

Alien Abduction English Edition

He's awkward. He's adorable. He's alien as hell. Zylar of Kith B'alak is a four-time loser in the annual Choosing. If he fails to find a nest guardian this time, he'll lose his chance to have a mate for all time. Desperation drives him to try a matching service but due to a freak solar flare and a severely malfunctioning ship AI, things go way off course. This 'human being' is not the Tiralan match he was looking for. She's frazzled. She's fierce. She's from St. Louis. Beryl Bowman's mother always said she'd never get married. She should have added a rider about the husband being human. Who would have ever thought that working at the Sunshine Angel daycare center would offer such interstellar prestige? She doesn't know what the hell's going on, but a new life awaits on Barath Colony, where she can have any alien bachelor she wants. They agree to join the Choosing together, but love is about to get seriously strange. Why would two women separated by thousands of miles share a common thread involving alien abduction? Both cases are supported by multiple witnesses and have substantial evidence. Both women experienced missing time while driving with a companion, and were later taken from their homes. Both have been unwilling participants in ongoing experimental procedures that appear to follow family genetic lines. Both witnesses have given detailed descriptions of the crafts' interiors and technology, medical procedures, messages from the visitors, and the types of ETs they have encountered, including their society's hierarchical structure. Even more startling, both have independently described finding themselves on identical huge craft, within the same timeframe. The Alien Abduction Files finally reveals: The little-known details of alien experimental procedures The theoretical science that can explain alien technology The messages conveyed by the ETs to abduction experiencers The vulnerabilities and benefits of living life as an abduction experiencer The evidence that these phenomena are real.

The 1961 UFO abduction of Betty and Barney Hill stirred worldwide interest, because of the book *The Interrupted Journey*, the subsequent media coverage, and a 1975 TV movie. The case is mentioned in almost all UFO abduction books. It also became a target for debunkers, who still attack it today. But the complete story of what really happened that day, its effect on the participants, and the findings of investigators has never been told ... until now. In *Captured!*, you'll get an insider's look at the alien abduction, previously unpublished information about the lives of the Hills before and after Barney's death in 1969, their status as celebrities, Betty's experiences as a UFO investigator, and other activities before her death in 2004. Kathleen Marden, Betty Hill's niece, shares details from her discussions with Betty and from the evidence of the UFO abduction. She also looks at the Hills' riveting hypnosis sessions about their time onboard the spacecraft. In addition, coauthor, physicist, and ufologist Stanton T. Friedman, the original civilian investigator of the Roswell Incident, reviews and refutes the arguments of those who have attacked the Hill case, as well as the star map that Betty Hill saw inside the craft and later recreated.

For decades, people have reported close encounters with extraterrestrial entities. Witnesses describe being kidnapped by large-headed, black-eyed creatures from other worlds. Those same creatures have become popularly known as "the Grays." There is, however, another aspect to the alien abduction controversy. Abductees very often report being followed and spied upon by military and government personnel. It is typical for abductees to see black helicopters hovering directly over their homes in an intimidating manner. Phone calls are monitored. Emails are hacked into. Strange men dressed in black suits are seen photographing the homes of the abductees. All of this brings us to the matter of what have become known in the domain of alien abduction research as "Military Abductions," or "MILABS." According to numerous abductees, after being kidnapped by aliens they are kidnapped again . . . by the government. These follow-up events are the work of a powerful group hidden deep within the military and the intelligence community. It is the secret agenda of this highly classified organization to figure out what the so-called Grays are really up to. And, the best way for the government to get the answers is to interrogate those who have come face-to-face with the UFO phenomenon: the abductees. Why is the government secretly compiling files on alien abductees? Is the alien abduction issue so sinister that it has become a matter of national security proportions?

The Alien Abduction Files

Not all aliens are good at abducting humans. Havel, Matar and Xil have failed too many times to count. Luckily, there's help available for failed kidnappers: a diploma offered by the Intergalactic University. To complete their course, these three sexy aliens need to abduct a human female - and they're graded on it. The problem is, the human female has no intentions of being abducted, not even to help them get the universe's most recognised abduction qualification. A hilarious sci-fi reverse harem with clueless aliens and the human woman they're trying to seduce (and probe). Beware, these aliens have fangs and tails and are ready to put them to good use.

