routines and responsibilities. He didn’t have the money for resorts or luxury tours, but he did have an idea that would make traveling the globe more affordable and more meaningful than he’d ever imagined: The family would volunteer their time and energy to others in far-flung locales. Wide-Open World is the inspiring true story of the six months that changed the Marshall family forever. Once they’d made the pivotal decision to go, John and his wife, Traca, quit their jobs, pulled their kids out of school, and embarked on a journey that would take them far off the beaten path, and far out of their comfort zones. Here is the totally engaging, bluntly honest chronicle of the Marshalls’ life-altering adventure from Central America to East Asia. It was no fairy tale. The trip offered little rest, even less relaxation, and virtually no certainty of what was to come. But it did give the Marshalls something far more valuable: a once-in-a-lifetime opportunity to conquer personal fears, strengthen family bonds, and find their true selves by helping those in need. In the end, as John discovered, he and his family did not change the world. It was the world that changed them. Praise for Wide-Open World “Marshall’s use of rich details locates readers firmly in each time and place, enabling them to sense the adventure, wonder and joy he experienced in his surroundings and in watching his children grow into hardworking, more responsible teens, as well as the frustrations and disappointments he and his family inevitably encountered along the way. A great armchair adventure that should inspire others to consider voluntourism as a way to help others and see the world.”—Kirkus Reviews “Each new location combines beautiful scenery with a dose of sentiment, a good deal of humor, and some heartfelt consideration of the human condition. . . . His philosophy may not fit everyone and the ending is bittersweet, but this is an enticing call to service.”—Publishers Weekly “Wide-Open World is an adventure made up of countless small moments of human connection. It’s an armchair travelogue that may well inspire you to do good off the beaten path.”—BookPage “For anyone who has ever imagined what it would be like to pack up, unplug, pull the kids out of school, and travel around the world, this volunteer adventure is your ticket. Wide-Open World will move, engage, and inspire you, even if you never leave the couch.”—Christina Baker Kline, #1 New York Times bestselling author of Orphan Train

*From elite marathoner and Olympic hopeful Becky Wade comes the story of her year-long exploration of diverse global running communities from England to Ethiopia—9 countries, 72 host families, and over 3,500 miles of running—investigating unique cultural approaches to the sport and revealing the secrets to the success of runners all over the world. Fresh off a successful collegiate running career—with multiple NCAA All-American honors and two Olympic Trials qualifying marks to her name—Becky Wade was no stranger to international competition. But after years spent safely sticking to the training methods she knew, Becky was curious about how her counterparts in other countries approached the sport to which she'd dedicated over half of her life. So in 2012, as a recipient of the Watson Fellowship, she packed four pairs of running shoes, cleared her schedule for the year, and took off on a journey to infiltrate diverse running communities around the world. What she encountered far exceeded her expectations and changed her outlook into the sport she loved. Over the next twelve months—visiting 9 countries with unique and storied running histories, logging over 3,500 miles running over trails, tracks, sidewalks, and dirt roads—Becky explored the varied approaches of runners across the globe. Whether riding shotgun around the streets of London with Olympic champion sprinter Usain Bolt, climbing for an hour at daybreak to the top of Ethiopia's Mount Entoto just to start her daily run, or getting lost jogging through the bustling streets of Tokyo, Becky's unexpected adventures, keen insights, and landscape descriptions take the reader into the heartbeat of distance running around the world. Upon her return to the United States, she incorporated elements of the training styles she'd sampled into her own program, and her competitive career skyrocketed. When she made her marathon debut in 2013, winning the race in a blazing 2:30, she became the third-fastest woman marathoner under the age of 25 in U.S. history, qualifying for the 2016 Olympic Trials and landing a professional sponsorship from Asics. From the feel-based approach to running that she learned from the Kenyans, to the grueling uphill workouts she adopted from the Swiss, to the injury-recovery methods she learned from the Japanese, Becky shares the secrets to success from runners and coaches around the world. The story of one athlete's fascinating journey, Run the World is also a call to change the way we approach the world's most natural and inclusive sport.*

*Move over Sriracha, fish sauce is the most popular ingredient in town. Long used as a key umami flavor in Asian cooking, now prominent chefs from across the country are using fish sauce in new and unexpected ways to flavor their recipes. It was recently included in Bon Appetit's list of pantry essentials and appears on tables at Michelin Star-rated restaurants. Last year, the European Union started recognizing fish sauce from the Vietnam island of Phu Quoc as a "Protected Designation of Origin," along the lines of Champagne for sparkling wine or Parmigiano-Reggiano for hard Italian cheese. Discover the origins of fish sauce, compare different brands and varieties, and learn about proper care and storage of this magical briny cooking liquid. Home cooks will delight in the variety of recipes in the book, starting with the formula for making homemade fish sauce before moving to slow-roasted meats and classic Italian pasta dishes, craft cocktails, salad dressings, and even desserts. Fifty recipes using fish sauce culled from today's most innovative chefs and food personalities from around the globe include: Shrimp Toast with Nuom Choc from Kevin Luzande Acabar; Spiced Lacquered Duck Breasts from Andrew Zimmerman; Crispy Farmer's Market Vegetables with Caramelized Fish Sauce from Chris Shepherd; Caramel Miso Glaze from Monica Pope; and Hamachi Tostadas with Fish Sauce Vinaigrette from Jon Shook and Vinny Dotolo.*

***It's time to get off the beaten path. Inspiring equal parts wonder and wanderlust, Atlas Obscura celebrates over 700 of the strangest and most curious places in the world. Talk about a bucket list: here are natural wonders—the dazzling glowworm caves in New Zealand, or a baobob tree in South Africa that's so large it has a pub inside where 15 people can drink comfortably. Architectural marvels, including the M.C. Escher-like stepwells in India. Mind-boggling events, like the Baby Jumping Festival in Spain, where men dressed as devils literally vault over rows of squirming infants. Not to mention the Great Stalacpipe Organ in Virginia, Turkmenistan's 40-year hole of fire called the Gates of Hell, a graveyard for decommissioned ships on the coast of Bangladesh, eccentric bone museums in Italy, or a weather-forecasting invention that was powered by leeches, still on display in Devon, England. Created by Joshua Foer, Dylan Thuras and Ella Morton, ATLAS OBSCURA revels in the weird, the unexpected, the overlooked, the hidden and the mysterious. Every page expands our sense of how strange and marvelous the world really is. And with its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, it is a book to enter anywhere, and will be as appealing to the armchair traveler as the die-hard adventurer. Anyone can be a tourist. ATLAS OBSCURA is for the explorer.***
