

## American Betrayal

American Betrayal  
The Secret Assault on Our Nation's  
Character  
St. Martin's Press

Drawing from interviews and oral histories, chronicles the history of Japanese American survivors of internment camps. During the Great Depression, a sense of total despair plagued the United States. Americans sought a convenient scapegoat and found it in the Mexican community. Laws forbidding employment of Mexicans were accompanied by the hue and cry to "get rid of the Mexicans!" The hysteria led pandemic repatriation drives and one million Mexicans and their children were illegally shipped to Mexico. Despite their horrific treatment and traumatic experiences, the American born children never gave up hope of returning to the United States. Upon attaining legal age, they badgered their parents to let them return home. Repatriation survivors who came back worked diligently to get their lives back together. Due to their sense of shame, few of them ever

## Online Library American Betrayal

told their children about their tragic ordeal. Decade of Betrayal recounts the injustice and suffering endured by the Mexican community during the 1930s. It focuses on the experiences of individuals forced to undergo the tragic ordeal of betrayal, deprivation, and adjustment. This revised edition also addresses the inclusion of the event in the educational curriculum, the issuance of a formal apology, and the question of fiscal remuneration. "Francisco Balderrama and Raymond Rodríguez, the authors of Decade of Betrayal, the first expansive study of Mexican repatriation with perspectives from both sides of the border, claim that 1 million people of Mexican descent were driven from the United States during the 1930s due to raids, scare tactics, deportation, repatriation and public pressure. Of that conservative estimate, approximately 60 percent of those leaving were legal American citizens. Mexicans comprised nearly half of all those deported during the decade, although they made up less than 1 percent of the country's population. 'Americans, reeling from the economic

America's Deadly Betrayal of the Marshall Islanders

***During the course of American history, wrongful events have occurred and certain Americans have stood up and spoken out against these wrongs: Tom Paine, Edward R. Murrow, Daniel Ellsberg. Vincent Bugliosi takes his place in this special pantheon of patriots with his powerful, brilliant, and courageous expose of crime by the highest court in the land. When an article he wrote on this topic appeared in The Nation***

*magazine in February 2001, it drew the largest outpouring of letters and e-mail in the magazine's 136-year history, tapping a deep reservoir of outrage. The original article is now expanded, amended, and backed by amplifications, endnotes, and the relevant Supreme Court documents.*

*"Rothkopf does a brilliant job defining precisely how Trump has been aiding and abetting the enemy... compelling." --Financial Times Political historian and commentator David Rothkopf shows how Trump will be judged by history (Spoiler alert: not well) in Traitor. Donald Trump is unfit in almost every respect for the high office he holds. But what distinguishes him from every other bad leader the U.S. has had is that he has repeatedly, egregiously, betrayed his country. Regardless of how Senate Republicans have let him off the hook, the facts available to the public show that Trump has met every necessary standard to define his behavior as traitorous. He has clearly broken faith with the people of the country he was chosen to lead, starting long before he took office, then throughout his time in the White House. And we may not yet have seen the last of his crimes. But the story we know so far is so outrageous and disturbing that it raises a question that has never before been presented in American history: is the president of the United States the greatest threat this country faces in the world? We also need to understand how the country has historically viewed such crimes and how it has treated them in the past to place what has happened in perspective. After his examination of traitors including Benedict Arnold, Aaron Burr, and leaders of the Confederacy, David Rothkopf concludes that Donald Trump and his many abettors have committed the highest-level, greatest, most damaging betrayal in the history of the*

**country.**

***From the villages of Puerto Rico and Cuba, this story starts as one family's drive to live the American Dream. With every journey, there are obstacles and challenges to overcome, as well as, euphoria and heartbreak to celebrate and endure. The child of immigrants, Sylvia Cruz is an indomitable force, who fights her way through life only to die suddenly in an accident. Her son, Jamie, skeptical of this 'accident' enlists his oldest friend, a former FBI Special Agent, Eddy, to unpack this seemingly closed case. The intrigue intensifies when Eddy learns of the family's relationship to a ruthless crime syndicate, "The Montenegro Doble Doble." Betrayal and revenge become the back story of this family's American Dream. Amidst Sylvia's occasional triumphs, there are setbacks, defeats and victims aplenty. Buckle up, the ride will take you from the shores of the Caribbean to the concrete jungle of the South Bronx.***