Getting probed by aliens was only the beginning... I was abducted by incompetent aliens. They didn't know what they were doing and they still don't have a clue. Now that we're done with all the probing, they're taking lessons in 'Caring for Vulnerable Females' and 'Nest Building for Beginners' and want to turn me into their mate. And no, they don't listen when I tell them I don't need a nest. In theory, I could fall for these three hunky aliens who can bring me more pleasure than I ever dreamed of, but we're being watched and analysed every minute of the day. A creepy professor from the Intergalactic University uses us as examples for her lessons, sometimes with dangerous consequences, and there's nothing we can do about it. I don't want to be a science experiment, but can I resist falling for the aliens who stole me from Earth? The first part of this hilarious sci-fi romance trilogy is published in the Stolen and Seduced anthology, but all three books can be read as standalones. If you want sexy aliens who will protect their mate at all cost, a sassy female who doesn't need protecting, plus every single alien abduction trope imaginable, scroll up and read this book today. Beware, you may be abducted at any moment, so don't waste time.

"A very powerful book . . . Druffel's research does us all a great service."—Dr. Edgar Mitchell, Apollo 14 astronaut and author of The Way of the Explorer In 1988 Ann Druffel, who has researched UFOs for forty years, discovered a little-known fact that had been drowned in abduction hysteria—documented evidence that people have successfully fended off attack by the "greys," the short, big-eyed aliens now familiar through so much popular media. Using her database of 250 case studies, including seventy "resisters," Druffel has ascertained nine techniques that witnesses use to ward off alien entities and even break off abductions in progress. And perhaps even more astonishing, this evidence points to the possible true identity of the greys and their link to the abducting entities of myth and folklore. How to Defend Yourself Against Alien Abduction covers various resistance techniques, including: • Mental Struggle: Block their mind control • Physical Struggle: Fight back • Righteous Anger: Summon your inviolate rights • Protective Rage: Guard your loved ones • Support from Family Members: Seek strength in numbers • Intuition: Sense them coming • Metaphysical Methods: Create a personal shield •

Appeal to Spiritual Personages: Get help from on high • Repellents: Use time-tested fend-off substances Complete with hair-raising true tales of courage and illustrated with eyewitness sketches, How to Defend Yourself Against Alien Abduction is the only book with step-by-step instructions on what to do—and not to do—if aliens come knocking on your door.

For decades, people have reported close encounters with extraterrestrial entities. Witnesses describe being kidnapped by large-headed, black-eyed creatures from other worlds. Those same creatures have become popularly known as "the Grays." There is, however, another aspect to the alien abduction controversy. Abductees very often report being followed and spied upon by military and government personnel. It is typical for abductees to see black helicopters hovering directly over their homes in an intimidating manner. Phone calls are monitored. Emails are hacked into. Strange men dressed in black suits are seen photographing the homes of the abductees. All of this brings us to the matter of what have become known in the domain of alien abduction research as "Military Abductions," or "MILABS." According to numerous abductees, after being kidnapped by aliens they are kidnapped again . . . by the government. These follow-up events are the work of a powerful group hidden deep within the military and the intelligence community. It is the secret agenda of this highly classified organization to figure out what the so-called Grays are really up to. Why is the government secretly compiling files on alien abductees? Is the alien abduction issue so sinister that it has become a matter of national security proportions?

Thus begins the most astonishing true-life odyssey ever recorded—one man's riveting account of his extraordinary experiences with visitors from "elsewhere" . . . how they found him, where they took him, what they did to him, and why. Believe it. Or don't believe it. But read it—for this gripping story will move you like no other. It will fascinate you, terrify you, and alter the way you experience your world.

The True Story of Alien Abduction

They are tiny. They are tall. They are gray. They are green. They survey our world with enormous glowing eyes. To conduct their shocking experiments, they creep in at night to carry humans off to their spaceships. Yet there is no evidence that they exist at all. So how could anyone believe he or she was abducted by aliens? Or want to believe it? To answer these questions, psychologist Susan Clancy interviewed and evaluated "abductees"--old and young, male and female, religious and agnostic. She listened closely to their stories--how they struggled to

explain something strange in their remembered experience, how abduction seemed plausible, and how, having suspected abduction, they began to recollect it, aided by suggestion and hypnosis. Clancy argues that abductees are sane and intelligent people who have unwittingly created vivid false memories from a toxic mix of nightmares, culturally available texts (abduction reports began only after stories of extraterrestrials appeared in films and on TV), and a powerful drive for meaning that science is unable to satisfy. For them, otherworldly terror can become a transforming, even inspiring experience. "Being abducted," writes Clancy, "may be a baptism in the new religion of this millennium." This book is not only a subtle exploration of the workings of memory, but a sensitive inquiry into the nature of belief.

