A revolutionary approach to making easy, delicious whole-grain bread and more This is the best bread you've ever had--best tasting, nourishing, and easy to make right in your own kitchen. Mark Bittman and co-author Kerri Conan have spent years perfecting their delicious, naturally leavened, whole-grain bread. Their discovery? The simplest, least fussy, most flexible way to make bread really is the best. Beginning with a wholesome, flavorful no-knead loaf (that also happens to set you up with a sourdough starter for next time), this book features a bounty of simple, adaptable recipes for every taste, any grain--including baguettes, hearty seeded loaves, sandwich bread, soft pretzels, cinnamon rolls, focaccia, pizza, waffles, and much more. At the foundation, Mark and Kerri offer a method that works with your schedule, a starter that's virtually indestructible, and all the essential information and personal insights you need to make great bread. Revive the lost arts of fermenting, canning, preserving, and creating your own ingredients. The Institute of Domestic Technology Cookbook is a collection of 250

recipes, ideas, and methods for stocking a kitchen, do-it-yourself foodcrafting projects, and cooking with homemade ingredients. The chapters include instructions on how to make your own food products and pantry staples, as well as recipes highlighting those very ingredients—for example, make your own feta and bake it into a Greek phyllo pie, or learn how to dehydrate leftover produce and use it in homemade instant soup mixes.

- Each chapter includes instructions to make your own pantry staples, like ground mustard, sourdough starter, and miso paste.***
- Complete with recipes that utilize the very ingredients you made***

• Filled with informative and helpful features like flavor variation charts, extended tutorials, faculty advice, and instructional line drawings Also included are features like foodcrafting charts, historical tidbits, 100+ photos and illustrations, how-tos, and sidebars featuring experts and deans from the Institute, including LA-based cheese-makers, coffee roasters, butchers, and more. From the Institute of Domestic Technology, a revered foodcrafting school in Los Angeles, each chapter is based on the school's curriculum and covers all manners of techniques—such as curing, bread-baking, cheese-making, coffee-roasting, butchering, and more.

- Complete with***

beautiful food photography, this well-researched and comprehensive cookbook will inspire chefs of all levels. • Great gift for foodcrafters, food geeks, food pioneers, farmers' market shoppers, as well as people who feel nostalgic for a slower way of life • Add it to the collection of books like Salt, Fat, Acid, Heat: Mastering the Elements of Good Cooking by Samin Nosrat; The Food Lab: Better Home Cooking Through Science by J. Kenji López-Alt; and The Homemade Pantry: 101 Foods You Can Stop Buying and Start Making by Alana Chernila

Prepare for the GMAS Math test with a perfect workbook! GMAS Summer Math Workbook is a learning math workbook to prevent Summer learning loss. It helps students retain and strengthen their Math skills and provides a strong foundation for success. This workbook provides students with a solid foundation to get ahead starts on their upcoming school year. GMAS Summer Math Workbook is designed by top test prep experts to help students prepare for the GMAS Math test. It provides test-takers with an in-depth focus on the math section of the test, helping them master the essential math skills that test-takers find the most troublesome. This is a prestigious resource for those who need extra practice to succeed on the GMAS Math test in the

summer. GMAS Summer Math Workbook contains many exciting and unique features to help your student scores higher on the GMAS Math test, including: Over 2,500 standards-aligned math practice questions with answers Complete coverage of all Math concepts which students will need to ace the GMAS test Content 100% aligned with the latest GMAS test Written by GMAS Math experts 2 full-length GMAS Math practice tests (featuring new question types) with detailed answers This Comprehensive Summer Workbook for the GMAS Math is a perfect resource for those GMAS Math test takers who want to review core content areas, brush up in math, discover their strengths and weaknesses, and achieve their best scores on the GMAS test. Published By: The Math Notion www.mathnotion.com Whether diagnosing the existing organization, designing or redesigning systems or leading the transformation, this practical guide has the tools and advice that readers will need to build a high performing organization. The second edition delves into the latest advances in the Baldrige process, which helps drive organizations to be more competitive and achieve performance excellence. Authors Latham and Vinyard strike a balance between theoretical and practical approaches, emphasizing the

impact of the leader's role in determining healthy directions for a changing organization.

