Illustrated Alfa Romeo
Buyer's Guide

Complete year-by-year history of the Trophy (and unit construction Tiger) twins from 1949 to 1983. Includes original factory model photos, technical specifications, colour schemes, engine & frame numbers, model type identification and details of Trophy & Tiger achievements. The complete source book.

Don't buy a car without this unique illustrated guide! Expert advice will help you to find the best car for your money.

Expert practical advice from an experienced race engine builder on how to build a high-performance version of Ford's naturally aspirated 4-cylinder 1600, 1800 & 2000cc Pinto engine which has been used in Ford's most popular cars (Escort, Capri, Cortina & Sierra - Ford/Mercury Capri, Pinto, Bobcat in USA) over many years. Whether the reader wants a fast road car or to go racing, Des explains, without using technical jargon, just how to build a reliable high-power engine using as many stock parts as possible and without wasting money on parts and modifications that don't work. Also covers Cosworth versions of Pinto engines and fitting Cosworth heads to Pinto blocks. Does not cover 1300, E-Max 1600 or American-built 2300.

Used Alfa Romeo Spider (1996 - Present) Buyer's Guide

The Definitive History of the Road & Competition Cars

This is a pictorial diary of a once-in-a-

lifetime motorbike trip across 35 countries, and a practical guide to motorcycling around the world - what to do first, what to plan for, and how to cope with the unexpected.

The Yamaha FS1-E is a 1970s icon.

Introduced in the early 70s, it became an instant success, giving sixteen year olds their first taste of motorcycle performance and freedom, and totally overshadowing the other mopeds available at that time. Many riders had their FS1-E for only one year before progressing to larger machines. Today, nostalgia for the youthful exuberance engendered by the 'Fizzie' has resulted in many ex-owners wanting to recreate their pride and joy. Most FS1E's have not endured the test of time well, and very few good original examples exist. There are plenty of restorable machines around and this book guides the do-it-yourself restorer through the minefield of initially finding a machine to restore and the pitfalls of a first restoration.

A small investment in this book could save you a fortune. With the aid of this book's step-by-step expert guidance, you'll discover all you need to know

about the 928 you want to buy. A unique point system will help you to place the car's value in relation to condition. This is an important investment-don't buy a car without this book's help.

Ten years have passed since the original edition of this book was published, but Alfa Romeo enthusiasts everywhere are more active today than ever in preserving, modifying and racing these excellent cars. Throughout this time, the author in true Alfista fashion, never stopped looking for and trying new techniques to increase the power, overall performance and reliability of Alfas and their engines. This book is the result of much research, and also first-hand experience gained through many Alfa rear wheel drive model projects, from the 105 series to the last of the 75 models. There is a lot of completely new information regarding TwinSpark Cylinder head mods, big-brake mods, LSD adjustment procedure, electrical system improvements, plus many flow-bench diagrams, dyno plots, and much more.

These important Sports Racing cars of 1967-1977 won the 1975 and 1977 Manufacturers World Championships. The definitive record, this is also the first book to be written about the history and development of Alfa Romeo's fabulous Championship-winning Tipo 33 prototypes. Containing many previously unseen photographs and interviews with key personalities, this is a vital addition to any Alfa enthusiasts collection.

Having this book in your pocket is just like having a real marque expert by your side. Benefit from the author's years of Mini ownership, learn how to spot a bad car quickly, and how to assess a promising one like a professional. Get the right car at the right price!

Launched in 1971, the Alfasud was an all-new departure for Alfa Romeo, both in its design and its execution and became the best-selling model in the history of Alfa Romeo .

Originally it was developed with the dual intentions of launching the company into large volume production and providing a more affordable model than their highly regarded

sports cars. However, its story was far from straightforward. Although respected for its technically brilliant design and universally praised for its ride and handling, the model never quite reached its full sales potential and its reputation was marred by problems that could not have been foreseen. With over 240 colour photographs, the book includes a brief history of Alfa Romeo to the end of the 1960s. The development of the Alfasud's design and the political reasons for building a new factory are given along with the car's reception from both the press and owners. The evolution of the model from initial prototypes, to the improvements to build quality and performance, including the Giardinetta and Sprint variations are covered as well as Alfasuds in competition. The political and labour problems, as well as the early quality control issues are discussed. Finally, there are numerous specification tables, performance data, chassis numbers, engine codes and colour charts.

No one contemplating an MGB V8 engine conversion should start the project without reading this book, which is based on the real world experience of many owners and specialists who have re-engined MGBs in the past. Avoid expensive mistakes and pitfalls and end up with a car that performs, handle and brakes superbly by following the detailed advice compiled over many years by MGB expert, Roger Williams.

Triumph TR7 & TR8

Nobody knows Alfa Romeo like the people at Sports Car Market, especially Keith Martin, who started the magazine as Alfa Romeo Market Letter almost 20 years ago. This book brings together the magazine's best articles on Alfas over the years giving detailed coverage of every car from the four-door 164s of the 90s to the Spiders of the 50s and 60s to the earliest pre-war 6C and 8C classics; from Giulias, Giuliettas, Duetto, Sprints, Zagatos, and more. Here aficionados and curious amateurs alike will find a full slate of insider information (why, for instance, is one GTV a good deal at \$30,000, and another a horrible buy at \$10,000?), in-person reviews of Alfas that have actually sold at auction, and exactly what the SCM experts think of the prices they brought. Whether you're thinking of buying your first Alfa or your tenth, you'll find information inside Keith Martin on Collecting Alfa Romeo that you won't get anywhere else and that will help you make the right decision, the very first time.

Illustrated Alfa Romeo Buyers Guide Joe Benson

The Development, Racing, and Chassis History

Triumph Thunderbird, Trophy & Tiger

There are many books about Triumph, but most of them concentrate on the glamorous twin-carburettor Bonneville and three-cylinder Trident. Alongside these headline grabbing

bikes, Triumph built a whole series of single-carb machines that had all the style of their twin-carb cousins, but were not much slower, delivered better fuel consumption, and were easier to live with. Unlike the many books about Triumph's history, this one is a straightforward, practical guide to buying a Trophy or Tiger secondhand. In the Veloce Essential Buyer's Guide format, it delves into what these bikes are like to live with, and the values, advantages, and disadvantages of different models. Plus, of course, what to look for when buying one – including engine, transmission, frame, brakes, suspension, paint, chrome, and more.

A small investment in this book could save you a fortune. With the aid of this book's step-by-step expert guidance, you'll discover all you need to know about the VW Beetle you want to buy. A unique point system will help you place the cars value in relation to condition. This is an important investment- don't buy a car without this book's help.

An unfolding story from the inception to the demise of a unique series of motor races held on an exotic island during the Golden Age of motor racing. International drivers and Bahamians mingled for two weeks each year during which the social events were as

important as the races to those involved. Buying a car is an expensive business and mistakes can prove costly. Wouldn't it be great if you could take an expert with you? With the aid of this book's step-by-step guidance from a marque specialist, you can! The unique points system will help to place the car's value in relation to condition while extensive photographs illustrate the problems to look out for.

The Essential Buyer's Guide: All First Generation (E53) Models 1999 to 2006

The Definitive History 1963 To 1971

The Essential Buyer's Guide

Porsche 911

Lambretta LI Series Scooters

Ford GT

The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this

new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

Motorcycles: general interest.

The Datsun 240Z inspired a generation of enthusiasts, outselling and outperforming almost all of its contemporaries. This book covers the full story of the Datsun sports cars, from the Fairlady roadsters through to the final 280ZX production model, illustrated throughout with contemporary material.
