

America A Concise History Fifth Edition Summaries

Korean Americans: A Concise History tells the untold stories of the pioneering immigrants, the newly discovered tale of the first Koreatown USA, and about the first Korean aviator. The textbook conveys the Korean American experience by highlighting important moments, people, and incidents that defines this small community. The book takes readers on a journey starting with the beginning of Korean immigration to the United States, to present day issues, trends, and identity.

As the twentieth century drew to a close, computers, the Internet, and nanotechnology were central to modern American life. Yet the advances in physics underlying these applications are poorly understood and widely underappreciated by U.S. citizens today. In this concise overview, David C. Cassidy sharpens our perspective on modern physics by viewing this foundational science through the lens of America's engagement with the political events of a tumultuous century. American physics first stirred in the 1890s-around the time x-rays and radioactivity were discovered in Germany-with the founding of graduate schools on the German model. Yet American research lagged behind the great European laboratories until highly effective domestic policies, together with the exodus of physicists from fascist countries, brought the nation into the first ranks of world research in the 1930s. The creation of the atomic bomb and radar during World War II ensured lavish government support for particle physics, along with computation, solid-state physics, and military communication. These advances facilitated space exploration and led to the global expansion of the Internet. Well into the 1960s, physicists bolstered the United States' international status, and the nation repaid the favor through massive outlays of federal, military, and philanthropic funding. But gradually America relinquished its postwar commitment to scientific leadership, and the nation found itself struggling to maintain a competitive edge in science education and research. Today, American physicists, relying primarily on industrial funding, must compete with smaller, scrappier nations intent on writing their own brief history of physics in the twenty-first century.

"...presents an overview of the American experience.... [shows] students not only what happened but why" - Back cover.

Satan in America

A Brief History of the U.S. Environmental Movement

Concise History of Western Music

The Questions of Our Past

With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge scholarship, the Fifth Edition of America: A Concise History is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths – balance, explanatory power, and a brief-yet-comprehensive narrative – as well as its outstanding full-color visuals and built-in primary sources, authors James Henretta, Rebecca Edwards, and Robert Self have shaped America into the ideal brief book for the modern survey course, at a value that can't be beat. Read the preface.

First Along the River introduces students to the U.S. environmental movement. Concise, accessible, and informative, this book provides students with a balanced, historical perspective on the history of the environmental movement in relation to major social and political events in U.S. history. The book highlights important people and events, places critical concepts in context, and shows the impact of government, industry, and population on the American landscape. The fourth edition includes a new chapter that covers the entire environmental record of the George W. Bush administration, and the early record of the Obama administration.

A compelling story of agency, survival, struggle and triumph over adversity African Americans: A Concise History illuminates the central place of African-Americans in U.S. history by telling the story of what it has meant to be black in America and how African-American history is inseparably woven into the greater context of American history. It follows the long and turbulent journey of African-Americans, the rich culture they have nurtured throughout their history and the quest for freedom through which African-Americans have sought to counter oppression and racism. MyHistoryLab is an integral part of the Hine / Hine / Harrold program. Key learning applications include Closer Looks, MyHistoryLibrary, and writing assessment. A better teaching and learning experience This program will provide a better teaching and learning experience--for you and your students. Here's how: Personalize Learning – MyHistoryLab is an online homework, tutorial, and assessment program. It helps students prepare for class and instructor gauge individual and class performance. Improve Critical Thinking – Focus Questions and end-of-chapter Review Questions help students think critically about the chapter content. Engage Students – Voices boxes engage students in the works and words of African Americans. S upport Instructors – A full set of supplements, including MyHistory, provides instructors with all the resources and support they need. Note: MyHistoryLab does not come automatically packaged with this text.

Engaging history of the rich cultural, social and political life of Spain from prehistoric times to the present.

"America's History helps AP students: Grasp vital themes: The seventh edition emphasizes political culture and political economy to help students understand the ways in which society, culture, politics, and the economy inform one another. Understand periodization: America's History's unique seven-part structure, which organizes history into distinct eras, introduces students to periodization and helps them understand cause and effect, identify historical continuities, and track change over time. Develop the skills they need to succeed: America's History's hallmark analytical narrative and pedagogy help students synthesize what they've learned and interpret history for themselves."-Back cover.