***The remarkable story of the last American spy of the Cold War: Aldrich "Rick" Ames, the most destructive traitor in the history of the Central Intelligence Agency Tim Weiner, David Johnston, and Neil A. Lewis, reporters for The New York Times, tell how the barons of the CIA could not believe that its headquarters harbored a traitor. For years, the Agency was baffled by a wily Russian spymaster who played a high-stakes chess game against the Americans, deceiving the CIA into thinking that there were other moles—or no moles at all. It took nearly eight years for the CIA to share the full facts of the scenario with the Federal Bureau of Investigation. Once they knew those facts, the men and women of the FBI tracked Aldrich Ames day and night for nine months before they arrested him. They tell their story here in astonishing detail for the first time. The***

**\*\*\*NEW YORK TIMES BESTSELLER\*\*\*** An Explosive, Revelatory Assessment of the Greatest Betrayal in American History, Newly Revised and Updated William Barr · Paul Manafort · Michael Cohen · Steve Bannon · Rudy Giuliani · Mitch McConnell · Roger Stone · George Papadopoulos · Jeff Sessions · And More! "Impressive... a persuasive whodunit narrative." -Washington Post In *The Plot to Betray America*, New York Times bestselling author and renowned intelligence expert Malcolm Nance reveals exactly how President Trump and his inner circle conspired, coordinated, communicated, and eventually strategized to commit the greatest acts of treachery in the history of the United States: compromising the presidential oath of office in exchange for power and personal enrichment. Seduced by the promises of riches dangled in front of them by Vladimir Putin, the Trump administration eagerly decided to reap the rewards of the plan to put a Kremlin-friendly crony in the Oval Office. Even after his impeachment, Trump continues to defend Putin and jeopardize American intelligence. And instead of interfering, Trump's powerful Republican

## Online Library American Betrayal

allies have done everything they can to facilitate Trump's irreparable damage to national security. Through in-depth research and interviews with intelligence experts and insiders, Nance charts Trump's deep financial ties to Russia through his family's investments—including those of Donald Trump Jr., Ivanka Trump, and Jared Kushner—and exposes the corrupt behavior of Trump's other double-crossing pro-Moscow associates. In doing so, Nance also draws a portrait of a venal and selfish president, one who willingly sells American national security to dictators, strongmen, and the ultra-rich at the expense, and sometimes the lives, of American citizens. In this newly revised and updated edition, *The Plot to Betray America* ultimately sketches the blueprint of the Trump administration's conspiracy against our country—and shows us how we can still fight to defend democracy, protect our national security, and save the Constitution.

Capturing a world of social unrest and upheaval, a study of America's Gilded Age offers a fresh analysis of a post-Civil War era marked by corrupt politicians, racism, a tyranny of wealth, the power of the business world over the rights of workers, labor unrest, violence, and the corporate rule of government. Reprint. 12,500 first printing.

The fierce battle over identity and patriotism within Cherokee culture that took place in the years surrounding the Trail of Tears Though the tragedy of the Trail of Tears is widely recognized today, the pervasive effects of the tribe's uprooting have never been examined in detail. Despite the Cherokees' efforts to assimilate with the dominant white culture—running their own newspaper, ratifying a constitution based on that of the United States—they were never able to integrate fully with white men in the New World. In *An American Betrayal*, Daniel Blake Smith's vivid prose brings to life a host of memorable characters: the veteran Indian-fighter Andrew Jackson, who adopted a young Indian boy into his home; Chief John Ross, only one-eighth Cherokee, who commanded the loyalty of most Cherokees because of his relentless effort to remain on their native soil; most dramatically, the dissenters in Cherokee country—especially Elias Boudinot and

## Online Library American Betrayal

John Ridge, gifted young men who were educated in a New England academy but whose marriages to local white girls erupted in racial epithets, effigy burnings, and the closing of the school. Smith, an award-winning historian, offers an eye-opening view of why neither assimilation nor Cherokee independence could succeed in Jacksonian America.

Thom Hartmann, the most popular progressive radio host in America and a New York Times bestselling author, explains how the Supreme Court has spilled beyond its Constitutional powers and how we the people should take that power back. Taking his typically in-depth, historically informed view, Thom Hartmann asks, What if the Supreme Court didn't have the power to strike down laws? According to the Constitution, it doesn't. From the founding of the republic until 1803, the Supreme Court was the final court of appeals, as it was always meant to be. So where did the concept of judicial review start? As so much of modern American history, it began with the battle between the Federalists and Anti-Federalists, and with Marbury v. Madison. Hartmann argues it is not the role of the Supreme Court to decide what the law is but rather the duty of the people themselves. He lays out the history of the Supreme Court of the United States, since Alexander Hamilton's defense to modern-day debates, with key examples of cases where the Supreme Court overstepped its constitutional powers. The ultimate remedy to the Supreme Court's abuse of power is with the people--the ultimate arbiter of the law--using the ballot box. America does not belong to the kings and queens; it belongs to the people.

