comparisons between him and Muhammad Iqbal, William Shakespeare and John Donne. It also foregrounds the most distinguishing features in his poetry, including his art of dialectical poetics, the obsession with the theme of death throughout his poetry, and the representation of Karbala and Ahle-Bayt in his work. The book thus highlights the different shades of meaning in both his poetry and letters. These myriad shades are embedded in Ghalib ' s vision of life. Like Shakespeare and Sophocles, Ghalib details the colourfulness of life in all its horror and glory. Just as life itself is colourful in its myriad shades, Ghalib ' s poetry offers us a vision of life which is pluralistic, multifarious and universal at the same time.

On the other, his message of Eastern revivalism places him in the ranks of the twentieth century's major intellectuals. Iqbal's tragedy was that after his death, he was made the national poet of Pakistan and largely ignored in India. In his time, he was lauded as much as Tagore, but today India celebrates Tagore while Iqbal has been banished from her consciousness. This meticulously researched biography will redress that erasure. reduces Islam and Muslims to stereotypes of ignorance and violence in need of foreign control. It has been used to rationalize Europe's colonial domination of most of the Muslim world and continued American-led interventions in the post-colonial period. In the past 30 years it has been represented by claims that a monolithic Islam and equally monolithic West are distinct civilizations, sharing nothing in common and, indeed, involved in an inevitable clash from which only one can emerge the winner. Most recently, it has appeared in Alt Right rhetoric. Anti-Muslim sentiment, measured in public opinion polls, hate crime statistics, and legislation, is reaching record levels. Since John Esposito published his first book nearly 40

The essays in this volume highlight the contributions of scholars from a variety of disciplines who, like -- and often inspired by -- John Esposito, recognize the misleading and politically dangerous nature of Orientalist polarizations. They present Islam as a multi-faceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries. The contributors follow Esposito's lead, stressing the profound commonalities among religions and replacing Orientalist discourse with holistic analyses of the complex historical phenomena that affect developments
