The State of the World's Land and Water Resources for Food and Agriculture is FAO's first flagship publication on the global status of land and water resources. It is an 'advocacy' report, to be published every three to five years, and targeted at senior level decision makers in agriculture as well as in other sectors. SOLAW is aimed at sensitizing its target audience on the status of land resources at global and regional levels and FAO's viewpoint on appropriate recommendations for policy formulation. SOLAW focuses on these key dimensions of analysis: (i) quantity, quality of land and water resources, (ii) the rate of use and sustainable management of these resources in the context of relevant socio-economic driving factors and concerns, including food security and poverty, and climate change. This is the first time that a global, baseline status report on land and water resources has been made. It is based on several global spatial databases (e.g. land suitability for agriculture, land use and management, land and water degradation and depletion) for which FAO is the world-recognized data source. Topical and emerging issues on land and water are dealt with in an integrated rather than sectoral manner. The implications of the status and trends are used to advocate remedial interventions which are tailored to major farming systems within different geographic regions.

Agronomy deals with the science and technology of producing and using plants for food, fuel, fiber, and land reclamation. The importance of agronomy provides farmers with

agricultural information about how to grow and care for plants and soils in certain environments. Factors such as climate, roots, moisture, weeds, pests, fungi, and erosion can pose significant challenges when farmers attempt to produce a plentiful harvest. In order to discover ways of integrating crops into the environment in ways that will allow them to prosper, agronomists study these agricultural hurdles. Throughout history, scientific and technological advances have greatly impacted the agriculture industry. Early farmers improved their crop production by inventing the first hoes. Today, farmers improve crop production through the use of global positioning systems (GPS). How did these changes happen? How did people learn about new ideas? How have these ideas changed farming methods? In recent times, research and development in this area have made innovations in farming products and practices. Fundamentals Of Agronomy presents the comprehensive coverage in the pursuit of improving the yield of crops, protecting crops against diseases and pest, making livestock healthy all the time, designing the best method of crops storage and even helping in predicting the climate conducive for agricultural practice cannot be over emphasized. Crop protection is very vital in agriculture. Disease affects plants and leads to delay in metabolic activities, stunted growth, shedding of flowers and fruits and sometimes the actual death of the plant. Cultural and chemical controls are most of the time used. Culturally, crop rotation is adopted, burning remains after harvesting, regular weeding of the soil, proper spacing of crops using of high yielding and resistant varieties and practicing of irrigation during dry season are adopted. This book will be of interest to students, professional practitioners, educators, and advisers who work directly with farmers, companies, and others in the agriculture community to implement the latest methods and tools for growing crops profitably and sustainably.

Sustainable livelihood security of resource poor farmers is the top priority for the nation today. However, there is wide gap in productivity of various horticultural commodities among different eco-regions, where horticulture can play significant role particularly in arid and semi arid regions, it is far below than the potential productivity. Hence, sustained and steady growth in rural income is critical for positive impact on living standard of various stakeholders. Therefore, an appropriate strategy needs to be devised for such climatically vulnerable regions. The net income of farmers can surely be increased by efficient management of nutrient, water and agri-input, integrated horticulture based farming system, better market price realization, post harvest management and value addition, integration of secondary enterprises and thereby improving productivity of arid and semi-arid horticultural crops. In this book, several such interventions are given in the form of various chapters which will be of immense use improving the productivity and profitability of horticultural commodities. Note: T&F does not sell or distribute the hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka. This title is co-published with NIPA.

Indira's Objective Agriculture : MCQ For Competitive Exam of Agriculture Scientific Publishers - Competition Tutor

" IBPS-CWE Specialist Officer 101 Speed Tests - Agriculture/ Marketing/ IT with Success Guarantee" IF YOU MASTER THIS BOOK SUCCESS IS GUARANTEED IN THE UPCOMING IBPS PO EXAM Yes it's true. If you can master this book you will crack the IBPS-CWE Specialist Officer 101 Speed Tests - Agriculture/ Marketing/ IT Exam for sure. The book is the 1st and the Most Innovative Book and makes you feel comfortable. Since things are well structured and executed. It gives you a proper channel for preparing and guiding you to do things as per these 101 TESTS. It contains all the IMPORTANT CONCEPTS which are required to crack this exam. The concepts are covered in the form of 101 SPEED TESTS. No matter where you PREPARE from – a coaching or any textbook/ Guide - 101 SPEED TESTS provides you the right ASSESSMENT on each topic. Your performance provides you the right cues to IMPROVE your concepts so as to perform better in the final examination. It is to be noted here that these are not mere tests but act as a checklist of student's learning and ability to apply concepts to different problems. The book is based on the concept of TRP – Test, Revise and Practice. It aims at improving your SPEED followed by STRIKE RATE which will eventually lead to improving your SCORE. How is this product different?

- 1st unique product with 101 speed tests.
- Each test is based on small topics which are most important for the IBPS PO exam. Each test contains around 25-50 MCQs (on the latest pattern of the exam) depending upon its importance for the exam.
- The whole syllabus has been divided into 4 sections which are further distributed into 100 topics. 1. Quantitative Aptitude is distributed into 32 topics. 2. Reasoning is distributed into 30 topics. 3. English is distributed into 14 topics. 4. Professional Knowledge is distributed into 23 topics - 8 topics in Agriculture + 7 topics in Marketing + 8 topics in IT.
- In the end of each section a Sectional Test is provided so as to sum up the whole section. So 1 sectional Test for Quantitative Aptitude, Reasoning, English and 1 sectional test for Agriculture, Marketing and IT each.
- Finally at the end a FULL TEST is provided so as to give the candidates the real feel of the final exam. The Full Test provides 3 optional set of questions for Agriculture, Marketing and IT.
- In all, the book contains 3250+ Quality MCQ's in the form of 101 tests.
- Solutions to each of the 101 tests are provided at the end of the book.
- Separate Time Limit, Maximum Marks, Cut-off, Qualifying Score is provided for each test.
- The book also provides a separate sheet, SCORE TRACKER where you can keep a record of your scores and performance.
- It is advised that the students should take each test very seriously and must attempt only after they have prepared that topic.
- The General Awareness section has been updated latest Current Affairs.
- Once taken a test the candidates must spend time in analysing their performance which will provide you the right cues to IMPROVE the concepts so as to perform better in the final examination.
- It is our strong belief that if an aspirant works hard on the cues provided through each of the tests he/ she can improve his/ her learning and finally the SCORE by at least 20%.