Ngo Dinh Diem, the first president of the Republic of Vietnam, possessed the Confucian “Mandate of Heaven”, a moral and political authority that was widely recognized by all Vietnamese. This devout Roman Catholic leader never lost this mandate in the eyes of the people; rather, it was removed by his erstwhile allies in the United States government in a coup sponsored by them resulting in his assassination. The commonly held view runs contrary to the above assertion by military historian Geoffrey Shaw. According to many American historians, President Diem was a corrupt leader whose tyrannical actions lost him the loyalty of his people and the possibility of a military victory over the North Vietnamese. The Kennedy Administration, they argue, had to withdraw its support of Diem. Based on his research of original sources, however, including declassified documents of the US government, Shaw found a Diem who was up for Mass at 6:30 every morning, who was venerated by the Vietnamese as a great leader at all levels of government and society, a kind man who did not even like the thought of Communist guerrillas being killed. Also, according to historical record, Diem did not persecute Buddhists; on the contrary, he did more to preserve and to fund Vietnam's Buddhist heritage than any other Vietnamese leader. “A candid account of the killing of Ngo Dinh Diem, the reasons for it, who was responsible, why it happened, and the disastrous results . . . This book is not a happy read. But it is a careful record to set the issue straight. What is particularly agonizing for Americans who read this clearly stated and tightly argued book is the fact that the final Vietnam defeat was not really on battle grounds but on political and moral grounds, or, even worse, on personal grounds of

prideful diplomats and reporters. The Vietnam War need not have been lost. Overwhelming evidence supports it. ” — From the Foreword by James Schall, S.J., Professor Emeritus, Georgetown University “ Did I find a veritable Conradian ‘ Heart of Darkness ’ ? Yes, I did, but it was not in the quarter to which all popular American sources were pointing their accusatory fingers; in other words, not in Saigon but, paradoxically, within the Department of State back in Washington, DC, and within President Kennedy ’ s closest White House advisory circle. The actions of these men led to Diem ’ s murder. And with his death, nine and a half years of careful work and partnership between the United States and South Vietnam was undone. ” — From the Preface by Geoffrey Shaw

A Christian Science Monitor Best Book of the Year From the award-winning author of *Waiting and War Trash*: a riveting tale of espionage and conflicted loyalties that spans half a century in the entwined histories of two countries—China and the United States—and two families. When Lilian Shang, born and raised in America, discovers her father ’ s diary after the death of her parents, she is shocked by the secrets it contains. She knew that her father, Gary, convicted decades ago of being a mole in the CIA, was the most important Chinese spy ever caught. But his diary, an astonishing chronicle of his journey as a Communist intelligence agent, reveals the pain and longing that his double life entailed—and point to a hidden second family that he ’ d left behind in China. As Lilian follows her father ’ s trail back into the Chinese provinces, she begins to grasp the extent of his dilemma: he is a man torn between loyalty to his motherland and the love he came to feel for his adopted country. She sees how his sense of duty distorted his life, and as she starts to understand that Gary too had been betrayed, Lilian finds that it is up to her to prevent his tragedy from endangering yet another

generation of Shangs. A stunning portrait of a multinational family and an unflinching inquiry into the meaning of citizenship, patriotism, and home, *A Map of Betrayal* is a spy novel that only Ha Jin could write.

\*\*\*THE INSTANT New York Times, Wall Street Journal, USA Today, and IndieBound BESTSELLER\*\*\* An NPR Book of the Day Picking up where the New York Times bestselling *Front Row at the Trump Show* left off, this is the explosive look at the aftermath of the election—and the events that followed Donald Trump 's leaving the White House all the way to January 6—from ABC News' chief Washington correspondent. Nobody is in a better position to tell the story of the shocking final chapter of the Trump show than Jonathan Karl. As the reporter who has known Donald Trump longer than any other White House correspondent, Karl told the story of Trump 's rise in the New York Times bestseller *Front Row at the Trump Show*. Now he tells the story of Trump 's downfall, complete with riveting behind-the-scenes accounts of some of the darkest days in the history of the American presidency and packed with original reporting and on-the-record interviews with central figures in this drama who are telling their stories for the first time. This is a definitive account of what was really going on during the final weeks and months of the Trump presidency and what it means for the future of the Republican Party, by a reporter who was there for it all. He has been taunted, praised, and vilified by Donald Trump, and now Jonathan Karl finds himself in a singular position to deliver the truth.

