Seminar paper from the year 2004 in the subject American Studies - Literature, grade: 1,0 (A), Martin Luther University (Anglistik und Amerikanistik), course: A Clockwork Orange, language: English, abstract: This paper is an attempt at analysing the religious aspects of A Clockwork Orange in order to gain an understanding of Burgess' message of freedom. It will be argued that his novel is a religious warning and an insistent call to the individual reader and the Christian Church: Freedom is permanently threatened and freedom can only be obtained when the freedom of moral choice is guaranteed. In this paper, the examination of religious themes and a comparative analysis serve as tools to outline the religious aspects of A Clockwork Orange. In the novel, the philosophical and religious problems that are inherent in Alex's spiritual fall and rise clearly demonstrate that the Christian faith and the Bible inspired Burgess' work. These problems can be categorised into four major themes: Freedom and bondage, violence and suffering, the relationship between man and God, and innocence and guilt. The implication of these themes in A Clockwork Orange will be discussed in the first part of this paper. However, the reference to religion and Christianity in A Clockwork Orange is not confined to these general themes. On another and more specific level, the story of Alex can be viewed as an analogy to the life of Jesus Christ as it is narrated in the Bible. This is why the second part of this paper, a comparative analysis of these two 'narratives', will be provided. The three major connections that will be discussed are the structure of the Alex's concept of thinking in comparison with the teachings of Christ, the common experience of betrayal and interrogation, and the application of

Alex's story to the Passion of the Christ. They will be supplemented by a fourth argument that is not strictly related to the biblical narrative but to Christian history after the death of Jesus: The parallels between Alex's restoration and that of the Christian community in the fourth century. For this purpose, biblical and Christian terms like 'disciples' and 'glad tidings' will be used occasionally in reference to Alex. This terminological transfer does not imply that Alex's persuasions are identical with those of Christ. As a matter of fact, the deeds and intentions of the two figures are rather contrary in terms of their moral impetus. Therefore, it is not the moral differences but the structural similarities which will be analysed.

A vicious fifteen-year-old "droog" is the central character of this 1963 classic, whose stark terror was captured in Stanley Kubrick's magnificent film of the same title. In Anthony Burgess's nightmare vision of the future, where criminals take over after dark, the story is told by the central character, Alex, who talks in a brutal invented slang that brilliantly renders his and his friends' social pathology. A Clockwork Orange is a frightening fable about good and evil, and the meaning of human freedom. When the state undertakes to reform Alex--to "redeem" him--the novel asks, "At what cost?" This edition includes the controversial last chapter not published in the first edition and Burgess's introduction "A Clockwork Orange Resucked". What you are about to witness is the sequel to the classic novel "A Clockwork Orange". Narrator Alex is trying to cope with his sociopathic mind to escape his old ways of Ultra-Violence. Alex has recently been freed from the sickness that accompanied his treatment. This tale follows the main character through his life, which is filled with memories of dreadful thoughts.

Seventeen essays examine the career and films of director Stanley Kubrick from a variety of perspectives. Part I focuses on his early career, including his first newsreels, his photography for Look magazine, and his earliest films (Fear and Desire, Killer's Kiss). Part II examines his major or most popular films (Paths of Glory, The Shining, 2001: A Space Odyssey). Part III provides a thorough case study of Eyes Wide Shut, with four very different essays focusing on the film's use of sound, its representation of gender, its carnivalesque qualities, and its phenomenological nature. Finally, Part IV discusses Kubrick's ongoing legacy and his impact on contemporary filmmakers. Instructors considering this book for use in a course may request an examination

The short film is a unique narrative art form that, while lending itself to experimentation, requires tremendous discipline in following traditional filmic considerations. This book takes the student and novice screenwriter through the storytelling process- from conception, to visualization, to dramatization, to characterization and dialogue- and teaches them how to create a dramatic narrative that is at once short (approximately half an hour in length) and complete. Exercises, new examples of short screenplays, and an examination of various genres round out the discussion. NEW TO THE THIRD EDITION: new screenplays, a chapter on rewriting your script, and a chapter on the future of short films A comprehensive guide to writing this challenging form Numerous exercises to jumpstart visualization and writing In-depth discussion of genres suited to the short screenplay Table of contents

