DR. SEBI HERBS Do you want to heal and revitalize your body with natural herbs? Have you always wanted to know more about Dr. Sebi's herbs and his unique approach to healing through natural alkaline diets? Then, you are welcome to read further... Dr.

Sebi until his death was an herbalist, pathologist, biochemist, and naturalist. He personally researched and identified herbs in North America, Central and South America, Africa, and the Caribbean, and established a unique methodology and approach to healing the human body using herbs that was confidently entrenched in his over 30 years of experience. Hence, he established a list of foods that he considered toxic to the body, which were processed and synthetic. They include fried food, sugar, iodized salt and alcohol (mostly the western diet.) He argued that if we should substitute such toxic substances with natural food items like fruit, green vegetables, raw nuts and grains, we would be able to ignite our body's ability to heal itself. Hit the BUY button above to learn more about Dr. Sebi's herbs and their respective health benefits.

In the last few years, researchers around the world have increasingly reported the importance of acid-alkaline balance. The Acid-Alkaline Food Guide was designed as an easy-to-follow guide to the most common foods that influence your body's pH level. Now in its Second Edition, this bestseller has been expanded to include many more domestic and international foods. Updated information also explores (and refutes) the myths about pH balance and diet, and guides the reader to supplements that can help the body achieve a healthy pH level. The Acid-Alkaline Food Guide begins by explaining how the acid-alkaline environment of the body is influenced by foods. It then presents a list of thousands of foods and their acid-alkaline effects. Included are not only single foods, such as fruits and vegetables, but also popular combination and even common fast foods. In each case, you'll not only discover whether a food is acidifying or alkalizing, but also learn the degree to which that food affects the body. Informative insets guide you in choosing the food that's right for you. The first book of its kind—now updated and expanded—The Acid-Alkaline Food Guide will quickly become the resource you turn to at home, in restaurants, and whenever you want to select a food that can help you reach your health and dietary goals.

LifeForce by Chiropractor Jeffrey S. McCombs outlines a simple and effective approach to preventing and overcoming disease, illness, and other health concerns that has been used by many of the author's patients. The LifeForce Plan is a potent tool for detoxifying the body, reestablishing the normal flora of the tissues, and reawakening the body's innate ability to regulate, balance, and protect itself. It teaches us how to activate the endless life-force potential that resides in every cell of our bodies. The seemingly miraculous results are achieved through a time-proven approach to reversing the ravaging effects that antibiotics have had on our bodies. Though antibiotics are useful, it is their worldwide overuse, misuse, and general application that have produced a devastating imbalance. The LifeForce Plan reverses that imbalance and restores the regenerative, life-enhancing cycle of the body, as the dominant cycle over the degenerative, aging cycle. The Plan succeeds where other anti-Candida diets have continuously failed, due to key fundamental insights, and it also provides a way to balance the effects of antibiotics when their judicious use is necessary. This is not intended to be a typical diet book. It offers a way to achieve better biofeedback from the body that will enable you to make dietary choices that will work for you. The Plan is a bridge back to an optimal state of health for our bodies.

Everyone knows they need to eat more fruits and vegetables, but consuming even the minimum FDA-recommended five servings a day can be challenging. In *Green for Life*, raw foods pioneer Victoria Boutenko presents an overlooked powerhouse of nutrition in this equation: greens. For their bounty of minerals and nutrients, greens exceed other vegetables in value. *Green for Life* details the immense health benefits of greens and suggests an easy way to consume them in sufficient quantities: the green smoothie. This quick, simple drink benefits everyone, regardless of lifestyle, diet, or environment. Green smoothies eliminate toxins, correct nutritional deficiencies, and are delicious as well. *Green for Life* includes the latest information on the abundance of protein in greens, the benefits of fiber, the role of greens in homeostasis, the significance of stomach acid, how greens make the body more alkaline, the healing power of chlorophyll, and more. Also included are the results of a pilot study demonstrating the effectiveness of adding just one quart of green smoothies a day to one's diet, without changing anything else in dietary intake. Green smoothie testimonials and recipes give readers confidence and motivation in exploring green smoothies for themselves. This updated edition offers important new research on the role that omega-3 and omega-6 fatty acids play in metabolic health and includes nutritional data on select green smoothies and updated findings on organic versus conventional produce. Offering more in-depth nutritional and experiential information than Boutenko's recently released *Green Smoothie Revolution*, *Green for Life* makes an ideal companion piece to its recipe-rich successor. How did a group of private bankers devise, promote and ramrod a plan through Congress to take over the money and credit of the United States at a time when anti-trust laws were being invoked to curb corporate monopolies? Answer. With money, foreign connections, inside Congressional help, propaganda and a gullible president who believed their scheme to set up the Federal Reserve System was for the welfare of the United States. That's what his book is about. The

