Qur'anic idiomaticity, in its all aspects, poses a great deal of challenge to Qur'an readers, learners, commentators, and translators. One of the most challenging aspects of Qur'anic idiomaticity is Qur'anic idiomatic phrasal verbs, where significances of proper Arabic verbs are entirely fused with significances of prepositions following them to produce new significances that have nothing to do with the basic significances of those verbs and prepositions. By examining a corpus of ten of the most influential English translations of the Qur'an, this study scrutinizes how some translators of the Qur'an have dealt with the phenomenon of Qur'anic idiomatic phrasal verbs, the difficulties that they have encountered when translating them into English, and the strategies that they have employed in their attempts to overcome the inherent ambiguity of such expressions and provide their functional-pragmatic equivalents for English readership. The study proposes a working model for analysing and assessing the translation of the Qur'anic idiomatic phrasal verbs and provides a number of theory-based recommendations for translators in general and Qur'an translators in particular.

Perhaps the best Quran English translation. It is clear, easy to read, and very faithful to the Arabic original. It closely follows the Arabic text, and often reminds the reader of the Arabic original. It uses today's English language, and today's English vocabulary, thus it is easy to read and understand. The flow is smooth, the sentence structure is simple, the meaning is clear. This Quran translation has no interpretations, no footnotes, and no explanations. It is a pure translation of the Quran, from Arabic to English, and it does not try to emphasize any school of thought. The text purely and accurately translates the Holy Quran, from Arabic, into contemporary English. It was translated by a Muslim, who saw firsthand the miracles inside the Quran. His native language is Arabic; his everyday language is American English. For 15 years, he studied the Quran. For many years, he translated speech between his mother and his wife. For a living, he develops quality software. This Quran translation is available in two editions. This edition (A) uses the word "Allah" to refer to the Creator. Edition (B) uses the word "God". Quran Sura 91. The Sun. ash-Shams. In the name of Allah, the Gracious, the Merciful. 1. By the sun and its radiance. 2. And the moon as it follows it. 3. And the day as it reveals it. 4. And the night as it conceals it. 5. And the sky and He who built it. 6. And the earth and He who spread it. 7. And the soul and He who proportioned it. 8. And inspired it with its wickedness and its righteousness. 9. Successful is he who purifies it. 10. Failing is he who corrupts it. 11. Thamood denied in its pride. 12. When it followed its most wicked. 13. The messenger of Allah said to them, "This is the she-camel of Allah, so let her drink." 14. But they called him a liar, and hamstrung her. So their Lord crushed them for their sin, and leveled it. 15. And He does not fear its sequel. The Quran is the last Book from the Creator. It contains guidance, mercy, and healing. The Quran is a blessing, within reach.

First published in 1992, this book focuses on the Muslim community and how it has developed in North America. Divided into eight sections, it traces the history of the Muslim community in North America from the nineteenth century to the end of the twentieth-century and examines different aspects of the community such as Sectarian Movements, Islam in the African American community and points of contact between Christian and Islamic communities. The text includes a number of bibliographies to aid further study and closes with a helpful directory of Muslim organizations and centers in North America. This book will be of particular interest to those studying Islam and Religion in North America.

This book focuses on women and translation in cultures 'across other horizons' well beyond the European or Anglo-American centres. Drawing on transnational feminist connections, its editors have assembled work from four continents and included articles from Morocco, Mexico, Sri Lanka, Turkey, China, Saudi Arabia, Columbia and beyond. Thirteen different chapters explore questions around women's roles in translation: as authors, or translators, or theoreticians. In doing so, they open new territories for studies in the area of 'gender and translation' and stimulate academic work on questions in this field around the world. The articles examine the impact of 'Western' feminism when translated to other cultures; they describe translation projects devised to import and make meaningful feminist texts from other places; they engage with the politics of publishing translations by women authors in other cultures, and the role of women translators play in developing new ideas. The diverse approaches to questions around women and translation developed in this collection speak to the volume of unexplored material that has yet to be addressed in this field.