Every kind of exploration is touched in some way by a philosophy of persons; touched and often vitally enhanced. This collection sets out to mine this rich seam of influence, bringing together authors keen to strike new developments and applications. Together, they have put their philosophy of persons to work in fields as wide-ranging as the moral and the metaphysical, the practical and the political, the cultural and the cosmological. In doing so, they have drawn on and illustrated the depth and breadth of modern Personalist thought, demonstrating its crucial relevance to debates across the entire philosophical spectrum. Whether they are familiar with the Personalist tradition or no, readers from every corner of the philosophical world will find much here to challenge and stimulate them. Most importantly, they will find a new and badly needed philosophical perspective.

within the context of cultural theory. A single chapter is devoted to each of Kubrick ' s seven films: Lolita, Dr. Strangelove, 2001: A Space Odyssey, A Clockwork Orange, The Shining, Full Metal Jacket, and Eyes Wide Shut. Particular attention is paid to the role of love and death in Kubrick ' s films, emphasizing his innovative exploration of love and sex, and the portrayal of mortality via masculine violence.

This enormous and exhaustive reference book has entries on every major and minor director of science fiction films from the inception of cinema (circa 1895) through 1998. For each director there is a complete filmography including television work, a career summary, a critical assessment, and behind-the-scenes production information.

Seventy-nine directors are covered in especially lengthy entries and a short history of the science fiction film genre is also included.

Stanley Edgar Hyman suggests that "perhaps the most fascinating thing about the book is its language." I agree with him and therefore I set myself to examine this special language called Nadsat in my term paper. The second chapter deals with important features of Nadsat, e.g. its origin. Herein I will touch upon Burgess's inspiration to create a new language for his novel and point out languages that contributed to the evolution of Nadsat. Ongoing I will go further into the question whether Nadsat can be considered being slang by giving a definition of slang, describing reasons for this linguistic phenomenon and naming typical features of it. Furthermore I will have a look at particular words, phrases and motives which are frequently repeated in the novel and explain the reasons for that. The last feature I will pay attention to is how Nadsat handles sexuality. The concern of the third chapter is to find out which function Nadsat holds in the novel. Herein I will distinguish between the language of a criminal and the language of an aesthete with regard to the main character Alex. The fourth and last"

A human and human-presenting AI slowly become friends—and maybe more—in this moving YA graphic novel. In a near future, augmentation and AI changed everything and nothing. Indira is a human girl who has been cybernetically augmented after a tragic accident, and Fawn is one of the first human-presenting AI. They have the same internship at a gallery, but neither thinks much of the other's photography. But after a huge public blowout, their mentor gives them an ultimatum: work together on a project or leave her gallery forever. Grudgingly, the two begin to collaborate, and what comes out of it is astounding and revealing for both of them. *Pixels of You* is about the slow transformation of a rivalry to a friendship to something more as Indira and Fawn navigate each other, the world around them—and what it means to be an artist and a person.

brings the work closest to its author's intentions. A Clockwork Orange is as brilliant, transgressive, and influential as when it was published fifty years ago. A nightmare vision of the future told in its own fantastically inventive lexicon, it has since become a classic of modern literature and the basis for Stanley Kubrick's once-banned film, whose recent reissue has brought this revolutionary tale on modern civilization to an even wider audience. Andrew Biswell, PhD, director of the International Burgess Foundation, has taken a close look at the three varying published editions alongside the original typescript to recreate the novel as Anthony Burgess envisioned it. We publish this landmark edition with its original British cover and six of Burgess's own illustrations.