story begins late in the first decade of the 20th Century and involves a secret and successful scam that would make any Hollywood cloak-and-dagger mystery pale by comparison. The perpetrators of the swindle include prominent New York bankers, a foreigner sent by European banking interests, a key senator and alleged front man for the Rockefeller interests. They pulled off a successful scheme to take over the people's money and credit by forming the Federal Reserve System, a deliberate misnomer, since the institution formed was not Federal nor did it have the reserves its name implies. The machinations involved tops anything Alfred Hitchcock and other Hollywood mystery producers have ever come up with. It might even rival the great Edgar Poe, the master of ratiocination himself. The book delves into how it was done and sketches those who participated in the scheme often referred to as the greatest scam in history. It pulls together various accounts of the episode as well as biographies of some participants and quotes from one autobiography of a banker who was in on the fraud and who also was a former economics writer. The story is astounding because the bankers were able to establish a private cartel at the very time when the Sherman and Clayton Anti-Trust Acts were being invoked to dismantle corporate monopolies such as Standard Oil. They used as much secrecy as they could contrive to conceal their identity using first or phony names and disguising their trip from New York to an idyllic island off the southern Georgia coast as a hunting expedition. Jekyll Island, where week-long mysterious meetings took place in 1910, was then owned by J.P. Morgan and other wealthy Americans at the time. The bankers not only wrote their legislation but railroaded it through Congress in what the late historian Antony Sutton called "one of the most disgraceful unconstitutional perversions of political power in American history." It is obvious the Fed is a failure and has not achieved its stated objective of stabilizing the economy, protecting the dollar or preventing inflation or economic cycles, some severe. As one writer points out it has presided over two stock market crashes, the Great Depression and several recessions. It has also financed several wars at least some of which its policies helped cause, some historians charge. The dollar has declined more than 90 cents since the Fed was founded in 1913, the nation is officially about \$8 billion in debt and it may be alarmingly more, it is running record budget and trade deficits and has become a debtor nation. Some stability! Even former Fed Chairman Alan Greenspan warned of the large deficits before leaving office. Congressman Ron Paul claims the Fed "...is inherently incompatible with real free market capitalism," and compares it to the centralized planning of prices, wages and production in the former Soviet Union. The scheme was unconstitutional from the beginning because the Constitution forbids fiat money; Congress delegated its constitutional power to coin and regulate money to private bankers, and it also shifted some of its constitutional power to the executive branch. The Fed's sorry record is reason enough for its abolishment, which spineless politicians will never do. At least its enigmatic and mystic nature should be stripped and its true nature should be imparted to the public via of a government-sponsored educational campaign. The mess we are in started on a cold night in Hoboken, N. Y. in November 1910 when a private railroad car loaded with New York bankers coupled on to a train headed south. Destination: Jekyll Island.