Close Encounters of the Fourth Kind: cases in which personal contact between an individual or individuals is initiated by the "occupants" of the spacecraft. Such contact may involve the transportation of the individual from his or her terrestrial surroundings into the spacecraft, where the individual is communicated with and/or subjected to an examination before being returned. One might expect that a "scientific conference" devoted to people who have reported being kidnapped by "little green men" would be dismissed out of hand. But C.D.B. Bryan, the greatly admired journalist and author of *Friendly Fire*, did not dismiss it: the conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize-winning Harvard psychiatry professor and a professor of physics from M.I.T. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda, and an open (if slightly skeptical) mind. As the conference progressed, he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing—and utterly convincing—accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed, telepathic gray creatures with outsized foreheads dominated by huge, compelling, tear-shaped black eyes. What most astonished Bryan were the similarities found again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies: as the Harvard professor John E. Mack asked at the conference, "If what the abductees are saying isn't happening to them, then what is?" This question—and the possible answers—are at the center of this richly explicit, serious, and riveting book. Bryan recreates the conference. He interviews ufology's most prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians, and folklorists. He interweaves throughout the testimony of the abductees themselves, who tell us their stories in chilling detail. He presents, in depth, the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through sessions of hypnosis of which Bryan himself was a witness. Finally, Bryan examines the current theories—psychological, psychiatric, medical, parapsychological—that have been put forward by the unconvinced to explain the abduction phenomenon. Are the abductees suffering from some sort of false memory syndrome? . . . a multiple or dissociative personality disorder? . . . Are they fantasy-prone? *Close Encounters of the Fourth Kind* is a detailed, objective exploration—the most concrete to date—of one of the enduring and amazing mysteries of our time. It is a book that will equally fascinate believers and nonbelievers.

My teacher is trying to kill me... My mates and I are on the run while trying to figure out why our professor wants me dead. Not exactly the punishment I expected for botching an assignment. There has never been a more exciting time in the history of aliens than now. True alien abduction stories. UFO sightings. Powerful alien technology. Declassified UAP protocols. Underground government testing facilities. All with the evidence back it up. That's just a taste of what you'll find in the 2021 Edition of *True Alien Encounters: A History of Alien Abductions, UFO Sightings & Beyond*, the only book that traces the history of alien abductions all the way back from the very first sighting to secret government documents and testing facilities not currently known to the public. The book explores the themes that appear in all alien abduction stories in an effort to determine why these creatures from another world abduct their victims and why they do it. We included hundreds of evidence-backed UFO reports, details into how alien technology is used, and what the government is doing about the 2021 influx of UFO sightings. "What we discover about the nature of alien abductions in this book is that they are by no means random. It appears that the abductors carefully select their victims."

This Tsenturion warrior has waited a thousand years for a mate, and nothing will stop him from claiming me. I was dying, but now I'm fine. My e-reader sucked me through to another universe, where I'm healed and being trained as an alien bride. Don't get me wrong, I'm grateful for the new chance at life, but I'm not sure I want to be mated to a hulking, brooding, bossy alien. Though he's kinda hard to resist... Relationship status between me and my giant alien abductor: it's complicated. Alien Abduction is a hot alien warrior romance, starring one stubborn human and the Tsenturion warrior strong enough to master her. A True Story of Alien Abduction - One of the most important, sincere and honest abduction stories out there. Finally back in print. Following the 2013 reissue of TAKEN, a book that has been out of print for several years and fetched excessive amounts amongst collectors and those wishing to get their hands on such a legendary piece of non-fiction, INTO THE FRINGE is where it all began for Dr Karla Turner and her family. As with the reissue of TAKEN, INTO THE FRINGE is an officially authorized republication with the sole input of Karla Turner's widower Elton. Endorsed and approved by Elton Turner with the highest respect for the importance of the story; we excitedly bring INTO THE FRINGE to the 21st century. Into the Fringe documents the account of alien abduction and how Karla Turner, along with her family, uncovered the memories and physical evidence of their encounters with beings from outside of our own planet. "This brave and defiant refusal, in the name of humanity, to countenance suffering from an alien tyrant masquerading as a benefactor, is Karla Turner's final legacy." - John Chambers, UFO Magazine