*Who Will Tell the People is a passionate, eye-opening challenge to American democracy. Here is a tough-minded exploration of why we're in trouble, starting with the basic issues of who gets heard, who gets ignored, and why. Greider shows us the realities of power in Washington today, uncovering the hidden relationships that link politicians with corporations and the rich, and that subvert the needs of ordinary citizens. How do we put meaning back into public life? Greider shares the stories of some citizens who have managed to crack Washington's "Grand Bazaar" of influence peddling as he reveals the structures designed to thwart them. Without naiveté or cynicism, Greider shows us how the system can still be made to work for the people, and delineates the lines of battle in the struggle to save democracy. By showing us the reality of how the political decisions that shape our lives are made, William Greider explains how we can begin to take control once more.*

*Universities once believed themselves to be sacred enclaves, where students and professors could debate the issues of the day and arrive at a better understanding of the human condition. Today, sadly, this ideal of the university is being quietly betrayed from within. Universities still set themselves apart from American society, but now they do so by enforcing their own politically correct worldview through censorship, double standards, and a judicial system without due process. Faculty and students who threaten the prevailing norms may be forced to undergo "thought reform." In a*

The Shadow University is a stinging indictment of the covert system of justice on college campuses, exposing the widespread reliance on kangaroo courts and arbitrary punishment to coerce students and faculty into conformity. Alan Charles Kors and Harvey A. Silverglate, staunch civil libertarians and active defenders of free inquiry on campus, lay bare the totalitarian mindset that undergirds speech codes, conduct codes, and "campus life" bureaucracies, through which a cadre of deans and counselors indoctrinate students and faculty in an ideology that favors group rights over individual rights, sacrificing free speech and academic freedom to spare the sensitivities of currently favored groups. From Maine to California, at public and private universities alike, liberty and fairness are the first casualties as teachers and students find themselves in the dock, presumed guilty until proven innocent and often forbidden to cross-examine their accusers. Kors and Silverglate introduce us to many of those who have firsthand experience of the shadow university, including: The student at the center of the 1993 "Water Buffalo" case at the University of Pennsylvania, who was brought up on charges of racial harassment after calling a group of rowdy students "water buffalo" -- even though the term has no racial connotations. The Catholic residence adviser who was fired for refusing, on grounds of religious conscience, to wear a symbol of gay and lesbian causes. The professor who was investigated for sexual harassment when he disagreed with campus feminists about*

*curriculum issues. The student who was punished for laughing at a statement deemed offensive to others and who was ordered to undergo "sensitivity training" as a result. The Shadow University unmasks a chilling reality for parents who entrust their sons and daughters to the authority of such institutions, for thinking people who recognize that vigorous debate is the only sure path to truth, and for all Americans who realize that when even one citizen is deprived of liberty, we are all diminished.*

*A nefarious blackmail. An attempted murder. Another metric ton of coffee... Someone is trying to blackmail one of The Great American's biggest influencecebs, and Frank Harken—private investigator—along with his trusty coffeobot, Arjay, will stop at nothing to get to the bottom of it\*. As they follow the clues, the two are pulled deeper and deeper into the giant mall's secret machinations, and with every twist and turn the case provides, it becomes clearer that there's a sinister force looming over the Great American, one that has no qualms about using—and disposing—of anyone and anything to accomplish its goals. By the end of it all, only one thing will be for certain: Harken could really, really use a cup of coffee. The Great American Betrayal is the sci-fi comedy satire sequel to The Great American Deception which Publishers Weekly (starred review, PW Picks) said, "Sure to appeal to fans of Douglas Adams, this zany, uproarious mystery is a constant delight." If you like quirky characters, cultural mashups, and original wordplay, then you'll love Scott Stein's futuristic send-up. Grab your copy today!*

One of the most sustained and vigorous public debates today is about the value and, crucially, the price of college. But an unspoken, outdated assumption underlies all sides of this debate: if a young person works hard enough, they'll be able to get a college degree and be on the path to a good life. That's simply not true anymore, says Sara Goldrick-Rab. Quite simply, college is far too expensive for many people today, and the confusing mix of federal, state, institutional, and private financial aid leaves countless students without the resources they need to pay for it. Drawing on a study of 3,000 young adults who entered public colleges and universities in Wisconsin in 2008 with the support of federal aid and Pell Grants, Goldrick-Rab reveals the devastating effect of these shortfalls. She believes America can fix this problem. In the final section of the book, Goldrick-Rab offers a range of possible solutions.

