This elaborate book features over 160 ink and pencil drawings by Christoph Niemann, each a story of an unfamiliar place. They are observations on traveling, arriving and immersing oneself, on the melancholy of being on the road and the adventure of discovering new destinations, among them New York, Paris, Hong Kong, Amsterdam, Seville and Kyoto. Regardless of their subjects, these are all iconic sketches, capable of grasping the magic, light and mood of a place in a handful of virtuosic strokes. In Niemann\_s own words, in Souvenir\_ over time memories change. Most things fade, while others become more significant. Connections arise that one wasn\_t aware of originally. Sometimes a drawing can capture all this in a new and surprising way. And with some luck, the picture feels as authentic as the moment itself. Christoph Niemann is one of the world\_s most in-demand artists.Der Tagesspiegel, Berlin Co-published with Diogenes, Zurich Exhibitions: Literaturhaus München, Munich, 9 November 2018 to 3 February 2019 Deutsche Oper Berlin, to July 2019

Who hasn't asked the question "How can I find and follow my true calling?" Elle Luna frames this moment as "standing at the crossroads of Should and Must." "Should" is what we feel we ought to be doing, or what is expected of us. "Must" is the thing we dream of doing, our heart's desire. And it was her own personal journey that inspired Elle Luna to write a brief online manifesto that, in a few short months, has touched hundreds of thousands of people who've read it or heard Elle speak on the topic. Now Ms. Luna expands her ideas into an inspirational, highly visual gift book for every recent graduate, every artist, every seeker, every career changer. The Crossroads of Should and Must has a universal message—we get to choose the path between Should and Must. And it gives every reader permission to embrace this message. It's about the difference between jobs, careers, and callings. The difference between going to work and becoming one with your work. Why knowing what you want is often the hardest part. It gives eye-opening techniques for reconnecting with one's inner voice, like writing your own obituary (talk about putting life in perspective). It talks about the most common fears of choosing Must over Should—money, time, space, and the ultimate fear: total vulnerability—and shores up our hesitation with inspiring stories of and quotes from the artists and writers and thinkers who've faced their own crossroads of Should and Must and taken the leap. It explains the importance of mistakes, of "unlearning," of solitude, of keeping moving, of following a soul path. Presented in four chapters—The Crossroads, The Origin of Should, Must, and The Return—inspired by the hero's journey outlined by Joseph Campbell, The Crossroads of Should and Must guides us from the small moment, discovering our Must, to the big moment—actually doing something about it, and returning to share our new gifts with the world.

Develop a voice that captures readers' attention! All writers bring a unique set of skills to their work. One author might write outstanding characters, while another might dazzle with dialogue. You don't have to master every aspect of the craft in order to succeed, but the one quality required of every writer is a compelling, original voice. Your voice, which is often difficult to define and even more difficult to master, can transform your writing from pedestrian to powerful. In Writing Voice, you'll discover effective instruction and advice from best-selling authors and instructors like Donal Maass, Adair Lara, Paula Munier, Dinty W. Moore, James Scott Bell, and many others, plus exercises, techniques, and examples for making your prose stand out, be it fiction or memoir. You'll learn how to:
• Explore the unique way you write
• Study the distinctive styles of other writers to create your own voice
• Understand the nuances of voice, including the importance of word choice
• Develop the right voice for your genre
• Craft excellent narration that will keep readers coming back
• Choose the proper voice for your nonfiction
Constructing the voice that fits your style and your audience is paramount to crafting memorable, original work. Writing Voice gives you the tools to not only create that voice but perfect it.