*This, the eighth book in a progressive series based on the revelations of consciousness research, resulted from a group of lectures given by the author at the request of the original publisher of A Course in Miracles, along with members of several self-help groups, including Alcoholics Anonymous, ACIM, Attitudinal Healing Centers, other recovery groups, and a number of clinicians. Our society lives with constant stress, anxiety, fear, pain, suffering, depression, and worry. Alcoholism, drug addiction, obesity, sexual problems, and cancer are constantly in the news. Mankind in general has had very little information about how to address life's challenges without resorting to drugs, surgery, or counseling. In this book, you will learn why the body may not respond to traditional medical approaches. Specific instructions and guidelines are provided that can result in complete healing from any disease. The importance of including spiritual practices in one's healing and recovery program is explained, along with how easy it is to incorporate them in the process. Healing and Recovery provides clinically proven self-healing methods that will enable you to take charge of your health and live a happy, healthy, and fulfilling life.*

*DR SEBI DIET FOR BIPOLAR DISORDERDr. Sebi was a Honduran man with a very humble beginning and was known and addressed as an herbalist, pathologist or a naturalist in different regions of the world; he left the biosphere in 2016. Indeed, it is true that he is no longer in our midst today, but his self-invented and established effective traditional therapy for diabetes, hypertension and organ cleansing is still helping millions of people with these conditions around the world. Dr. Sebi said that there were six*

fundamental food groups: live, raw, dead, hybrid, genetically modified, and drugs, but his diet basically cut out all the food groups except live and raw food, thereby encouraging dieters to eat as closely to a raw vegan diet as possible. These foods include foods like naturally grown fruits and vegetables, along with whole grains. He has believed that raw and live foods were "electric," which fought the acidic food waste in the body. So, with his approach to eating, Dr. Sebi established a list of foods that he deliberated to be the best for his diet. Sticking to Dr Sebi's Diet and Food List to cure these diseases can be challenging if you eat out a lot. Consequently, you need to get used to making lots of meals at home. To help with this, this book is born so as to give you all of the information you need to eat right and the type of herbs to eat to live healthy. Second Edition! "THANK YOU !!!! I have been suffering from IBS and SIBO for years .... I came across your "gut health protocol" and followed it to a T... and I truly have not felt this good in years !!!!! You have given me my life back !!!!! I never realized how sick I was, and I forgot how a healthy person should feel. I thought I had to live my life feeling the way I did. Not the case at all !! To everyone out there.... read the gut protocol, follow what is suggested...its so worth it !!!" – Jackie A. "I've been doing John's protocol for the last two months and it has helped immensely with my SIBO. My bloating and stomach distention are pretty much gone, ditto stools pretty much normal and motility much better. I had a glucose breath test (unfortunately only for hydrogen) a couple of weeks ago and it was negative... I did the protocol full swing, all of the supplements and extra antimicrobials, as well as lifestyle changes. I'm not necessarily 100% better, but it's the first thing I've done beside a ridiculously restrictive diet that has actually helped me heal. In fact, previously my diet was slowly becoming more and more restricted. Give it a try, it's good stuff. And, hey John Herron, thank you!" – Michelle M. "I would like to share that I have had such great success. My gut is probably about 90% better. I realize that it still probably has issues and this is a journey of healing and keeping it well, but I have had no bloating, belching, constipation or diarrhea, and limited moments of soreness. I feel that I am now digesting my food and the shortness of breath, heart palpitations, and discomfort in my throat are gone too." – Berea F. "I just looked at your latest protocol and I have to say it is totally amazing! It seems more thorough than most of the 5 books I have read. Were/are you something famous for your job?" – Debbie H. The Gut Health Protocol outlines natural approaches to tackling dozens of stomach and intestinal health issues using only scientifically studied natural herbs, supplements and diet. Supplements commonly available in local health foods stores and at your favorite online retailer. Many common ailments often have gut issues as their underlying cause, conditions such as: recurring stomach aches, diarrhea, constipation, heartburn, IBS, acid reflux, nausea, eating disorders, eczema, obesity, Chronic Fatigue Syndrome and even major depression have all been linked to gut issues. The root of many of these problems can often be traced quite convincingly to Small Intestinal Bacterial Overgrowth (SIBO), intestinal candida albicans, h.pylori bacteria overgrowth in the stomach, bacterial dysbiosis throughout the gut or other secondary conditions that these infections cause. The Gut Health Protocol, and The Gut Health Diet, can usually resolve these issues, and without damaging antibiotics or steroids. Even if you choose to go the antibiotic route The Gut Health Protocol can make the treatment more effective and can help prevent serious complications. The Gut Health Protocol contains over 1200 published scientific studies summarized and explained in easy to understand language, over 500 pages on paper, and reviews of several treatment options. Unlike many self-help books nearly everything in the book is based on science, not opinion. The author takes all of this brilliant research and translates it to the practical application of healing and caring for our gut. The book is written in such a way as allow your doctor to easily look up the scientific studies to validate the claims and treatment suggestions. No need to take the author's word for anything, you and your doctor can read the research. It is recommended that everyone works with a doctor to determine a treatment plan. Though everyone's condition is different, you can be feeling much better in as little as 2 weeks, naturally and without risky antibiotic treatments. Be sure visit The Gut Health Protocol on Facebook, there are thousands of members just like you, all helping each other.