Concise History of Western Music combines Grant and Palisca's uncompromising reliability, scope, and respect for the narrative, while offering many more pedagogical aids, such as chapter preludes and postludes: "Etudes," excursions that explore the material more deeply than the main text; and "Windows," boxed discussions of special topics.

NEW AP Course

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

AmericaA Concise History, Combined VolumeMacmillan

Satan in America tells the story of America's complicated relationship with the devil. "New light" evangelists of the eighteenth century, enslaved African Americans, demagogic politicians, and modern American film-makers have used the devil to damn their enemies, explain the nature of evil and injustice, mount social crusades, construct a national identity, and express anxiety about matters as diverse as the threat of war to the dangers of deviant sexuality. The idea of the monstrous and the bizarre providing cultural metaphors that interact with historical change is not new. Poole takes a new tack by examining this idea in conjunction with the concerns of American religious history. The book shows that both the range and the scope of American religiousness made theological evil an especially potent symbol. Satan appears repeatedly on the political, religious, and cultural landscape of the United States, a shadow self to the sunny image of American progress and idealism.

America

Fifth Edition, One Volume

This concise, accessible book describes American music as a panorama of distinct yet parallel streams--hip-hop and Latin; folk and country; gospel and classical; jazz, blues, and rock--that reflect the uniquely diverse character of the United States. Comparing and contrasting musical styles across regions and time, the author delivers a vision of American music both exuberant and inventive--a music that arises out of the history and musical traditions of the many immigrants to America's shores. African Americans

This is a pioneering work of American cultural history, which connects everyday attitudes and anxieties about failure to lofty ideals of individualism and salesmanship of self. Sandage's storytelling will resonate with all of us as it brings to life forgotten men and women who wrestled with The Loser--the label and the experience--in the days when American capitalism was building a nation of winners.

The latest edition of this classic text has been updated to reflect current trends and implications for future demographic developments. The areas of Africa, international migration and population and environment have been strengthened and statistical information has been updated throughout. A new edition of this classic history of demography text, which has been updated to strengthen the major subject areas of Africa, international migration and population and the environment Includes the latest statistical information, including the 2015 UN population projections revision and developments in China's population policy Information is presented in a clear and simple form, with academic material presented accessibly for the undergraduate audience whilst still maintaining the interest of higher level students and scholars The text covers issues that are crucial to the future of every species by encouraging humanity's search for ways to prevent future demographic catastrophes brought about by environmental or human agency Analyses the changing patterns of world population growth, including the effects of migration, war, disease, technology and culture

Known for its interpretive voice, balanced analysis, and brief-yet-comprehensive narrative, America: A Concise History helps students to make sense of it all while modeling the kind of thinking and writing they need to be successful. Offering more value than other brief books, America is competitively priced to save your students money, and features built-in primary sources and new ways of mastering the content so your students can get the most out of lecture and come to class prepared. The sixth edition rolls out Bedford/St. Martin's new digital history tools, including LearningCurve, an adaptive quizzing engine that garners over a 90% student satisfaction rate, and LaunchPad, the all new interactive e-book and course space that puts high quality easy-to-use assessment at your fingertips. Easy to integrate into your campus LMS, and featuring video, additional primary sources, a wealth of adaptive and summative quizzing, and more, LaunchPad cements student understanding of the text while helping them make progress toward learning outcomes. It's the best content joined up with the best technology.

A Concise History

The Devil We Know

Problems in Modern Latin American History: A Reader is the long-awaited successor to Joseph S. Tulchin's Problems in Latin American History, which was published more than twenty years ago and has been out of print for ten. Realizing how the field has changed in the past two decades, Professors Chasteen and Tulchin have compiled a work that addresses new topics and issues to serve both faculty and students alike.p The authors examine nine problems in modern Latin America-issues that complement most survey texts and create geographical and chronological spans maximizing the book's applicability to various classroom needs. Each of the book's nine chapters, compiled by an expert in the field, begins with an introduction that provides an overview of the problem to be examined.p

America's Promise is a concise, highly readable introduction toAmerican History. Designed to clearly explain major themes and events, it also captures the rich and often amusing character of the American people. The strong narrative emphasizes public life and how individuals constructed public structures in which they lived and worked. Including the latest scholarship in social, cultural, and political history, the work integrates the history and importance of women and minorities.To aid students in learning and reviewing, each chapter begins with apreview of the main ideas that will be discussed and ends with a conclusionthat reinforces the key concepts. Rather than being simply declaratory signposts, section headings highlight main ideas and help carry along thenarrative. A glossary defines main terms, and a timeline helps students keep track of events. Selected readings are also included to encourage further reading and study. Finally, carefully selected illustrations and maps portray, pinpoint, and illuminate important episodes in American history. The most concise and competitively priced book available, America's Promise is a breath of fresh air in the introductory market.

