This volume examines how people have been making, using and transforming buildings and built environments, and how buildings have been perceived, from the Byzantine period to modern times. It also considers a diversity of built constructions – including dwellings and public buildings, sheds and manor houses, and secular and sacral structures.

This lush book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals-especially those that are endangered. His powerful message, conveyed with humor, compassion, and art- to know these animals is to save them.Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits- from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the eloquent prose of veteran wildlife writer Douglas Chadwick, this book presents a thought-provoking argument for saving all the species of our planet.

Les Pays Du Nord Et L'Europe

One Man's Quest to Document the World's Animals

The Official Picture

Heaven Is Not the Last Stop by Sheila Keene-Lund is the first book to attempt to reconcile the cutting edge of today’s metaphysics, history, theology, and cosmology with the unprecedented teachings of The Urantia Book, a 2,097–page text claiming to be a planetary revelation. Keene-Lund addresses this formidable challenge in four sections: The first three address humanity’s origin, history, and destiny; her fourth section builds upon the universal and inspiring worldview that results from her research, and offers readers an advanced framework for living a life of love and service. Emphasizes earth and atmospheric hazards that appear suddenly or rapidly, without significant warning. The text further discusses ways to prevent or mitigate the damage caused by natural hazards, providing students with the latest scientific research related to these topics. These hazards are

illustrated using numerous four-color photos and diagrams.

Live the Legend. Feel the Steel Steeped in lore and legend, swords evoke images of samurai swordsmen, knights in shining armor, the glint of hardened steel, the charge of mounted cavalry. Spirit of the Word is a stunning visual journey through the history of the simplest and greatest weapon ever devised. LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They share, print and post images for personal use.

"In addition, Barton reappraises the reign of Gustav IV Adolf and the succession crises of 1809-10. He examines the increasing tension between the Pan-Scandinavian movement and the rising Finnish national movement. He deals with the historians of the Danish Agrarian Reform parallel developments in Finland and Norway between 1808 and 1917, the discovery of Norway abroad, Swedish national romanticism, and Sweden's transition from a warfare state to a welfare state to a welfare state, exemplifying the rational and humane ideals of the twentieth century."--BOOK

Offers readers a comprehensive reference to the world of film, including more than ten thousand DVD titles, along with information on performers, ratings, running times, plots, and helpful features.

The Inside Story

History, Construction and Educational Role

Reveals how the LEGO company was nearly pushed financial collapse by the advice of professional consultants, explaining how the company adapted the "Seven Truths of Innovation" to rebuild a stronger and more competitive business.

"A modern coming-of-age full of love, desperation, heartache, and magic" (Andrew Sean Greer, Pulitzer Prize-winning author) about "the ways in which family, grief, love, queerness, and vulnerability all intersect" (Kristen Arnett, New York Times bestselling author). Perfect for fans of The Perks of Being a Wallflower and The Thirty Names of Night. Though Owen Tanner has never met anyone else who has a chatty bird in their chest, medical forums would call him a Terror. From the moment Gail emerged between Owen’s ribs, his mother knew that she had to hide him away from the world. After a decade spent in hiding, Owen takes a brazen trip outdoors in the middle of a forest fire, and his life is upended forever.

Suddenly, Owen is forced to flee the home that had once felt so confining and hide in plain sight with his uncle and cousin in Washington. There, he feels the joy of finding a family among friends; of sharing the bird in his chest and being embraced fully; of falling in love and feeling the devastating heartbreak of rejection before finding a spark of happiness in the most unexpected place; of living his truth regardless of how hard the thieves of joy may try to tear him down. But the threat of the Army of Acronyms is a constant, looming presence, making Owen wonder if he'll ever find a way out of the cycle of fear. A heartbreaking yet hopeful novel about the things that make us unique and lovable, The Boy with a Bird in His Chest grapples with the fear, depression, and feelings of isolation that come with believing that we will never be loved, let alone accepted, for who we truly are, and learning to live fully and openly regardless.

This book brings together in a unique perspective aspects of natural history dioramas, their history, construction and rationale, interpretation and educational importance, from a number of different countries, from the west coast of the USA, across Europe to China. It describes the journey of dioramas from their inception through development to visions of their future. A complementary journey is that of visitors and their individual sense making and construction of their understanding from their own starting points, often interacting with others (e.g. teachers, peers, parents) as well as media (e.g. labels). Dioramas have been, hitherto, a rather neglected area of museum exhibits but a renaissance is beginning for them and their educational importance in contributing to people’s understanding of the natural world. This volume showcases how dioramas can reach a wide audience and increase access to biological knowledge.

