The Night Before Hanukkah

Calling Bullshit

Whimsical bunnies celebrate Hanukkah in this charming rhyming board book describing all the Hanukkah rituals beloved by Jewish kids.

From an imaginative team comes a new holiday myth for all families to enjoy, especially those celebrating both Christmas and Hanukkah. Nate Gadol is a great big spirit with eyes as shiny as golden coins and a smile that is lantern bright. He can make anything last as long as it is needed, like a tiny bit of oil that must stretch for eight nights, a flower that needs to stay fresh to cheer up someone ailing, or a small lump of chocolate that grows to allow the Glasers to treat their children over the holiday and, during a harsh winter when medicine is needed more than sweets, spurs them to share what little they have with the O'Malleys. In this charming holiday hybrid story, well-known children's author and editor Arthur A. Levine pairs with award-winning illustrator Kevin Hawkes to offer a mythical, magical take on the way Jewish families came to give and receive gifts over Hanukkah, just as their Christian neighbors do at Christmas, thanks to a loving spirit named Nate Gadol working behind the scenes—together with a certain jolly old soul.

This newly illustrated, comprehensive, and highly praised retelling of the Hanukkah story includes candle blessings, rules for playing dreidel and other games, recipes, songs, and thoughts on miracles, heroes, gifts, giving, and more.

Celebrate Hanukkah--and learn the meaning behind the holiday--with this new Big Golden Book! It's Hanukkah time! Preschoolers will learn all about how people celebrate Hanukkah--from eating latkes, spinning dreidels, exchanging gifts, and lighting the menorah. And they'll also learn why they celebrate--from the destruction of the Temple, the bravery of the Maccabees, and the miracle of that little bit of oil that lasted for eight nights. Filled with colorful illustrations and

simple, yet informative text, this Big Golden Book is perfect for reading again and again. Share it with your family this Hanukkah! Corduroy and his friends celebrate Hanukkah by lighting the menorah candles, making potato latkes, singing songs, and exchanging presents. On board pages. In New Orleans, Hanukkah means decorating your door with a menorah made of hominy grits. Latkes in Texas are seasoned with cilantro and cayenne pepper. Children in Cincinnati sing Hanukkah songs and eat oranges and ice cream. While each tradition springs from its own unique set of cultural references, what ties them together is that they all celebrate a holiday that is different in America than it is any place else. For the past two hundred years, American Jews have been transforming the ancient holiday of Hanukkah from a simple occasion into something grand. Each year, as they retell its story and enact its customs, they bring their ever-changing perspectives and desires to its celebration. Providing an attractive alternative to the Christian dominated December, rabbis and lay people alike have addressed contemporary hopes by fashioning an authentically Jewish festival that blossomed in their American world. The ways in which Hanukkah was reshaped by American Jews reveals the changing goals and values that emerged among different contingents each December as they confronted the reality of living as a religious minority in the United States. Bringing together clergy and laity, artists and businessmen, teachers, parents, and children, Hanukkah has been a dynamic force for both stability and change in American Jewish life. The holiday's distinctive transformation from a minor festival to a major occasion that looms large in the American Jewish psyche is a marker of American Jewish life. Drawing on a varied archive of songs, plays, liturgy, sermons, and a range of illustrative material, as well as developing portraits of various communities, congregations, and rabbis, Hanukkah in America reveals how an almost forgotten festival became the most visible of American Jewish holidays. Bubba Brayna's legendary latkes lure an unexpected visitor into her home in this playful Hanukkah tale from a master storyteller. Bubba Brayna makes the best latkes in the village, and on the first night of Hanukkah, the scent of her cooking wakes a hungry, adorable bear from his hibernation. He lumbers into town to investigate, and Bubba Brayna—who does not see or hear very well—mistakes him for her rabbi. She welcomes the bear inside to play the dreidel game, light the menorah, and enjoy a scrumptious meal. However, after her well-fed guest leaves, there's a knock at the door—it's the rabbi, and all of Brayna's other friends, arriving for dinner. But there are no latkes left—and together, they finally figure out who really ate them. Lively illustrations by Mike Wohnoutka, portraying the sprightly Bubba Brayna and her very hungry guest, accompany this instant family favorite, a humorous reworking of Eric A. Kimmel's earlier classic tale, The Chanukkah Guest. A traditional recipe for latkes is included in the back matter, along with interesting, digestible facts about the history and traditions of Hanukkah. A 2013 National Jewish Book Award Winner, this book is perfect for a holiday story time with children— either in the classroom or at home, as an introduction for young readers to the traditions and customs of Hanukkah, and as a classic to return to year after year.

All About Hanukkah: Things to Make and Do

Bullshit isn't what it used to be. Now, two science professors give us the tools to dismantle misinformation and think clearly in a world of fake news and bad data. "A modern classic . . . a straight-talking survival guide to the mean streets of a dying democracy and a global pandemic."—Wired Misinformation, disinformation, and fake news abound and it's increasingly difficult to know what's true. Our media environment has become hyperpartisan. Science is conducted by press release. Startup culture elevates bullshit to high art. We are fairly well equipped to spot the sort of old-school bullshit that is based in fancy rhetoric and weasel words, but most of us don't feel qualified to challenge the avalanche of new-school bullshit presented in the language of math, science, or statistics. In *Calling Bullshit*, Professors Carl Bergstrom and Jevin West give us a set of powerful tools to cut through the most intimidating data. You don't need a lot of technical expertise to call out problems with data. Are the numbers or results too good or too dramatic to be true? Is the claim comparing like with like? Is it confirming your personal bias? Drawing on a deep well of expertise in statistics and computational biology, Bergstrom and West exuberantly unpack examples of selection bias and muddled data visualization, distinguish between correlation and causation, and examine the susceptibility of science to modern bullshit. We have always needed people who call bullshit when necessary, whether within a circle of friends, a community of scholars, or the citizenry of a nation. Now that bullshit has evolved, we need to relearn the art of skepticism.