Excerpt: *A Clockwork Orange* is a 1971 British darkly satirical science fiction film adaptation of Anthony Burgess's 1962 novel of the same name. This cinematic adaptation was produced, directed, and written by Stanley Kubrick. It features disturbing, violent images, to facilitate social commentary about psychiatry, youth gangs, and other contemporary social, political, and economic subjects in a dystopian, future Britain. Alex (Malcolm McDowell), the main character is a charismatic, psychopathic delinquent whose pleasures are classical music (especially Beethoven), rape, and so-called 'ultra-violence'. He

Many of Stanley Kubrick's films are often interpreted as cold and ambiguous. Whether viewing Barry Lyndon, 2001, The Shining, or Eyes Wide Shut, there is a sense in which these films resist their own audiences, creating a distance from them. Though many note the coldness of Kubrick's films, a smaller number attempt to explore exactly how his body of work elicits this particular reaction. Fewer still attempt to articulate what it might mean to "feel" Stanley Kubrick's films. In The Kubrick Facade, Jason Sperb examines the narrative ambiguity of the director's films from the voice-over narration in early works, including the once forgotten Fear and Desire to the blank faces of characters in his later ones. In doing so, Sperb shows how both devices struggle in vain to make sense of the chaos and sterility of the cinematic surface. All thirteen of Stanley Kubrick's feature-

length films are discussed in chronological order, from the little-seen and long-neglected Fear and Desire to the posthumous release of Eyes Wide Shut. Sperr also discusses Kubrick's importance to Steven Spielberg's AI. While exploring all of Kubrick's films, the author concentrates in particular on The Killing, Dr. Strangelove, 2001, The Shining, Full Metal Jacket, and Eyes Wide Shut. This is also the first book-length study that focuses considerable attention on Fear and Desire and its relevance to Kubrick's larger body of work. In this respect, The Kubrick Facade is one of the first truly comprehensive books on narrative in the maverick director's films. It is also the first book to integrate a discussion of AI, and the first to fully explore the importance of the consistent visual emphasis on blank, silent faces in his post-Lolita films."

with his writing - especially of fiction. There were vast Hollywood projects destined never to be made, novels the critics snarled at, journalism that scandalised the morally scrupulous. There is the éclat of A Clockwork Orange (and the consequent calls for Burgess to comment on violent atrocities), the huge success - after a long barren period - of Earthly Powers. There is a terrifying first marriage, his description of which is both painful and funny. His second marriage - and the discovery that he has a four-year-old son - changes his life dramatically, and he and Liana escape to the Mediterranean, for an increasingly European life. With this marriage comes the triumphant rebirth of sex, creative energy and travel - to America, to Australia and all over Europe.

Although in "A Clockwork Orange", a lot of different themes are dealt with - for example politics, music, art or themes of philosophical nature - the violence in the book and on screen are the most concerned about things when critics write about "A Clockwork Orange". But not only critics, also 'normal' readers (or viewers) regard the violence to be the most remarkable thing about the whole book (or movie). One simply has to look at the website of the internet-bookstore 'Amazon' (www.amazon.de) to see that the main part of the readers' reviews for the book by Anthony Burgess comment on the violence and the brutal crimes committed by the story's protagonists: Alex DeLarge and his 'droogs'. It is interesting that most of the readers that commented on the book also gave a statement about Kubrick's film adaptation. It looks like the whole discussion about violence in "A

"Clockwork Orange" really first came up when Stanley Kubrick's movie version hit the theatres. But why this violence? Does it stand for itself? Are rape and murder obeyed fetishes of Burgess and Kubrick? Or is there something more in the story, that makes it indispensable to present violence in the extreme way Burgess and Kubrick did? This text will explain the function and the intention of presenting violence in "A Clockwork Orange". It will show the differences between the way of presenting violence in the original novel and the film version and why author and director decided to portray the protagonists' brutality in unlike ways, including the impact they have on the reader and the viewer. This text will conclude that in the novel and the film version, violence in "A Clockwork Orange" serves to discuss other and more important themes included in the story.