These United States

The American Promise: A Concise History is a brief, inexpensive narrative with a clear political, chronological narrative that makes teaching and learning American history a snap. Streamlined by the authors themselves to create a truly concise book, the fifth edition is nearly 15 percent shorter than the fourth compact edition, yet it includes more primary sources than ever—including a new visual sources feature. It is also enhanced by LearningCurve, our easy-to-assign adaptive learning system that will ensure students come to class prepared.

A Concise History of the American Republic, Second Edition, is a compact, authoritative, gracefully written narrative of American history from the arrival of the Native Americans' Siberian forebears to the economic conflicts of the Carter and Reagan administrations. Its distinguished authors embrace a full range of the American experience: economic and social, literary and spiritual, political and military. In the engaging narrative that has made this work so well received, the second edition offers fresh and incisive analyses of the American party system, the Cold War, unemployment, environmental problems, Middle East conflicts, the energy crisis, our relations with China, the issues surrounding various elections, and much more. Major social, political, and economic policies and trends that have affected women and minority groups are recorded in detail. A Concise History is illustrated with 30 maps and over 200 paintings, cartoons, and photographs. Available in one-volume paper and cloth editions and in two separate paperback volumes.

In *The American South*, William J. Cooper, Jr. and Thomas E. Terrill demonstrate their belief that it is impossible to divorce the history of the south from the history of the United States. Each volume includes a substantial biographical essay—completely updated for this edition—which provides the reader with a guide to literature on the history of the South. Coverage now includes the devastation of Hurricane Katrina in 2005, up-to-date analysis of the persistent racial divisions in the region, and the South's unanticipated role in the 2008 presidential primaries.

Born Losers

An Oral History as Told by Jon Stewart, the Correspondents, Staff and Guests

First Along the River

America: a Concise History 3rd Ed Vol 2 + Pocket Guide to Writing in History 5th Ed + Brown V. Board of Education

A Concise History of the American Republic:

Using a thematic approach, this concise survey explores the many and varied threads of American history-social, intellectual, cultural, political, diplomatic, economic, and military—from the arrival of the first native American inhabitants thousand of years ago through the crisis following the terrorist attacks on New York and Washington on September 11, 2001. Irwin Unger, a Pulitzer Prize winning author, wrote this book after discovering from his own experiences teaching American history at the University of California at Davis and at NYU, that a thematic approach was much more interesting to students than a purely descriptive one.

Known for its interpretive voice, balanced analysis, and brief-yet-comprehensive narrative, America: A Concise History helps students to make sense of it all while modeling the kind of thinking and writing they need to be successful. Offering more value than other brief books, America is competitively priced to save your students money, and features built-in primary sources and new ways of mastering the content so your students can get the most out of lecture and come to class prepared.

Give Me Liberty! is the #1 book in the U.S. history survey course because it works in the classroom. A single-author text by a leader in the field, Give Me Liberty! delivers an authoritative, accessible, concise, and integrated American history. Updated with powerful new scholarship on borderlands and the West, the Fifth Edition brings new interactive History Skills Tutorials and Norton InQuizitive for History, the award-winning adaptive quizzing tool.

A Concise History of U.S. Foreign Policy offers a conceptual and historical overview of American foreign relations from the founding to the present. Joyce Kaufman clearly explains major themes in foreign relations and places the evolution of policy decisions within the context of the international situations and domestic priorities.

Known for its clear narrative voice and impeccable scholarship, Alan Brinkley's best-selling program for the U.S. survey course invites students to think critically about the many forces that continually create the Unfinished Nation that is the United States. In a concise but wide-ranging narrative, Brinkley shows the diversity and complexity of the nation and our understanding of its history—one that continues to evolve both in the events of the present and in our reexamination of new evidence and perspectives on the past. This edition features a series of Patterns of Popular Culture essays, as well as expanded coverage of pre-Columbian America, new America in the World essays, and updated coverage of recent events and developments that demonstrates how a new generation continues to shape the American story.