Holy Quran

What was the name of Noah's son who did not survive the Flood? Why do Pharaoh and Haman build the Tower of Babel? For what reasons does Moses travel to the ends of the Earth? Who is the 'Horned-One' who holds back Gog and Magog until the Day of Judgement? These are some of the questions answered in the oral sources and Quran commentaries on the stories of the prophets as they are understood by Muslims. Designed as an introduction to the Quran with particular emphasis on parallels with Biblical tradition, this book provides a concise but detailed overview of Muslim prophets from Adam to Muhammad. Each of the chapters is organized around a particular prophet, including an English translation of the relevant verses of the Quran and a wide selection of classical, medieval and modern Muslim commentaries on those verses. Quran commentaries include references to Sunni and Shi'i sources from Spain, Central Asia, the Middle East and Africa. An extensive glossary provides an annotated list of all scholarly transmitters and cited texts with suggestions for further reading.This is an excellent book for undergraduate courses, and students in divinity and seminary programmes. Comparisons between the Quran and Bible, and among Jewish, Christian and Islamic exegesis are highlighted. Oral sources, references adapted from apocryphal and pseudepigraphical works, and inter-religious dialogue are all evident throughout these stories of the prophets. This material shows how the Quran and its interpretation are integral to a fuller and more discerning understanding of the Bible and its place in the history of Western religion.

Killing the Arab Spring tells the stories of the Arab Spring uprising in 15 Middle East states, from the point of view of a secular Middle Eastern political analyst familiar with the politics, the culture of the people and the history of the area. Dr. Hasan views the vast majority of the Arab rulers deriving their absolute authority from inheritance or military coups, or in the case of the Saudis from conquest, not at the pleasure of the governed. Arab leaders do not believe that government is a trust on behalf of the people. They believe that if there is democracy and their societies are composed of equal and competing individuals, there will be a tendency towards anarchy. People involved in the Arab Spring uprisings demanded inclusive and equitable democracy, social justice and economic development. There were no civil society institutions strong enough to challenge the weapons of authoritarianism that included ideology, repression, payoffs and the solidarity of the crony capitalists. The author argues that Saddam Hussein's 1980 war on Iran was the spark that started a chain of bloody wars and events which eventually led to the US invasion of Iraq and the Arab Spring uprisings. The revolts and the counter revolts took different forms in each country based on its history, the type of government and the economy. The author argues that the Arab Spring is a step of a long process toward democracy rather than an aberration between periods of authoritarian regimes. To understand the Arab Spring causes and its aftermath, the book provides the reader with a review of the Middle East common culture that includes the history of Islamic religion, Islamic-sects and Arab tribalism, and brief history of each country. There are few activities more controversial than writing history of a nation involved in a conflict. Even while witnessing history unfolding in a country, different historians provide different narratives, different causes and different conclusions. This becomes more obvious when the history of the conflicts is viewed through the prism of the politics of sectarianism ethnicity and tribalism. The author strives for an objective view, but he does not hide his strong support to liberal democracy and human rights.

An introduction to the Qur'an (Koran), a text that has guided the lives of millions.

Quran with parallel English translation. Clear Arabic. Modern English. Easy to read. Arabic text is sharp, beautiful, and easy to follow. It is the eternal truth, the everlasting miracle. The Quran is beyond doubt from the Lord of the Universe. God is the Creator of the Heavens and Earth. He is the Supreme, the Almighty, the Wise. First published between 1913 and 1994, this 6 volume set examines the history of Islam in a variety of regions across the world. Spanning continents from Africa, to Asia, North America and Europe, and ranging from 19th century ethnographical studies to modern day historical research, these titles not only demonstrate the diversity within this global religion, but also how the study of Islam has changed over time. The titles in this set will be of interest to those studying the history of Islam as well as those fascinated by the study of religion and international communities itself.