With just thirteen feature films in half a century, Stanley Kubrick established himself as one of the most accomplished directors in motion picture history. Kubrick created a landmark and a benchmark with every film; working in almost every genre imaginable, including film noir, war movie, SF, horror, period drama, historical epic, love story and satire - yet transcended traditional genre boundaries with every shot. "Gracyk grapples with the ways that rock shapes--limits and expands--our notions of who we can be in the world. [He] sees rock as a mass art, open-ended and open to diverse (but not unlimited) interpretations. Recordings reach millions, drawing people together in communities of listeners who respond viscerally to its sound and intellectually to its messages. As an art form that proclaims its emotional authenticity and resistance to convention, rock music constitutes part of the cultural apparatus from which individuals mold personal and political identities. Going to the heart of this relationship between the music's role in its performers' and fans' self-construction, Gracyk probes questions of gender and appropriation. How can a feminist be a Stones fan or a straight man enjoy the Indigo Girls? Does borrowing music that carries a "racial identity" always add up to exploitation, a charge leveled at Paul Simon's Graceland? Rang[es] through forty years of rock history and offer[s] a trove of

Anthony Burgess was born in Manchester in 1917 and educated at Xaverian College and Manchester University. He spent six years in the British Army before becoming a schoolmaster and colonial education officer in Malaya and Brunei. After the success of his Malayan Trilogy, he became a full-time writer in 1959. His books have been published all over the world, and they include *The Complete Enderby*, *Nothing Like the Sun*, *Napoleon Symphony*, *Tremor of Intent*, *Earthly Powers* and *A Dead Man in Deptford*. Anthony Burgess died in London in 1993. Andrew Biswell is the Professor of Modern Literature at Manchester Metropolitan University and the Director of the International Anthony Burgess Foundation. His publications include a biography, *The Real Life of Anthony Burgess*, which won the Portico Prize in 2006. He is currently editing the letters and short stories of Anthony Burgess.

acts of extreme violence, which they enjoy and for which they feel no remorse. When Alex is captured and convicted of murder following a brutal attack on an elderly woman, he is given the option to undergo a new experimental psychological technique which will aim to instil a deep aversion to violence in him. Through Alex's story, A Clockwork Orange explores themes including free will and the duality of good and evil. As well as its vivid descriptions of violence, the novella is notable for its use of Nadsat, a Russian-influenced argot invented by Burgess (who was also a linguist). This a highly illustrated guide to the work of film director, Stanley Kubrick.

With the Christmas season upon him, Detective Sergeant Bruce Robertson of Edinburgh's finest is gearing up socially—kicking things off with a week of sex and drugs in Amsterdam. There are some sizable flies in the ointment, though: a missing wife and child, a nagging cocaine habit, some painful below-the-belt eczema, and a string of demanding extramarital affairs. The last thing Robertson needs is a messy, racially fraught murder, even if it means overtime—and the opportunity to clinch the promotion he craves. Then there's that nutritionally demanding (and psychologically acute) intestinal parasite in his gut. Yes, things are going badly for this utterly corrupt tribune of the law, but in an Irvine Welsh novel nothing is ever so bad that it can't get a whole lot worse. . . . In Bruce Robertson Welsh has created one of the most compellingly misanthropic

Anthony Burgess draws on his love of music and history in this novel he called “elephantine fun” to write. A grand and affectionate tragicomic symphony to Napoleon Bonaparte that teases and reweaves Napoleon’s life into a pattern borrowed—in liberty, equality, and fraternity—from Beethoven’s Third “Eroica” Symphony, in this rich, exciting, bawdy, and funny novel Anthony Burgess has pulled out all the stops for a virtuoso performance that is literary,

historical, and musical.

Set in the near future, *The Wanting Seed* is a Malthusian comedy about the strange world overpopulation will produce. Tristram Foxe and his wife, Beatrice-Joanna, live in their skyscraper world where official family limitation glorifies homosexuality. Eventually, their world is transformed into a chaos of cannibalistic dining-clubs, fantastic fertility rituals, and wars without anger. It is a novel both extravagantly funny and grimly serious.

At last - an antithesis to chick-lit. Set in a dystopic Manchester, *A Clockwork Apple* introduces Alex, an angry young heroine for our times who rages against the middling 'Blytons' and all they stand for. Her gang is all female, the state's control is exercised through addiction therapy, and Alex's solace is in high literature and postmodern deconstructionism!
