A classic detective short story shrouded in mystery, "Marie Rogêt" features Poe ' s famour investigator C. Auguste Dupin trying to solve a murder case. Based upon an actual murder, the short story is an intricate narrative revolving around floating dead bodies, strange suicides, phials of poison, and the power of newspapers to solve the gruesome murder. Cumbersome and rather slow-paced, the story is also often labelled as Poe ' s least successful among his detective works. On the other hand, it can easily be read as an episode from the CSI TV series, indulging in sneaky situations and hypothetical resolutions. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1945), "The Black Cat" (1943), and "The Gold-Bug" (1843).

`Here is a handsome edition of one of Borges' ficciones, in a translation first published in Labyrinths in 1962. It's an important story in the Borges' canon, incorporating most of the author's philosophical and esthetic preoccupations in a typically brief compass. With great solemnity and a convincing array of scholarly detail (including annotated references to imaginary books and articles), Borges contocts a fable of an alternate world and its infiltration of our own. The reality of Tlon is idealist: material objects have no existence; language has no nouns; its principal discipline is psychology, since its inhabitants see the universe as nothing but a series of mental processes. A series of 24 illustrations accompanies the text. Their disturbing resemblances to our reality make them appropriate reflections of Borges's imaginative constructs.' -- The Kingston Whig-Standard I mini gialli dei dettati: i libri-gioco per allenarsi nei dettati alla scuola primaria Avvincenti giochi enigmistici calati in un contesto narrativo. Protagonista delle avventure è Agata Bird, ex assistente dell ' Ispettore Ortografoni promossa ispettrice, e le vicende sono ambientate a New York. Questa serie propone un approccio alla lingua scritta attraverso il dettato e l ' autodettato, con esercizi che – a partire dalla sillaba – aiutano ad acquisire in autonomia la tecnica di scrittura adeguata. Oltre ad abbinare i suoni ai segni, i bambini si alleneranno a scrivere correttamente tutte le parole nuove o dal significato sconosciuto. I volumi hanno un livello di complessità crescente e sono in linea con il programma di apprendimento della letto-scrittura, pur svincolati dal riferimento alla classe specifica. Possono quindi essere utili anche per il recupero e il potenziamento in caso di difficoltà. Nel Fantasma del parco, Agata Bird accompagna il bambino negli esercizi e nella raccolta degli indizi per svelare il colpevole che terrorizza i corridori nel parco. Le attività vertono in particolare su: – riconoscimento delle sillabe primarie (cv, cvc, ccv); – composizione di parole bisillabiche e trisillabiche; – parole con difficoltà ortografiche (gli/sci/chi-che/ghi-ghe); – completamento di semplici frasi o brevi brani (con audio QR code), 1 mistero, 6 sospettati, 1 solo colpevole (forse)

An international team of scholars from different academic disciplines address some of the most important issues, texts, and objects in the study of ancient magic. The volume is divided into three primary sections. The first part offers new approaches to some of the major theoretical and methodological questions in the study of ancient magic. Most importantly, the authors offer a defense of the term "magic" as a scholarly rubric in the study of antiquity. The contributors to the second part provide novel interpretations of some of the most significant defixiones, amulets, recipes and rituals from the ancient world. The essays also engage with questions of gender, materiality, viscosity, and scribal practice. The final section examines the transmission of magical practice, both in antiquity and in later periods. Accordingly, the chapters in this final section allow scholars to approach the study of magic over the longue duree. By placing into dialogue the interests, concerns, and methods of scholars from diverse academic fields, this volume provides an interdisciplinary perspective to the study of premodern magic.

Pamela Gillilian was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem Come Away after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection That Winter (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

This book collects images that New York-based artist Anne Collier (born 1970) originally presented as a slideshow of 80 35mm slides depicting found images of female subjects in the act of taking self-portraits. Dating from the 1970s to the early 2000s, these relics of the pre-digital age were collected by Collier, each image discarded by its original owner but finding its way back to relevance in Collier's work. The slideshow consists of amateur snapshots of women photographing themselves with film cameras prior to the advent of the digital "selfie." Instead of circulating on social media, these abandoned images once existed for a private audience. The resulting work is steeped in a deep sense of loneliness, illustrating photography's contentious relationship to memory, loss and self-representation. The book represents a kind of sequel to Collier's 2017 book Women with Cameras (Anonymous).

The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are presented in the context of their national traditions, their international connections and the media in which they were predominantly active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.

This book, first appearing in German in 2004 under the title Spezielle Relativitätstheorie für Studienanfänger, offers access to the special theory of relativity for readers with a background in mathematics and physics comparable to a high school honors degree. All mathematical and physical competence required beyond that level is gradually developed through the book, as more advanced topics are introduced. The full tensor formalism, however, is dispensed with as it would only be a burden for the problems to be dealt with. Eventually, a substantial and comprehensive treatise on special relativity emerges which, with its gray-shaded formulary, is an invaluable reference manual for students and scientists alike.Some crucial results are derived more than once with different approaches: the Lorentz transformation in one spatial direction three times, the Doppler formula four times, the Lorentz transformation in two directions twice; also twice the unification of electric and magnetic forces, the velocity addition formula, as well as the aberration formula. Beginners will be grateful to find several routes to the goal; moreover, for a theory like relativity, it is of fundamental importance to demonstrate that it is self-contained and without contradictions.Author's website: www.relativity.ch.

Dwelling in Political Landscapes contributes to the anthropology of landscape and the field of political ecology. Environments change at speeds never before experienced. Massive species loss is just one transformation affecting life forms and their interactions, climate change another, and there are many more rapid and sometimes profound material and social changes that anthropologists working around the world attend to and document. By exploring how the material and conceptual are entangled in and as landscapes, this book takes up the invitation posed by such emerging novel situations to explore the potentialities of anthropology and related fields, to understand life when 'things are not what they used to be'. The complex entanglements of seemingly disconnected processes and the recent sense of crisis concerning environment, movements of people, climate change and other planetary transformations, raise the question over the role of anthropology and proper methodologies for studying these developments.

This volume investigates the ways in which Italian women writers, filmmakers, and performers have represented female identity across genres from the immediate post-World War II period to the turn of the twenty-first century. Considering genres such as prose, poetry, drama, and film, these essays examine the vision of female agency and self-actualization arising from women artists' critique of female identity. This dual approach reveals unique interpretations of womanhood in Italy spanning more than fifty years, while also providing a deep investigation of the manipulation of canvases historically centered on the male subject. With its unique coupling of generic and thematic concerns, the volume contributes to the ever expanding female artistic legacy, and to our understanding of postwar Italian women's evolving relationship to the narration of history, gender roles, and these artists' use and revision of generic convention to communicate their vision.

Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell' autore e la storia collettiva della societa di un paese del Sud. Le immagini di un mondo apparentemente immobile e arcaico si alternano alle vicende di una realta storica complessa e tormentata, nel cui magma vecchio e nuovo si scontrano e si fondono. "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.
