Hinduism cannot be understood without the Great Goddess and the goddess-orientated Śākta traditions. The Goddess pervades Hinduism at all levels, from aniconic village deities to high-caste pan-Hindu goddesses to esoteric, tantric goddesses. Nevertheless, the highly influential tantric forms of South Asian goddess worship have only recently begun to draw scholarly attention. This book addresses the increasing interest in the Great Goddess and the tantric traditions of India by exploring the history, doctrine and practices of the Śākta tantric traditions. The highly influential tantric forms of South Asian goddess worship form a major part of what is known as ‘Śāktism’, and is often considered one of the major branches of Hinduism next to Śaivism, Vaiṣṇavism and Smārtism. Śāktism is, however, less clearly defined than the other major branches, and the book looks at the texts of the Śākta traditions that constitute the primary sources for gaining insights into the Śākta religious imaginative, ritual practices and history. It provides an historical exploration of distinctive Indian ways of imagining God as Goddess, and surveys the important origins and developments

within Śākta history, practice and doctrine in its diversity. Bringing together contributions from some of the foremost scholars in the field of tantric studies, the book provides a platform for the continued research into Hindu goddesses, yoga, and tantra for those interested in understanding the religion and culture in South Asia. On rituals and doctrines of Śaiva Siddhānta.

The Book Deals With The Iconography Of Sadasiva, An Important Form Of Lord Siva. It Has Four Chapters: Sadasiva, Mahasadasiva, The Consort Of Sadasiva, And Resume. The Sadasiva Aspect Of Siva, Having Five Heads And Ten Arms, Did Not Receive Much Attention From The Scholars So Far. The Present Book Envisages To Bring Together All The Material Bearing On The Subject. A Number Of Photographs, Mostly Of Unpublished Sculptures, Bronzes And Miniature Paintings Representing Different Phases Of Indian Art, Illustrate The Text And Make The Book Useful For The Students Of Art, Iconography, Religion And Philosophy. Illustrations: 46 b/w figures Description: This is the first-ever exclusive study of the composite images of Indian iconography. Of the five chapters of the book, the one on Supreme Form can legitimately claim to be the first-ever comprehensive treatment of the theme concerned. The emphasis has been on the study of the socio-historical perspective of the images. The critical apparatus used consists of original source-materials, both published and unpublished. Copious textual citations and visual documentation in the form of more than forty illustrations of images lend authenticity to the volume which doubtless is a significant scholarly contribution to the iconological study of Indian art.

force as a means of attaining the summits of the mystical life. The energies fueled by passion are used to nourish the inner flame that burns away the egotistical perception of the mind. Desire explores the subtle techniques of Tantra that enable the seeker to attain the triple mastery of the breath, thought, and the natural processes of the body. Tantrics believe that the body is the temple and divinity lies at its heart. In order to arrive at profound awareness, the body needs to be perfectly tuned and working toward a state of perfect fluidity. Desire reveals many of the secret practices intended for this purpose that have been passed down in the major Tantric treatises such as the Vijnanabhariva Tantra and Ch'an master Chinul's treatise on the Secrets of Cultivating the Mind, including the important techniques of the ritual sexual observances known as Maithuna. Capturing the Aura 'Integrating Science, Technology, and Metaphysics Forbidden Practices and Spiritual Heresies The Agni-Purana Part 4 New Imperial Series Lords of the Left-Hand Path Yoga & Psyche

Examines the left-hand path and reveals the masters of the tradition • Explores the practices and beliefs of many left-hand path groups, including the Cult of Set, the Hell-Fire Club, and heretical Sufi, Zoroastrian, Christian, and Muslim sects • Investigates