Asserts that the CIA turned the National Student Association into an intelligence asset during the Cold War, with students used—often wittingly and sometimes unwittingly—as undercover agents inside America and abroad.

## Online Library American Betrayal

To protect the confidentiality of the innocent parties and to avoid further litigation by the wrongdoers, all names used in the book are fictitious, as is the name of the government regulatory agency. This book is the account of John Doe, MBA, CPA, whistleblower, certified examiner at the Financial Regulatory Agency. Mr. Doe has risen through the ranks in a long established professional career at the Financial Regulatory Agency spanning nearly 25 years. He headed up the Large Insured Depository Institutions program for nearly a decade leading up to the banking crisis. Agency officials removed him from the role once he made repeated disclosures to the Chairman at the agency, Ombudsman, Inspector General, and others about the deficiencies discovered in the agency's bank monitoring system. Mr. Doe currently has two formal legal complaints pending with the Office of Special Counsel and the Equal Employment Opportunity Commission. Mr. Doe reluctantly became a whistleblower at the agency once he realized the government was a partner in enabling patterns of defective loans which sparked the recession. Like other government whistleblowers, Mr. Doe was ignored and silenced at the agency until stripped of all relevant duties without explanation after warning repeatedly that a crisis of our own design would lead to the bank failures that subsequently occurred. For example, he blew the whistle on a secrecy loophole that created a knowledge gap for risks by non-bank affiliates of consolidated bank holding companies -- the only Financial Regulatory Agency oversight of overall risks at institutions like Citigroup, Bank of America, Wachovia and Washington Mutual. Had the government listened, billions of dollars could have been saved. Of course, the harm and disruptions the mortgage crisis caused homeowners may have been spared

## Online Library American Betrayal

in part as well. This is the inside story.

Asian American women have long dealt with charges of betrayal within and beyond their communities. Images of their "disloyalty" pervade American culture, from the daughter who is branded a traitor to family for adopting American ways, to the war bride who immigrates in defiance of her countrymen, to a figure such as Yoko Ono, accused of breaking up the Beatles with her "seduction" of John Lennon. Leslie Bow here explores how representations of females transgressing the social order play out in literature by Asian American women. Questions of ethnic belonging, sexuality, identification, and political allegiance are among the issues raised by such writers as Jeanne Wakatsuki Houston, Bharati Mukherjee, Jade Snow Wong, Amy Tan, Sky Lee, Le Ly Hayslip, Wendy Law-Yone, Fiona Cheong, and Nellie Wong. Beginning with the notion that feminist and Asian American identity are mutually exclusive, Bow analyzes how women serve as boundary markers between ethnic or national collectives in order to reveal the male-based nature of social cohesion. In exploring the relationship between femininity and citizenship, liberal feminism and American racial discourse, and women's domestic abuse and human rights, the author suggests that Asian American women not only mediate sexuality's construction as a determiner of loyalty but also manipulate that construction as a tool of political persuasion in their writing. The language of betrayal, she argues, offers a potent rhetorical means of signaling how belonging is policed by individuals and by the state. Bow's bold analysis exposes the stakes behind maintaining ethnic, feminist, and national alliances, particularly for women who claim multiple loyalties.

Pulitzer Prize-winning journalist Walter Pincus exposes the darkest secret in American nuclear history—sixty-seven nuclear tests in the Marshall Islands that decimated a people and their land. The most important place in American nuclear history are the Marshall Islands—an idyllic Pacific paradise that served as the staging ground for over sixty US nuclear tests. It was here, from 1946 to 1958, that America perfected the weapon that preserved the peace of the post-war years. It was here—with the 1954 Castle Bravo test over Bikini Atoll—that America executed its largest nuclear detonation, a thousand times more powerful than Hiroshima. And it was here that a native people became unwilling test subjects in the first large scale study of nuclear radiation fallout when the ashes rained down on powerless villagers, contaminating the land they loved and forever changing a way of life. In *Blown to Hell*, Pulitzer Prize-winning journalist Walter Pincus tells for the first time the tragic story of the Marshallese people caught in the crosshairs of American nuclear testing. From John Anjain, a local magistrate of Rongelap Atoll who loses more than most; to the radiation-exposed crew of the Japanese fishing boat the *Lucky Dragon*; to Dr. Robert Conard, a Navy physician who realized the dangers facing the

## Online Library American Betrayal

islanders and attempted to help them; to the Washington power brokers trying to keep the unthinkable fallout from public view . . . Blown to Hell tells the human story of America's nuclear testing program. Displaced from the only homes they had known, the native tribes that inhabited the serene Pacific atolls for millennia before they became ground zero for America's first thermonuclear detonations returned to homes despoiled by radiation—if they were lucky enough to return at all. Others were ripped from their ancestral lands and shuttled to new islands with little regard for how the new environment supported their way of life and little acknowledgement of all they left behind. But not even the disruptive relocations allowed the islanders to escape the fallout.