Leopold Brezhnev was leader of the Soviet Union for eighteen years, a term of leadership second only in length to that of Stalin. He presided over the Brezhnev Doctrine, which accelerated the Cold War, and led the Soviet Union through catastrophic foreign policy decisions such as the invasion of Afghanistan. To many in the West, he is responsible for the stagnation (and to some even collapse) of the Soviet Union. But much of this history has been based on the only two English-language biographies (both published before Brezhnev's death and without access to archival sources) and Brezhnev's own astonishingly untrue memoirs – written for propaganda purposes. Newly translated from German, Schattenberg's magisterial book systematically dismantles the stereotypical and one-dimensional view of Brezhnev as the stagnating Stalinist by drawing on a wealth of archival research and documents not previously studied in English. The Brezhnev that emerges is a complex one, from his early apolitical years, when he dreamed of becoming an actor, through his swift and surprising rise through the Party ranks. From his hitherto misunderstood role in Khrushchev's ousting and appointment as his successor, to his somewhat pro-Western foreign policy aims, deft consolidation and management of power, and ultimate descent into addiction and untimely death. For Schattenberg, this is the story of a flawed and ineffectual idealist - for the West, this biography makes a convincing case that Brezhnev should be reappraised as one of the most interesting and important political figures of the twentieth century.

"Poverty does not consist in the want of money," I answered, "nor is begging to be deplored. Poverty consists in the desire to have everything, and through violent means if necessary"
From their founding in the fifth century BC and for over 800 years, the Cynic philosophers sought to cure humanity of greed and vice with their proposal of living simply. They guaranteed happiness to their adherents through freedom of speech, poverty, self-sufficiency and physical hardiness. In this fascinating and completely new collection of Cynic writing through the centuries, from Diogenes and Hipparchia, to Lucian and the Roman emperor Julian, the history and experiences of the Cynic philosophers are explored to the full. Robert Dobbin's introduction examines the public image of the Cynics through the ages, as well as the philosophy's contradictions and how their views on women were centuries ahead of their time. This edition also includes notes on the text, chronology, glossary and suggested further reading. Translated, edited and with an introduction by Robert Dobbin

The mass market edition of the New York Times Bestseller. This is the little-known story of how a newly independent nation was challenged by four Muslim powers and what happened when America's third president decided to stand up to intimidation. When Thomas Jefferson became president in 1801, America was deeply in debt and needed its economy to grow quickly, but its merchant ships were under attack. Pirates from North Africa routinely captured American sailors and held them as slaves, demanding ransom and tribute far beyond what the new country could afford. Jefferson found it impossible to negotiate with the leaders of the Barbary states, who believed their religion justified the plunder and enslavement of non-Muslims. These rogue states would show no mercy, so President Jefferson decided to move beyond diplomacy. He sent the U.S. Navy's new warships and a detachment of Marines to blockade Tripoli--launching the Barbary Wars and beginning America's journey toward future superpower status. As they did in George Washington's Secret Six, Killeade and Yaeger have transformed a nearly forgotten slice of history into a dramatic story that will keep you turning the pages to find out what happens next. Among the many suspenseful episodes:
· Lieutenant Andrew Steret's ferocious cannon battle on the high seas against the treacherous pirate ship Tripoli.
· Lieutenant Stephen Decatur's daring night raid of an enemy harbor, with the aim of destroying an American ship that had fallen into the pirates' hands.
· General William Eaton's 500-mile march from Egypt to the port of Derne, where the Marines launched a surprise attack and an American flag was raised in victory on foreign soil for the first time.

From the bestselling author of All about Me, a summery yet melancholic photographic reverie of palms, pools and drinks in Last Summer, the Zurich-based artist, writer and publisher Philipp Keel (born 1968) makes new still lifes and images of incidental poetry: pictures of palms, pools and drinks, depicted in a seemingly cool and summery mood. Common to them all is Keel's eye for details, and yet on closer inspection melancholy permeates many of his works. One of the great strengths of Keel's works is that they stay subtle and reserved. Keel became internationally known for his bestselling book All about Me (1998), a comprehensive publication of his imbue Print editions, and his Simple Diary series of journals. In 2014 he published the catalog State of Mind to accompany his exhibition at Villa Flor in the Engadine, featuring drawings, watercolors and silkscreen editions. Steidl published Keel's Color in 2003.