many infamous occult personalities, including Helena Blavatsky, Aleister Crowley, the Marquis de Sade, and Anton LaVey • Explains the true difference between the right-hand path and the left-hand path--union with and dependence on God versus individual freedom and self-empowerment From black magic and Satanism to Gnostic sects and Gurdjieff's Fourth Way, the left-hand path has been linked to many practices, cults, and individuals across the ages. Stephen Flowers, Ph.D., examines the methods, teachings, and historical role of the left-hand path, from its origins in Indian tantric philosophy to its underlying influence in current world affairs, and reveals which philosophers, magicians, and occult figures throughout history can truly be called "Lords of the Left-Hand Path." Flowers explains that while the right-hand path seeks union with and thus dependence on God, the left-hand path seeks a "higher law" based on knowledge and power. It is the way of self-empowerment and true freedom. Beginning with ancient Hindu and Buddhist sects and moving Westward, he examines many alleged left-hand path groups, including the Cult of Set, the Yezidi Devil Worshipers, the Assassins, the Neoplatonists, the Hell-Fire Club, the Bolsheviks, the occult Nazis, and several heretical Sufi, Zoroastrian, Christian, and Muslim sects. Following a carefully crafted definition of a true adherent of the left-hand path based on two main principles--self-deification and challenge to the conventions of "good" and "evil"--the author analyzes many famous and infamous personalities, including H. P. Blavatsky, Faust, the Marquis de Sade, Austin Osman Spare, Aleister Crowley, Gerald Gardner, Anton LaVey, and Michael Aquino, and reveals which occult masters were Lords of the Left-Hand Path. Flowers shows that the left-hand path is not inherently evil but part of our heritage and our deep-

seated desire to be free, independent, and in control of our destinies.

Aghora, described in this volume as super-tantra , is a Path of Devotion to the Great Mother Goddess Kundalini, here manifesting with the Name and Image of the Goddess Tara. This way is one of extraordinary extremes and intensities, even for tantra, and its aim is nothing less than to destroy the human limitations of the practitioner, so that he or she becomes a super-human in fact, a kind of deity.

Book 2 of the trilogy explores the kundalini, the force of forces. Tantra, mantra, the sacred fire, chakras and consciousness. Written in the personable form of Vimalananda's storytelling and recounting of life's episodes we are able to truly enter the invisible realms.

One God Many Names

Ancient Indian Tradition & Mythology

Elucidation of eight tantric sadhanas.

The aura has been given many names over the centuries- chi'i, prana, karnaem, and Illiaster. In fact, it has been documented for over 5,000 years. Astral lights alluded to by ancient Eastern Indians, Chinese and Jewish mystics are

attributed to a universal energy permeating all matter. The aura was described in early esoteric writings and later in those of the Rosicrucians, Zen Buddhists, Christian mystics- even in the oral traditions of the American Indians. Now, **Capturing the Aura** brings the science, technology and metaphysics of auric investigation into a concise and readable book for the 21st century- a century that will see continuing integration of science and metaphysics into the MetaScience of the future.

Life is too short to gain all knowledge by personal experience; one has to learn from the experiences of others. The best way to do this is through books. A short story deals with an issue generally faced by us and interestingly shows how to tackle it. Whether you agree with the author or not it is certainly educative. Authors have a knack of casting a spell on you and attracting you to their point of view. Readers should step off from the author from time to time and reexamine author's logic critically, to be able to decide for yourself. This is a collection of stories; therefore I am giving a brief idea of each story. Realization: Some persons are incapable to express or expose their love; they are often mistaken and families might get disrupted. A marriage is for a lifetime, in spite of occasional misunderstandings or lapses. Sleep walker: Sleep walking is an ailment; the afflicted person is unaware of what the person does or what is done to the person, during such a period; it can lead to a lot of misunderstanding. 7053: Sometimes a number may prove embarrassing! It can also lead to a happy consequence. An invasion history forgot to record: Sometimes miracles defy the greed of unjust invaders. A Deepavali gift: Some people are prejudiced against Birth-Control operation because they fear loss of potency due to the operation. What a marriage: There is a limit of tolerance even for a docile daughter-in-law; when the limit is crossed, she behaves differently. No

vacancy: Some persons are proud about their beauty and expect the world to accord them primacy in all matters but life has its own norms and opportunities don't keep waiting for anyone. Mangamma's prowess: Some people profit by fooling gullible public. Can you blame one for adopting the same path when her husband is making merry with another woman? Awakening: It is time that persons are judged by their characters rather than by their birth. The umbrella: A school girl forgets her umbrella at the bus shelter; a student helps its restoration.