This 20th-anniversary edition of the extraordinary New York Times bestseller features a new introduction from the author! "Stiffed is a brilliant, important book.. Faludi's reportorial and literary skills unfold with breathtaking confidence and beauty... She goes a long way toward eliminating the black and white, good and evil, male and female polarities that have riven the sexes in the past three decades..." –Time In 1991, internationally renowned feminist journalist Susan Faludi ignited a revival of the women's movement with her revelatory investigative reportage: *Backlash* was nothing less than a landmark, uncovering an "undeclared war" against women's equality in the media, advertising, Hollywood, the workplace, and government—a war that is still being fought today. *Stiffed* may be even more essential than *Backlash* to understanding the cultural riptides that led to Trumpian America. Here, Faludi turns her attention to the so-called "Angry Male" politics plaguing the nation. Through deeply researched, nuanced, and empathetic character studies of distressed industrial workers, laid-off aerospace engineers, combat veterans, football fans, evangelical husbands, suburban and

## Online Library American Betrayal

inner-city teenage boys, and Hollywood and porn actors, *Stiffed* goes beyond the easy explanations of male misbehavior—that it's driven by chromosomes or hormones—to lay bare the powerful social and economic forces that have shattered the postwar compact defining American manhood. Faludi's vivid storytelling illuminates the historic and traumatic paradigm shift from a "utilitarian" manliness, grounded in civic and communal service, to an "ornamental" masculinity shaped by entertainment, marketing, and performance values. Read in the light of Trumpian politics and the #MeToo movement, Faludi's analysis speaks acutely to our present crisis, and to a foreboding future. *Stiffed* delivers a searing portrait of modern-day male America, and traces the provenance of a gender war that continues to rage, unabated.

CONSIDER THIS SHOCKING FACT: while China's number one export to the United States is \$46 billion of computer equipment, the number one export from the U.S. to China is waste—\$7.6 billion of waste paper and scrap metal. Bestselling author Clyde Prestowitz reveals the astonishing extent of the erosion of the fundamental pillars of American economic might—beginning well before the 2008 financial crisis—and the great challenge we face for the future in competing with the economic juggernaut of China and the other fast-rising economies. As the arresting facts he introduces show, the U.S. is rapidly losing the basis of its wealth and power, as well as its freedom of action and independence. If we do not make dramatic changes quickly, we will confront a painful permanent slide in our standard of living; the dollar will no longer be the world's currency; our military strength will be whittled away; and we will be increasingly subject to the will of China, Russia, Saudi Arabia, and various malcontents. But it doesn't have to be that way. As Prestowitz shows in a masterful account of how we've

## Online Library American Betrayal

come to this fateful juncture, we have inflicted our economic decline on ourselves—we abandoned the extraordinary approach to growth that drove the country's remarkable rise to superpower status from the early days of the republic up through World War II. For most of our history, we supported our home industries, protected our market against unfair trade, made the world's finest products—leading the way in technological innovation—and we were strong savers. But in the post-WWII era, we reversed course as our leadership embraced a set of simplistically attractive but disastrously false ideas—that consumption rather than production should drive our economy; that free trade is always a win-win; that all globalization is good; that the market is always right and government regulation or intervention in the economy always causes more harm than good; and that it didn't matter that our factories were fleeing overseas because we were moving to the "higher ground" of services. In a devastating account, Prestowitz shows just how flawed this orthodoxy is and how it has gutted the American economy. The 2008 financial crisis was only its most blatant and recent consequence. It is time to abandon these false doctrines and to get back to the American way of growth that brought us to world leadership; Prestowitz presents a deeply researched and powerful set of highly practical steps that we can begin implementing immediately to reverse course and restore our economic leadership and excellence. *The Betrayal of American Prosperity* is vital reading for all Americans concerned about the future of the economy and of our power in the coming era.