Stress Relieving Designs that are Great for Relaxation. Each coloring page is designed to provide calmness and relaxation as you channelize your energies for creative expression. Beautiful Artwork and Designs. Well-crafted illustrations and designs that lay the groundwork for you to create your own frame-worthy masterpieces. High Resolution Printing. Each image is printed in high resolution to offer crisp, sharp designs that enable trouble free coloring and high quality display. Single-sided Pages. Every image is printed on a single-sided page, so that you can use a broad variety of coloring choices without fearing bleed

through. Moreover, single-side pages can be framed to display your masterpieces. Suitable for All Skill Levels. This coloring book offers a broad variety of designs suited for all skill levels - ranging from beginner to expert level. A Great Gift. Coloring books make a wonderful gift and MantraCraft coloring books are frequently one of the most gifted items.

This is an encyclopedic treatment of guitar adjustment, maintenance and repair. Illustrated with line drawings and photographs, and written in a straightforward style, the book takes the reader on a guided tour of the acoustic guitar's various parts and th
Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are

new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

The Universe of Risk is an easy read guide to managing risk and corporate survival, with illuminating insights from top managers.

Glaciers and Glaciation is the classic textbook for all

students of glaciation. Stimulating and accessible, it has established a reputation as a comprehensive and essential resource. In this new edition, the text, references and illustrations have been thoroughly updated to give today's reader an up-to-the minute overview of the nature, origin and behaviour of glaciers and the geological and geomorphological evidence for their past history on earth. The first part of the book investigates the processes involved in forming glacier ice, the nature of glacier-climate relationships, the mechanisms of glacier flow and the interactions of glaciers with other natural systems such as rivers, lakes and oceans. In the second part, the emphasis moves to landforms and sediment, the interpretation of the earth's glacial legacy and the reconstruction of glacial depositional environments and palaeoglaciology.

When Jamsetji Tat started a trading firm in 1868, few could have guessed that he was also starting an important chapter in the making of modern India. Jamsetji saw that the three keys to India's industrial development were steel, hydroelectric power, and technical education and research. A century and a half later, the Tatas can claim with justice to have lined up to the vision of their founder. This edition includes the story of how the Tatas, with Ratan Tata at the helm, have had to grapple with change in the post-1992 era of economic reforms, when the opening up of India to the world came as both a challenge and a blessing. In a frank epilogue, Ratan Tata talks about the difficulties he faced in implementing change, including resistance

from his colleagues. This new edition also has a postscript on the Nano, which has given the most global prominence to the Tata brand. The Creation of Wealth is R.M. Lala's bestselling account of how the Tatas have been at the forefront in the making of the Indian nation-not just by their phenomenal achievements as industrialists and entrepreneurs but also by their significant contributions in areas like factory reforms, labour and social welfare, medical research, higher education, culture and arts, and rural development.

This book comprehensively reviews research on new developments in all areas of food chemistry/science and technology. It covers topics such as food safety objectives, risk assessment, quality assurance and control, good manufacturing practices, food process systems design and control and rapid methods of analysis and detection, as well as sensor technology, environmental control and safety. The book focuses on food chemistry and examines chemical and mechanical modifications to generate novel properties, functions, and applications.

This collective work identifies the latest developments in the field of the automatic processing and analysis of digital color images. For researchers and students, it represents a critical state of the art on the scientific issues raised by the various steps constituting the chain of color image processing. It covers a wide range of topics related to computational color imaging, including color filtering and segmentation, color texture characterization, color invariant for object