Covers issues of money management, balancing the highs and lows of the profession, finding work to nourish your acting career, and building your creative team and support network.

The Angel was written as a fairytale, but contains elements of truth, in the way God may possibly use angels in people's dally lives. This idea comes directly from scripture as written throughout the Bible, in which angels appeared to people, prophets, and animals. In this tale, the angels speak to one another and conversations flow freely. The book traces the activities of Dionysius, an angel, as he orchestrates the lives of those God entrusts to him. The story begins by explaining who Dionysius is and commences with the peculiar way in which he meets the man in a humorous encounter with Hercules, the large shire-horse, and Phinehas, the mastiff dog, takes place on a farm belonging to old Ma Bond. After questioning the animals, Dionysius finds the old lady and her granddaughter, little Rosie, are living in very dire circumstances. The angel takes charge. After receiving instructions from God, he begins to arrange events to benefit Rosie, who is soon unfortunately orphaned by her grandmother's demise, her parents being deceased. The story details the incidents after her grandmother's death, introducing two more characters, her husband and wife, Sam and Beverly Harris, who have been praying for a child. As the tale progresses, more characters enter who help the little girl. Having no family alive and nowhere to call home, Rosie is forced to stay at the local orphanage, where she makes friends. During her life at the orphanage. Will Rosie find a new home, and will Sam and Beverly get the child they have been praying for, or will the difficulties be too great? Throughout the book, horses, dogs, and cats play an important role alongside the people, and the mastiff, Phinehas, remains loyal guardian. The angel, Dionysius, plays a vital role in everyone's lives, weaving in and out of the story at intervals, following God's instructions. The book concentrates on love, healing and forgiveness, repentance, and the salvation message, as explained in the Bible in the gospel of John. It explains "...unless one is born again, he cannot see the kingdom of God."

The Killing 1

A Creative Textile Technique

a practical handbook on all methods of reproduction in line, grain and stipple

David Hewson's The Killing 1 is the novelization of the first series of the hit Danish crime drama, The Killing. "Through the dark wood where the dead trees give no shelter Nanna Birk Larsen runs . . . There is a bright monocular eye that follows, like a hunter after a wounded deer. It moves in a slow approaching zigzag, marching through the Pineseskoven wasteland, through the Pentecost Forest. The chill water, the fear, his presence not so far away . . . There is one torchlight on her now, the single blazing eye. And it is here . . . Sarah Lund is looking forward to her last day as a detective with the Copenhagen police department before moving to Sweden. But everything changes when nineteen-year-old student, Nanna Birk Larsen, is found raped and brutally murdered in the woods outside the city. Lund's plans to relocate are put on hold as she leads the investigation along with fellow detective Jan Meyer. While Nanna's family struggles to cope with their loss, local politician, Troels Hartmann, is in the middle of an election campaign to become the new mayor of Copenhagen. When links between City Hall and the murder suddenly come to light , the case takes an entirely different turn. Over the course of twenty days, suspect upon suspect emerges as violence and political intrigue cast their shadows over the hunt for the killer.

As featured in The Washington PostSkeptic or believer, if you have an interest in Bigfoot, you need to read this book.-Statesman Journal/SalemIf you are interested in [Bigfoot] and would like to see what really happened, this book is an excellent place to start....Certainly it will make you more determined to look deeper when presented evidence for unusual creatures.- SFCrownsnest.co.ukBigfoot! Huge, hairy, foul smelling, this legendary apelike animal continues to captivate the public's imagination. This fascination hinges on a single piece of motion-picture film shot in northern California in 1967. For thirty-five years, Bigfoot believers have been convinced that this sixty-second piece of film proves the physical reality of Bigfoot.But now comes a book that demolishes that belief, that produces final proof that the film footage is a hoax.The Making of Bigfoot tells the amazing story of Roger Patterson of Yakima, Washington. A part-time rodeo rider, chronically unemployed and dying of cancer, Patterson propelled himself into short-lived fame and fortune by exploiting his obsession with the Bigfoot subject and leveraging his expertise in manipulating and conning people to pull off one of the world's great hoaxes.Living within two hours of Patterson's hometown, for three years paranormal investigator and author Greg Long interviewed more than forty witnesses in Yakima who knew Patterson intimately. The voices of these witnesses, combined with facts unearthed from newspaper archives, books, and court documents, tell the real story of Roger Patterson.Both tragic and comical, a unique slice of Americana, The Making of Bigfoot captures the testimony of a colorful cast of characters who bring to life a man and a time in the 1960s when Bigfoot strode into the American imagination, and the world embraced a myth.Greg Long (Bellevue, WA) is a technical editor and writer for an environmental engineering company, and the author of Examining the Earthlight Theory: The Yakima UFO Microcosm, a study of UFO sightings on the Yakima Indian Reservation in south-central Washington state.

