What does every budding artist need to know about drawing? And what quick skills can you pick up to help you on the way? In this instructive book, Barrington Barber shows you just this, offering tips and tricks as he guides you through the fundamental aspects of drawing. Get to grips with still-life composition, draw dynamic bodies in motion, and capture the spectacular natural world. The Complete Book of Drawing is a distillation of the many skills that the aspiring artist needs to develop. As Barrington Barber knows from his many years of teaching and practising art, it is crucial for you to develop your own artistic style. And, uniquely among practical art books, this is what The Complete Book of Drawing provides. By revealing the nuances of texture, composition and perspective, this book will enable you to look at the world around you with fresh eyes.

Welcome to the wonderful world of painting with gouache, with the creative guidance of popular artist and

illustrator Zoe Ingram. In this comprehensive beginner's guide, Zoe shares everything she possibly can about getting started with gouache painting. Why gouache? Because this exciting paint medium creates opaque effects making it more vibrant and graphic than traditional watercolours, meaning you can layer it, paint on dark backgrounds and much more. Gouache is one of the easiest of paint mediums to use. It's very forgiving and fun to use and is also versatile. Gouache paint can mimic watercolour and can give the opacity of oil paint if used with less water. You can use it to paint large, smooth, flat blocks of background colour and the finest lines and details. Gouache paint also dries quickly too, which is a big bonus! Starting at the very start, Zoe takes you through the basics and explains what tools and materials you'll need, then explores a wide range of techniques and finally, there are a host of fun and vibrant step-by-step projects that you can follow along with or use as a springboard for your own ideas. Zoe Ingram's distinctive art

makes this book a visual treat, as she shows you how she paints a variety of subjects, from birds and bugs, to flowers and foliage, to abstract collages, hand lettering and patterns. Along the way you'll learn about colour theory, colour mixing, sketching, washes, mark making, line work, overlaying, working on dark backgrounds, how to get crisp edges, how to add details, different approaches to collage and even how to digitise your work so that you can create repeat patterns and custom prints. In the projects section you can follow along step-by-step as Zoe paints a very handsome pheasant, a funky beetle pattern, a trendy houseplant, colourful caterpillars, bright butterflies, jumbled geometric patterns, a striking owl, pretty florals, creative lettering, a curious cat and a free-flow abstract floral piece - after which there will be no stopping you! Beautifully illustrated, expertly explained and a riot of colour, this book will kickstart your love affair with gouache, so all that's left is deciding how to pronounce it...

Welcome to Look-Alike Land, where the more you look, the more you see! Like its predecessor, Look-Alikes Jr. features 3-D picture puzzles, but this time invites even the youngest child to join in the fun by

featuring simpler, easier-to-find look-alikes in childlike settings. There are 11 scenes - house, parlor, kitchen, bedroom, school bus, classroom, construction site, movie lobby, train, farm, and rocket - each with 50+ objects to identify (700+ in total).

Look for a cement mixer made out of a mustard bottle, kitchen cabinets made out of cakes of soap, and a bed built with crayons and pasta! Fun for all ages. This best-selling book is back with a brand new series design and a striking new cover.

Pastels are an extremely versatile and immediate medium. These characteristics can lead to bold, exciting and impromptu paintings, however, their responsive, flexible nature can also be used to create subtle, gentle colour with little or no texture. This practical book will guide you through the full scope of painting in pastels and explain particularly how they can be used to capture light, colour and texture. With step-by-step instructions in a wide range of subject matter, *Painting in Pastels* will be invaluable for beginners and experienced artists alike. In it, the techniques are demonstrated and explained; advice is given on subject selection and composition; emphasis is placed on light, tone and colour; and there are sections on painting landscapes, coastal scenery, interiors, still life, figures and portraits. Superbly illustrated with 274 colour illustrations.

Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind—showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

While no book can replace a live model, this photographic guide to the human form provides a diverse selection of figures for those who do not have access to live models. Posed in a variety of classical and modern modes, the models are set in a clear, clean environment that is void of distractions and enhances the figure. All of the high-resolution photographs were painstakingly edited and adjusted to yield all the nuances of the figures. The companion disc contains 24 photographs per pose that, in totality, comprises a full 360 degree view. Each angle of every pose can be enlarged, enabling artists to zoom in on specific body parts to discover their intricate detail or

project the photos to life-like proportions. The disc also offers the flexibility of numerous viewing options—on a computer screen, printed out, projected for a group, or via a high-definition television when connected through a computer.

Britain, in the mid 21st century. A new prime minister, Lev Solokov is elected. In spite of his Russian surname, he is the charismatic politician who, on the surface, appears to be just what Britain needs. But he's not what Gavin needs. Gavin is a Pustoy, a human who, among countless others, Solokov's researchers has declared a soulless, subhuman race. Solokov joins a dark lineage of genocidal tyrants that have gone before him. In synthesizing his own race to persecute others, perhaps he has succeeded in a horror more insidious than any of his forebears, especially as he appears to have done so with both overwhelming public blessing and

encouragement. Or at least he would have, if not for the increasing din of the Pustoy protesting outside his offices. Chosen at random owing to his position as a forefront campaigner for the rights of the Pustoy, Gavin is framed for a crime he didn't commit and is forced to go on the run, and so Solokov in one fell swoop kills any budding sympathy the people may have had for the Pustoy, and would appear to have silenced one of his loudest protestors. Just who are the Pustoy of this world? The persecutors or the persecuted? Will Gavin remain a hunted scapegoat? Is Solokov acting for the greater good; are the Pustoy really devoid of a soul? More importantly, how far away is this future, really? Phillippe Blenkiron's conceptual poetry collection demands these questions of the reader, whilst offering an unflinching examination of the human psyche, exploring the clouded moral hues between black and white, between right and wrong, that exist inside all of us. For fans of "1984," "Brave New World," and other greats of dystopian fiction, Philippe Blenkiron's debut poetry collection is shocking, unsettling, and closer to real-life than we dare admit...

Within this 333-page guidebook, you will find the knowledge and practical steps upon implementation can help one achieve a natural state of abundance and experience conscious expansion. While other books focus on the "the secret" of the law of attraction, you will learn that there is far more available to you than material possessions and societal status. Inside these pages are revealed tools readily available to you that you may not even be aware of. This book is organized around the Mind, Body, and Spirit-the three spheres of being that need to operate in equilibrium for true knowledge of self, accelerated self betterment and the manifestation of desire. Written from a state of enlightenment reached only after deep meditation and facing life's many hardships, this guidebook presents full details of the metaphysical aspects of the mind and thoughts, the ego and self-identification, presence and creation, mindfulness, the anatomy of fear, chakra energy systems and healing, exercise and well-being, mineral-supplemented diets, along with the benefits of juicing, detoxing, clean eating, and living on a plant-based diet.

Designed for beginning and amateur artists, this guide to the essentials of drawing features comprehensive, easy-to-follow lessons and more than 500 detailed illustrations. Frank Lohan, a renowned artist and popular instructor, conducts readers through each step of the creative process, from grasping the concepts of perspective and proportion to producing lifelike drawings of a variety of subjects—landscapes, architecture, animals, flowers, and faces. Step-by-step exercises focus on attaining the fundamentals of composition, visualizing the geometry of the subject, working with perspective, and mastering drawing techniques for both pencil and pen and ink. Each exercise includes gridded outline compositions to help students develop their drawing abilities. Suggestions for the selection and use of tools will assist in achieving professional-quality results.

To predict our future, we must look to the extremes. So argues the economist Richard Davies, who takes readers to the margins of the modern economy and beyond. These extreme economies illustrate the forces that test human resilience, drive societies to failure, and promise to shape our collective future. Reviving a foundational idea from the medical sciences, *Extreme Economies* turns the logic of modern economics on its head by arguing that these outlier societies can teach us more about our own than we might imagine. By adapting to circumstances unimaginable to most of us, the people in these societies are pioneering the economic infrastructure of the future.