There is one disease and one cure. That's it. The rest is a scam. We are ruled by psychopaths and run by idiots. The disease is acidosis and the cure is getting alkaline. That's it. So this should be for you

to cure what ails you and get your weight to it's ideal by respecting the delicate pH balance of the body. An Alkaline individual is one with a pH of 7.4 or higher. Most get there by switching to plant-based but limit sugary fruits. A smart Vegan is someone who is plant-based but does overdo the sweet fruits like apples, oranges, and bananas. The real way to stay healthy is to keep the delicate pH balance of their "fish tank" aka body at 7.4 and above. This is done by eating 80% alkaline, mainly dark cruciferous veggies and good fats... and 20% acidic like meat is acceptable if one just doesn't want to quit it altogether. I myself may still have a grass-fed steak on treat day. Just not 3x a day like I used to. It's more like 3 x a month. And my digestion has never been better. Let alone my health in general. You can tell by my picture on my book for a 51-year-old man I'm not doing too bad. It was a myth we needed meat to be strong. We need chlorophyll because that has the sunlight from the plants. God's vibration baby! I spent the last year with Dr. Young interviewing him and getting his complicated science into laymen's terms for the average reader to be able to get why they are fat. It's saving their lives. Their current diet is so acidic the acid has to go somewhere. To your fat cells. Better than death. But now just stop the acid. And watch the fat go away as the acid does. You are not fat you are acidic. NY Times recently recognized the Interstitium as the answer to cancer and rightly so. And all disease. It holds your interstitial fluids which take the acid out of your blood so you don't die. But where does it go? Poop, pee, sweat, and breathing are your elimination areas. And then don't put any more acid in you. This book explains what I learned from my new mentor Dr. Robert O Young author of Sick And Tired and the pH Miracle series of books. It was my extended education after my original pH teacher Dr. Bernardo Majalca who was the star of my first book and movie [icurecancer.com](http://icurecancer.com). I've been helping folks for decades cure cancer with alkalinity only to find out we could have been curing everything else too including losing weight! There is some misinformation out there. Saying nothing affects your blood pH? Wrong! Your food does affect your acidity. And if your Interstitium is full of the acid it has pulled out of your blood (via the lymphatic system and put it in the Interstitial fluid) so your blood pH doesn't change? Those interstitial fluids now need to get urinated, excreted, sweated, and aspirated out. If they don't you get acidosis which then turns to fat or worse a degenerative disease, usually cancer. So by eating alkaline food and drinking alkaline water you feed neg electrons to your cells which makes you alkaline. Not Acidic. Dr. Young's science just proved why Dr. Bernardo's work of 40 years curing folks of cancer with his pH diet, worked. The pH Miracle is true! Which is all from the "Cancer Cure" forefather Otto Warburg's work.