In amusement parks and theme parks the role of architecture in generating an emotional experience has long outgrown its mere functional and structural aspects. This trend is now pervading shopping malls, airports, museums, even banks, and is one which progressive architects will have to confront, as it becomes an increasingly important feature for investors and users in our pleasure-seeking society. With a wealth of international examples ranging from the prototype Disneyland (where Walt Disney's concepts of animation were congenially transformed into reality) to historical amusement parks and modern day theme parks, "Animation" investigates this global trend in contemporary architecture for the first time. Rich visual images and astute analytical texts reveal how animation architecture functions, the effects it can achieve and the uses it can be put to.

The National Film Board of Canada's Still Photography Division and the Image of Canada, 1941-1971

American Geography

Natural History Dioramas

A Photo Expose by

Glamour

Essays on Scandinavian History

Mandated to foster a sense of national cohesion The National Film Board of Canada's Still Photography Division was the country's official photographer during the mid-twentieth century. Like the Farm Security Administration and other agencies in the US, the NFB used photographs to serve the nation. Division photographers shot everything from official state functions to images of the routine events of daily life, producing some of the most dynamic photographs of the time, seen by millions of Canadians - and international audiences - in newspapers, magazines, exhibitions, and filmstrips. In The Official Picture, Carol Payne argues that the Still Photography Division played a significant role in Canadian nation-building during WWII and the two decades that followed. Payne examines key images, themes, and periods in the Division's history - including the depiction of women munitions workers, landscape photography in the 1950s and 60s, and portraits of Canadians during the Centennial in 1967 - to demonstrate how abstract concepts of nationhood and citizenship, as well as attitudes toward gender, class, linguistic identity, and conceptions of race were reproduced in photographs. The Official Picture looks closely at the work of many Division photographers from staff members Chris Lund and Gar Lunney during the 1940s and 1950s to the expressive documentary photography of Michel Lambeth, Michael Semak, and Pierre Gaudard, in the 1960s and after. The Division also produced a substantial body of Northern imagery documenting Inuit and Native peoples. Payne details how Inuit groups have turned to the archive in recent years in an effort to reaffirm their own cultural identity. For decades, the Still Photography Division served as the country's image bank, producing a government-endorsed "official picture" of Canada. A rich archival study, The Official Picture brings the history of the Division, long overshadowed by the Board's cinematic divisions, to light.

Traces the history of the designs of textiles and wallpaper from 1900 to the 1980s

First published in 1991, this book is about applications and issues relating to the visual environment. The content pertains to the understanding of human behaviour in the environment by recording behaviour and actions or by direct interaction with people. The author examines research and planning methods that primarily stress the visual features of the physical environment. Traditionally, environmental research has relied on verbal descriptions and perceptions of the physical environment, virtually ignoring the visual component and the potential application of the social sciences for gathering this data. Various strategies that can expand the visual information base have been explored here: diagramming, photo-interviewing, photo-sorting, mapping, notation, simulation, videotaping, and CADD.

'For My Descendants and Myself, a Nice and Pleasant Abode' – Agency, Micro-history and Built Environment

Meee-ow! The word "catty" in the dictionary just got a new picture . . . and it's none other than the Queen of Attitude herself, Maude. Maude-for anyone who may have been preoccupied with hairballs and such-is the fabulously popular kitty with her very own line of greeting cards. We're not talking a mouse-sized 10 or 20 slicks here, but a full line of 60-plus cards displaying this furry diva and her bon mots. Life According to Maude captures our feline diva in full "cattitude." Each page shares the world according to Maude and pictures her resplendent in all her well-whiskered glory. Consider towel-wrapped Maude perched in her favorite salon chair saying, "When life gets stressful, nothing soothes the soul like the great indoors." Or Maude sporting her favorite pearl necklace (what self-respecting cat would have just one?), reflecting, "Relationships are a two-way street. My way and the wrong way!" Photographer John Lund captures this catchy cat at her all-time best, and then works with a wacky creative team to craft the unforgettably funny scenes and sayings that go with them. The resulting "catmosphere" makes for one of the freshest and zaniest gift books in years.
