*This study analyzes the effectiveness of taking practice computerized End of Course (EOC) tests at XYZ High School. The purpose of this study is to determine if taking practice computerized EOC tests at XYZ High School have a significant impact on raising the EOC test scores. The concerns of the administration are targeted so that the building maintains a great faculty and staff. The study groups for this survey were randomly selected male and female students from different years EOC testing. Data were collected using the actual EOC test scores, and the t-Test of significance was used to determine the significance with the Alpha level set at 0.25. Mean and Mean D will be analyzed for each of the dependent and independent variables. The analysis results indicated that there was a significant need for changes to increase EOC test scores. Algebra I EOC test scores are important issues that need to be addressed in all school districts so that teachers and students can be successful.*
