the wishes for top pleasant fruit and high yields. However, methyl bromide has demonstrated unfavorable to our ozone and in 2005 faces a international ban. It is anticipated that banning methyl bromide will reduce in half of the annual manufacturing of subject-grown strawberries in California and Florida. For the patron this could imply a growth in the already astronomical costs for glowing berries out-of-season. Growing strawberries hydroponically gets rid of the need for methyl bromide. Many enterprise growers have all prepared switched to this technique of cultivation. Hydroponics is all

Aquaponics is the integration of aquaculture and soilless culture in a closed production system. This manual details aquaponics for small-scale production--predominantly for home use. It is divided into nine chapters and seven annexes, with each chapter dedicated to an individual module of aquaponics. The target audience for this manual is agriculture extension agents, regional fisheries officers, non-governmental organizations, community organizers, government ministers, companies and singles worldwide. The intention is to bring a general understanding of aquaponics to people who previously may have only known about one