Lawrence of Arabia meets Sebastian Junger's *War* in this unique, incendiary, and dramatic true story of heroism and heartbreak in Afghanistan written by a Pulitzer Prize-nominated war correspondent. Army Special Forces Major Jim Gant changed the face of America's war effort

## Online Library American Betrayal

in Afghanistan. A decorated Green Beret who spent years in Afghanistan and Iraq training indigenous fighters, Gant argued for embedding autonomous units with tribes across Afghanistan to earn the Afghans' trust and transform them into a reliable ally with whom we could defeat the Taliban and counter al-Qaeda networks. The military's top brass, including General David Petraeus, commander of U.S. Forces in Afghanistan, approved, and Gant was tasked with implementing his controversial strategy. Veteran war correspondent Ann Scott Tyson first spoke with Gant when he was awarded the Silver Star in 2007. Tyson soon came to share Gant's vision, so she accompanied him to Afghanistan, risking her life to embed with the tribes and chronicle their experience. And then they fell in love. Illustrated with dozens of photographs, *American Spartan* is their remarkable story—one of the most riveting, emotional narratives of wartime ever published.

Espionage against the United States from the Cold War to the Present

Blown to Hell

A Novel

A German Fortress, a Treacherous American General, and the Battle to End World War I

Betrayal and Other Acts of Subversion

Patriotic Betrayal

Age of Betrayal

A history of Americans who spied against their country and what their stories reveal about national security What ' s your secret? *American Spies* presents the stunning histories of more than forty Americans who spied against their country during the

past six decades. Michael Sulick, former head of the CIA ' s clandestine service, illustrates through these stories—some familiar, others much less well known—the common threads in the spy cases and the evolution of American attitudes toward espionage since the onset of the Cold War. After highlighting the accounts of many who have spied for traditional adversaries such as Russian and Chinese intelligence services, Sulick shows how spy hunters today confront a far broader spectrum of threats not only from hostile states but also substate groups, including those conducting cyberespionage. Sulick reveals six fundamental elements of espionage in these stories: the motivations that drove them to spy; their access and the secrets they betrayed; their tradecraft, or the techniques of concealing their espionage; their exposure; their punishment; and, finally, the damage they inflicted on America ' s national security. The book is the sequel to Sulick ' s popular *Spying in America: Espionage from the Revolutionary War to the Dawn of the Cold War*. Together they serve as a basic introduction to understanding America ' s vulnerability to espionage, which has oscillated between peacetime complacency and wartime vigilance, and continues to be shaped by the inherent conflict between our nation ' s security needs and our commitment to the preservation of civil liberties. Now available in paperback, with a new preface that brings the conversation up to the present, *American Spies* is as insightful and relevant as ever.

Explores the motivations behind the French government's efforts to undermine

## Online Library American Betrayal

American policy toward Iraq, discussing France's support for Saddam Hussein and their secret oil contracts with Iraq worth billions of dollars. Reprint. 30,000 first printing.

The incredible story of denial, deceit, and deception that ultimately cost Navy pilot Captain Michael Scott Speicher his life is exposed in this military tell-all. Asserting that years of information has been intentionally kept from an American public, the book reveals that, contrary to reports, Speicher survived after he ejected from his stricken F/A-18 Hornet on the first night of the Persian Gulf War. Protected by a Bedouin tribal group, he evaded Saddam ' s capture for nearly four years. In that time he was repeatedly promised by an American intelligence asset that a deal for his repatriation would be worked out but it never was. Speicher was left behind. After Saddam Hussein captured him, Speicher spent the next eight years in a secret Baghdad prison and being moved around in secret to avoid an American task force looking for him, and before he was killed after the United States invaded Iraq in March 2003. Author Amy Waters Yarsinske, a former naval intelligence officer and a veteran investigator and author, presents her fascinating case after years of research.

Examines the formidable challenges facing the middle class, calling for fundamental changes while surveying the extent of the problem and identifying the people and agencies most responsible.

