provides for consolidation of learning * case studies that link science to real-life situations and present balanced views on sensitive issues. * 'information' boxes providing interesting additional information and 'Note' boxes that bring important information to the learner's attention

This Lab Workbook is designed for use with the text Principles of Agriculture, Food, and Natural Resources. The Lab Workbook includes two types of student activities. The first type of activity consists of questions designed to reinforce the content of the textbook. Completing these "workbook" activities helps you gain a deeper understanding the terms, concepts, theory, and procedures presented in the lesson. The second type consists of hands-on lab activities, designed to be completed in the classroom with instructor guidance and supervision. These "lab" activities provide an opportunity to apply and extend the knowledge gained from the textbook.