From James Beard Award-winning and NYT best-selling author Dorie Greenspan, a baking book of more than 150 exciting recipes Say "Dorie Greenspan" and think baking. The renowned author of thirteen cookbooks and winner of five James Beard and two IACP awards offers a collection that celebrates the sweet, the savory, and the simple. Every recipe is signature Dorie: easy--beginners can ace every technique in this book--and accessible, made with everyday ingredients. Are there surprises? Of course! You'll find ingenious twists like Berry Biscuits. Footlong cheese sticks made with cream puff dough. Apple pie with browned butter spiced like warm mulled cider. A s'mores ice cream cake with velvety chocolate sauce, salty peanuts, and toasted marshmallows. It's a book of simple yet sophisticated baking. The chapters are classic: Breakfast Stuff - Cakes - Cookies - Pies, Tarts, Cobblers and Crisps - Two Perfect Little Pastries - Salty Side Up. The recipes are unexpected. And there are "Sweethearts" throughout, mini collections of Dorie's all-time favorites. Don't miss the meringue Little Marvels or the Double-Decker Caramel Cake. Like all of Dorie's recipes,

they lend themselves to being remade, refashioned, and riffed on.

Many books have been written on the subject of death and dying over the last twenty-five years, yet none provides a comprehensive spiritual paradigm combined with practical guidance for resounding effectively and compassionately to be most common difficulties and challenges of the dying. Christine's Longaker's uncompromising and uplifting book does it all, and is based on her own personal experiences, her study and work with Sogyal Rinpoche and on the workshops she now holds all over Europe and the USA.

Welcome to Boston's criminal underworld Author covers crime for the Boston Globe An entire chapter dedicated to Whitey Bulger: "Whitey's World" 150 photos from author's own Boston crime archives and more Organized criminals have haunted Greater Boston's history, lurking just around the corner or inside that nondescript building. Packed with photos, sidebars, and maps, Gangland Boston reveals the secrets of these places, showing how the Italian mafia and Irish gangs rose to power, how the Winter Hill gang ascended to prominence, and how James "Whitey" Bulger became the region's most feared crime boss. These are the places where deals were made, people were

killed, and bodies were unearthed. From South Boston to the North End, Chinatown, Downtown, and Charlestown; Somerville, Brookline, and more . . . come and see where mobsters lived, worked, ate, played, and died.

behind the Macintosh 'look and feel' and the practice of using individual interface components. It includes many examples of good design and explains why one implementation is superior to another. Anyone designing or creating a product for Macintosh computers needs to understand the information in this book.

Because elementary mathematics is vital to be able to properly design biological experiments and interpret their results. As a student of the life sciences you will only make your life harder by ignoring mathematics entirely. Equally, you do not want to spend your time struggling with complex mathematics that you will never use. This book is the perfect answer to your problems. Inside, it explains the necessary mathematics in easy-to-follow steps, introducing the basics and showing you how to apply these to biological situations. Easy Mathematics for Biologists covers the basic mathematical ideas of fractions, decimals and percentages, through ratio and proportion, exponents and logarithms, to straight line graphs, graphs that are not straight lines, and their transformation. Direct application of each of these leads to a clear understanding of biological calculations such as those involving concentrations and dilutions, changing units, pH, and linear and non-linear rates of reaction. Each chapter contains worked examples, and is followed by numerous problems, both pure and applied, that can be worked through in your own time. Answers to these can be found at the back.

A best-selling comprehensive U.S. Racial & Ethnic Relations text that covers the theoretical issues and casts light on the experiences of over 50 racial, ethnic and religious groups. Strangers to These Shores 10e covers over 50 racial, ethnic, and religious groups providing broad, yet specific, coverage of Europeans, Native Americans, African Americans, Hispanics, Arabs, religious minorities, and women as a minority group. The Nutribullet Recipes offers a fresh take, literally, on how we consume our food. Sure, we've always sautéed, boiled or steamed our vegetables, but are we really getting the nutrients our bodies' needs? A significant portion of those nutrients disappear during these processes. Fruits provide us with essential vitamins, but