**The absurdity of the ordinary, whose beauty is all too often overlooked by saturated senses, is made visible in the vivid, highly colorful photographs of Philipp Keel. By demonstrating what can come into one's line of sight (or camera lens) through the simple act of looking with curiosity at the world, expecting not to see the usual but rather the unusual, the juxtaposed, the bright, the surreal, the exaggerated and the quixotic, Keel teaches the viewer to see with fresh eyes. His view over the harsh red illumination of the dashboard lights toward the liberating end of the tunnel is both disturbing and strangely hopeful. In photos full of movement and lightness, liveliness and spontaneity, irony and generous humor, perspectives surprise and reflections hint at a secret, puzzle-filled world that exists both in front of and behind the everyday one.**

Philipp Keel's Simple Diary (tm) Since its release TASCHEN's # 1 bestseller worldwide In a world where products are out as soon as they're in, where communicating without wires doesn't come without strings, and even our accessories need accessories, we need simple tools. A book that helps us look inside because we are overloaded outside. There are three reasons why most people, although they have tried, won't keep a diary: 1. Not every day is very eventful. 2. It actually takes a lot of discipline to write. 3. In retrospect, many find what they have written embarrassing. Keel's Simple Diary (tm) offers structure for those who don't have time to wonder, making it easy to record life's moments. It gives the pleasure of a quick response and the sense that no matter what's wrong, more is right. This instant classic is filled with refreshing philosophy and original wisdom. Keel's Simple Diary (tm) entertains, helps you focus and keeps you company.

"In Hiroshima, Japan a twisted steel dome is grim reminder of a city destroyed by the first atomic bomb used in warfare. It is a history no one dares to forget. Halfway around the globe in the Utah/Nevada border stands another ruin, the airplane hangar inside of which the bomber that carried the Hiroshima bomb was readied for its mission. Wendover Airbase, once the world's largest, now crumbles from neglect. The stories and relics at Wendover describe more than the past, they also point to a historic cycle: to a present filled with new apprehensions that carry the potential for a chilling future. Artist Mark Klett, known for his ongoing exploration of landscape, history and the passage of time through the medium of photography, and William L. Fox, a celebrated science and art writer whose work has focused on human cognition and memory, teamed up to create a fascinating visual and verbal multi-layered portrait of Wendover Airbase and the experience of memory in relation to the use of the atomic bomb by the American military in World War II." - Publisher's description

From the author of Guns, Germs and Steel, Jared Diamond's Collapse: How Societies Choose to Fail or Survive is a visionary study of the mysterious downfall of past civilizations. Now in a revised edition with a new afterword, Jared Diamond's Collapse uncovers the secret behind why some societies flourish, while others founder - and what this means for our future. What happened to the people who made the forlorn long-abandoned statues of Easter Island? What happened to the architects of the crumbling Maya pyramids? Will we go the same way, our skyscrapers one day standing derelict and overgrown like the temples at Angkor Wat? Bringing together new evidence from a startling range of sources and piecing together the myriad influences, from climate to culture, that make societies self-destruct, Jared Diamond's Collapse also shows how - unlike our ancestors - we can benefit from our knowledge of the past and learn to be survivors. 'A grand sweep from a master storyteller of the human race' - Daily Mail 'Riveting, superb, terrifying' - Observer 'Gripping ... the book fulfills its huge ambition, and Diamond is the only man who could have written it' - Economist 'This book shines like all Diamond's work' - Sunday Times

A glamorous panorama of art fairs In this portrait series, artist, writer and publisher Philipp Keel (born 1968) captures the people behind the art. This encompasses not only artists but also art collectors, art lovers, dealers, curators and gallery directors—all of whom contribute to the art world ecosystem and flock to the premier modern and contemporary art fairs held by Art Basel in Hong Kong, Basel and Miami Beach. Keel's images portray these rarefied, highly anticipated events. Walking around the fairs' corridors, he selects his subjects intuitively, drawn to their self-presentation. By positioning them beside the art on display, an exchange between art and art enthusiast emerges. As the distinction between art and image becomes increasingly hazy, the portraits underscore how the two are mutually reinforcing, bound together by the flow of commerce. The book features over 400 photographs, reflecting the vibrant excess of the art fair.