The Bhoga Karika is a collection of Sanskrit verses by the renowned Saivite teacher and writer Sadyojyoti of the eighth century A. D. This translation of the Bhoga karika also includes a short commentary by the similarly renowned Aghora Siva of the twelfth century. In a lively and engaging manner the Bhoga Karika defends the Agamic Saivite theology epistemology and ontology of bhoga or mundane worldly experience against the attacks of rival schools notably the Naiyayikas Samkhyas carvakas and Buddhists.

Riots! Armed conflicts!! All in the name of religion! Are all religions different from one another? The world stands violently divided on the basis of religion. The book lists the strikingly similar core concepts in Hinduism, Christianity, and Islam, which are substantiated in their scriptures and revealed in their verses (the Bhagavad Gita, the Upanishads, and the Vedas, the Holy Bible and the Holy Quran). Readers can appreciate the uniqueness of these religions as one of the many paths leading to the One Truth.

The Matamata is a Vastusastra, i.e. a treatise on dwelling, and as such, it deals with all the facets of gods' and men's dwellings, from the choice of the site to the iconography of the temple walls. It contains numerous and precise descriptions of villages and towns as well as of the temples, houses, mansions and palaces. It gives indications for the selection of proper orientation, right dimensions, and appropriate materials. It intends to be a manual for the architect and a guidebook for the layman. Well thought of by traditional architects (sthapati-s) of South India, the treatise is of great interest at a time when technical traditions, in all fields,

are being scrutinized for their possible modern application. The present bilingual edition prepared by Dr Bruno Dagens contains critically edited Sanskrit text which is an improvement over the earlier edition by the same scholar and published as No.40 of Publications de L'Institut Francaisd' Indologie, Pondicherry. The English translation, also published earlier, has now been revised with copious notes. The usefulness of the edition has been further enhanced by adding an analytical table of contents and a comprehensive glossary. In the series of Kalamulasastra early texts on music, namely, Matralaksanam, Dattilam and Brhaddest, have been published. The medieval texts on music, especially, the Sribastamuktavali (No.3 in the series) and the Nartananirnaya (No.17 in the series), bring us up to the 15th and 16th centuries. In the case of architecture, despite the IGCA's endeavour to publish portions of the Brhatsamhita, the Agni Purana and the Visnudharmottara-Purana, first, this has not been possible. Instead, our scholars were able to complete work first on a late but important text, namely, Silparatnakosa. We hope that the sections on architecture in the Brhatsamhita, the Agni Purana and the Visnudharmottara-Purana which predate the medieval texts, will be published soon, along with revised and re-edited texts of Manasollasa and Aparajitaprccha. The Mayamatam is the fourteenth and fifteenth

volumes in the Kalamulasastra series of the Indira Gandhi National Centre for the Arts (IGNCA).

Millions of people practice some form of yoga, but they often do so without a clear understanding of its history, traditions, and purposes. This comprehensive bibliography, designed to assist researchers, practitioners, and general readers in navigating the extensive yoga literature, lists and comments upon English-language yoga texts published since 1981. It includes entries for more than 2,400 scholarly as well as popular works, manuals, original Sanskrit source text translations, conference proceedings, doctoral dissertations, and master's theses. Entries are arranged alphabetically by author for easy access, while thorough author, title, and subject indexes will help readers find books of interest. Yoga, tantra and other forms of Asian meditation are practised in modernized forms throughout the world today, but most introductions to Hinduism or Buddhism tell only part of the story of how they developed. This book is an interpretation of the history of Indic religions up to around 1200 CE, with particular focus on the development of yogic and tantric traditions. It assesses how much we really know about this period, and asks what sense we can make of the evolution of yogic and tantric practices, which were to become such central and important features of the Indic religious scene. Its

originality lies in seeking to understand these traditions in terms of the total social and religious context of South Asian society during this period, including the religious practices of the general population with their close engagement with family, gender, economic life and other pragmatic concerns.