how many bananas, apples and strawberries can you really eat in order to give your body its needed nutrients. Will you always have the stomach to eat as much you really need? This Nutribullet Recipe Book will answer these dilemmas by providing you an easy reference on how to consume your fruits and vegetables - raw and extracted. Nutrient extraction is nothing like blending or juicing the fruits and vegetables out. The Nutribullet, a device which extracts the essential nutrients from your fruits and vegetables, ensures you get your recommended dose of vitamins and nutrients, it's as if you ate them raw but without the struggles of chewing. What you get is a tasty shake, slush or smoothie offering your body with all the essential nutrients in an easy-to-consume form. So, for who is this Nutribullet Natural Healing Foods Book? It is for people who wish to lose weight and not have to struggle with bland-tasting foods. Even Nutribullet-processed vegetables will taste great! It is for diabetics who constantly struggles with their sweet tooth and spikes in insulin levels. The Nutribullet recipes present some delicious and sweet-tasting smoothies using natural sweeteners like honey. It is for people who continuously struggle with balancing their metabolism and detoxifying their bodies. It is for people who deal with both chronic and lifetime medical conditions. The recipes provide natural and holistic healing that can aid with doctor-prescribed medications. It is for parents whose kids do not like their vegetables and fruits but believes these are food sources one can't not have in the

table. The Nutribullet Recipes Book is for everybody who believes that the best form of nutrition come natural sources. Don't miss your glass of Nutribullet smoothie now and achieve health at its best.

#1 New York Times bestseller In this follow up to their New York Times bestseller The Happy Cookbook, Fox & Friends cohost Steve Doocy and his wife, Kathy, share more hilarious stories and offer crowd-pleasing recipes that are quick, easy, and delicious. Steve Doocy and his wife, Kathy, believe the kitchen and the family dinner table should be happy places where memories are made and shared. But most of us don't have the time to spend hours in the kitchen. Steve and Kathy are no exception, and with The Happy in a Hurry Cookbook, they bring together more than a hundred recipes for favorite comfort foods that come together in a flash—from last-minute entrees to set-it-and-forget-it slow-cooker meals. The Happy in a Hurry Cookbook includes recipes covering a variety of occasions and favorite foods, from holidays, casseroles, and one-pot meals to chicken, pasta, and desserts, as well a whole chapter devoted to the ultimate comfort ingredient: potatoes. Steve and Kathy also share their clever Happy in a Hurry Hacks, which save prep and cooking time and can be used no matter what recipes you're using. Best of all, they include more hilarious and heartwarming stories from the Doocy family and (some well-known) friends. With The Happy in a Hurry Cookbook you can enjoy time-saving, all-American home cooking at its best—nothing

fancy, everything delicious—with recipes such as: Buffalo Chicken Tacos Carrot Cake Waffles Red, White, and Blueberry Summer Fruit Salad Crockpot Carnitas Pumpkin-Swirled Mashed Potatoes Sweet Tea Fried Chicken Bacon Braided Smoked Turkey Breast Ritz Cracker Crust Peanut Butter Pie Six-Minute Strawberry Pie Best of all, the easy, pleasing recipes in The Happy in a Hurry Cookbook leave you and your family with more time to do the things you love! The Happy in a Hurry Cookbook is illustrated with 65 color food photos throughout and homey shots of the Doocys with friends and family, sure to please their many fans.

(Guitar). Interviews with 50 of the world's greatest guitarists spanning the past 25 years and collected into one information-packed volume. Based on articles originally published in Guitar Player magazine, Secrets from the Masters features the most influential guitarists of our time from legends such as Chuck Berry, Carl Perkins and B.B. King to Joe Satriani, Eddie Van Halen and Eric Clapton, and all genres in-between. This book celebrates the guitarists who have forever altered the way we play and think about the guitar. Within these interviews you will find poetry and prophesy, the outrageous and the sublime, plus rare photos, challenging music, groovy gear, groundbreaking techniques and other glimpses into greatness.

Antsy Bonano, narrator of The Schwa Was Here, is back with another crazy tale. This time, Antsy signs a month of his life over to his "dying" classmate Gunnar Umlaut.

Soon everyone at school follows suit, giving new meaning to the idea of "living on borrowed time." But does Gunnar really have six months to live, or is news of his imminent death greatly exaggerated? And when a family member suffers a heart attack after donating two years to Gunnar, Antsy starts to wonder if he has tempted fate by trying to play God