The Betrayal of America

*Argues that many Americans have lost their jobs because of the free-trade policies of the global economy*

*The first edition was the recipient of the Gustavus Myers Center for the Study of Human Rights Award as an outstanding work on intolerance and violation of basic rights. During the Great Depression, a sense of total despair plagued the United States. Americans sought a convenient scapegoat and found it in the Mexican community. Laws forbidding employment of Mexicans were accompanied by the hue and cry to "get rid of the Mexicans!" The hysteria led pandemic repatriation drives and one million Mexicans and their children were illegally shipped to Mexico. Despite their horrific treatment and traumatic experiences, the American born children never gave up hope of returning to the United States. Upon attaining legal age, they badgered their parents to let them return home. Repatriation survivors who came back worked diligently to get their lives back together. Due to their sense of shame, few of them ever*

*told their children about their tragic ordeal. 'Decade of Betrayal' recounts the injustice and suffering endured by the Mexican community during the 1930s. It focuses on the experiences of individuals forced to undergo the tragic ordeal of betrayal, deprivation, and adjustment. This revised edition also addresses the inclusion of the event in the educational curriculum, the issuance of a formal apology, and the question of fiscal remuneration.*

*A vivid, thrilling, and impeccably researched account of America's bloodiest battle ever—World War I's Meuse-Argonne Offensive—and the shocking American cover-up at its heart. The year is 1918. German engineers have fortified Montfaucon, an elevated fortress in northern France, with bunkers, tunnels, and a top-secret observatory capable of directing artillery shells across the battlefield. Following a number of unsuccessful attacks, the French have deemed Montfaucon impregnable. Capturing it is the key to success for General John J. Pershing's 1.2 million troops and his plan to end the war. But a betrayal of Americans by Americans results in a bloody debacle. In his masterful Betrayal at Little Gibraltar, William Walker tells the full story for the first time. After a delay in the assault on Montfaucon, thousands of Americans lost their lives while the Germans defended their position without mercy. Years of archival research show the actual cause of the delay was a senior American officer, Major General Robert E. Lee Bullard, who disobeyed orders to assist in the direct*

*assault on Montfaucon. The result was the unnecessary slaughter of American doughboys during the assault. Although several officers learned of the circumstances, Pershing protected Bullard—an old friend and fellow West Point graduate—by covering up the story. The true and full account of the battle that cost 122,000 American casualties was almost lost to time. A "military history for all libraries" (Library Journal), *Betrayal at Little Gibraltar* tells of the soldiers who fought to capture the giant fortress and push the American advance. Using unpublished first-person accounts—and featuring photographs, documents, and maps—Walker describes the horrors of combat, the sacrifices of the doughboys, and the determined efforts of two participants to solve the mystery of Montfaucon. This is compelling history, important to be told, an "as valuable account as Barbara Tuchman's *The Guns of August*" (Virginian-Pilot).*

*Author Diana West and a host of others - including authors M. Stanton Evans and Vladimir Bukovsky - defend her new book, "American Betrayal," against a wave of calumnious charges and vicious personal attacks.*

*American Betrayal*

*Cherokee Patriots and the Trail of Tears*

*An American Story of Betrayal and Revenge*

*The Betrayal of Japanese Americans During World War II*

### *The Great American Betrayal*

#### *Decade of Betrayal*

#### *The Rebuttal*

In *The Death of the Grown-Up*, Diana West diagnosed the demise of Western civilization by looking at its chief symptom: our inability to become adults who render judgments of right and wrong. In *American Betrayal*, West digs deeper to discover the root of this malaise and uncovers a body of lies that Americans have been led to regard as the near-sacred history of World War II and its Cold War aftermath. Part real-life thriller, part national tragedy, *American Betrayal* lights up the massive, Moscow-directed penetration of America's most hallowed halls of power, revealing not just the familiar struggle between Communism and the Free World, but the hidden war between those wishing to conceal the truth and those trying to expose the increasingly official web of lies. *American Betrayal* is America's lost history, a chronicle that pits Franklin Delano Roosevelt, Harry Truman, Dwight David Eisenhower, and other American

## Online Library American Betrayal

icons who shielded overlapping Communist conspiracies against the investigators, politicians, defectors, and others (including Senator Joseph McCarthy) who tried to tell the American people the truth. *American Betrayal* shatters the approved histories of an era that begins with FDR's first inauguration, when "happy days" are supposed to be here again, and ends when we "win" the Cold War. It is here, amid the rubble, where Diana West focuses on the World War II--Cold War deal with the devil in which America surrendered her principles in exchange for a series of Big Lies whose preservation soon became the basis of our leaders' own self-preservation. It was this moral surrender to deception and self-deception, West argues, that sent us down the long road to moral relativism, "political correctness," and other cultural ills that have left us unable to ask the hard questions: Does our silence on the crimes of Communism explain our silence on the totalitarianism of Islam? Is Uncle Sam once again betraying America? In *American Betrayal*, Diana West shakes the

## Online Library American Betrayal

historical record to bring down a new understanding of our past, our present, and how we have become a nation unable to know truth from lies.