This work is a deconstruction of Salafi Jihadi discourse in the 21st century with special emphasis on the works in English of Muhammad Maqdisi and Anwar al-Awlaki. The work reveals the diversity of strategic positions that exist with reference to war with/on the West, the role of the Muslim minority of the West in this war and the fact that the prime focus of Salafi Jihadi praxis is hegemony over the Muslim lands. The prime focus of Salafi Jihadi strategy in the 21st century is not war on/with the West but the purging of the apostates from the Muslim lands. War with/on the West is then necessary because of the hegemony of the West over the Muslim lands in alliance with the apostates.The most potent reality exposed is a Salafi Jihadi apocalyptic end time discourse that drives extremism especially in the discourse of Anwar al-Awlaki.

In the Western imagination, Islamic cultures are dominated by dogmatic religious norms that permit no nuance. Those fighting such stereotypes have countered with a portrait of Islam’s medieval “Golden Age,” marked by rationality, tolerance, and even proto-secularism. How can we understand Islamic history, culture, and thought beyond this dichotomy? In this magisterial cultural and intellectual history, Thomas Bauer reconsiders classical and modern Islam by tracing differing attitudes toward ambiguity. Over a span of many centuries, he explores the tension between one strand that aspires to annihilate all uncertainties and establish absolute, uncontestable truths and another, competing tendency that looks for ways to live with ambiguity and accept complexity. Bauer ranges across cultural and linguistic ambiguities, considering premodern Islamic textual and cultural forms from law to Quranic exegesis to literary genres alongside attitudes toward religious minorities and foreigners. He emphasizes the relative absence of conflict between religious and secular discourses in classical Islamic culture, which stands in striking contrast to both present-day fundamentalism and much of European history. Bauer shows how Islam’s encounter with the modern West and its

demand for certainty helped bring about both Islamicist and secular liberal ideologies that in their own ways rejected ambiguity—and therefore also their own cultural traditions. Awarded the prestigious Leibniz Prize, A Culture of Ambiguity not only reframes a vast range of Islamic history but also offers an interdisciplinary model for investigating the tolerance of ambiguity across cultures and eras. This book presents the proceedings of the 5th International Conference on Electrical, Control & Computer Engineering 2019, held in Kuantan, Pahang, Malaysia, on 29th July 2019. Consisting of two parts, it covers the conferences' main foci: Part 1 discusses instrumentation, robotics and control, while Part 2 addresses electrical power systems. The Holy Qur'an

Al-Qur'an, the Guidance for mankind, is a unique translation of the Holy Qur'an in contemporary American English. It includes the Biography of the Prophet Muhammad, peace be upon him, his mission as a Prophet, his ranking as in the human history. Text is paragraphed by theme and theme is written in the margins on each page for easy reference. Its features include - (1) Field Testing the Communication of Divine Message: The unique feature of this translation is its field testing for over 3 1/2 years to improve the communication and understanding of the Divine Message. Translation passages were given to the New Muslim and Non-Muslim high school and college students for reading under the supervision of various Ulema (scholars). After reading, the person was asked to explain as to what he/she understood from the passage. If his/her understanding was the same as is in the Arabic Text of the Holy Qur'an then we concluded that we have been successful in conveying the Divine Message properly. If his/her understanding was different than what the Qur'anic verses were stating, we kept on rewording the translation until those verses were understood properly. It was tremendous patience on part of the participants. May Allah reward them all. (2) Simplicity: In this translation Simple Language and Direct Approach is used for appealing to the common sense of scholars and common people. (3) Understandability: There are no foot notes to refer and no commentary or lengthy explanations to read. All necessary explanations have been incorporated right there in the text with italic type setting to differentiate from the translation of the meanings of Qur'anic Arabic Text. (4) Outline of Pertinent Information: Before the start of each Srah, information relating to its Period of Revelation, Major Issues, Divine Laws and Guidance has been presented as an outline. Then a summary of the preceding events has been tabulated for the reader to understand the histo! rical background to grasp the full meaning of the Divine Message. (5) Reviews, Input and Approvals: This project was started in 1991 and initial draft completed in 1994. Then the Translation was sent to different Ulema (Scholars) in Town and throughout United States for their review and input. After their reviews and input it was sent to Jme Al-Azhar Al-Sharif in Egypt, Ummal Qur in Saudi Arabia and International Islamic University in Pakistan for their review, input and approval. This translation was published after their reviews and approvals.
