

American History Unit 2 Study Guide

It's the revolutionary world history study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace World History . . . kicks off with the Paleolithic Era and transports the reader to ancient civilizations—from Africa and beyond; the mid-Renaissance; the age of exploration and colonialism, revolutions, and the modern world and the wars and movements that shaped it. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit—borrowing the notes from the smartest kid in class. There are five books in the series, one book you need for each main subject taught in middle school: Math, Science, American History, English, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in marker colors. Definitions explained in simple language. Tricky concepts. Mnemonics for a memorable shortcut. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning educators. Everything You Need to Ace World History is the perfect next step for every kid who grew up on Brain Quest.

This Student Workbook contains all of the worksheets your student will need to learn about American history and the 50 states. It can be done independently and can be used with any state book. Your student will love the hands-on approach to studying about USA geography and history. This workbook is designed for use with any state book. About core subjects in an entertaining way. With a perfect mix of quality academic lessons and fun hands-on projects, this curriculum is sure to please both the teacher and the student. Throughout this unit study your student will enjoy making their very own USA States Book. "Designed for middle-school history curriculum, independent study, or tutorial aid, the American History Series provides challenging activities that enable students to explore history, geography, and social studies. Activities include critical thinking, writing, technology, and more. Videos, maps, and reading lists are also provided. Meets NCSS standards and is correlated to state, national and Canadian provincial standards." --Publisher.

Presents in one volume a history of the United States, with study questions, review sections, practice tests, reading skill exercises, and intermittent brief biographies.

Intersections: A Contemporary Student Primer on Race, Gender, and Class provides students with an illuminating and timely collection of articles pertaining to these key social issues in American history and contemporary culture. Students learn how to recognize the intersections of race, gender, and class, how to navigate these intersections in academic and personal pursuits, and how to serve as change agents for social justice. The anthology is divided into four units: theoretical foundations, historical perspectives, American culture, and contemporary moments. In Unit 1, students read selections that introduce Black feminist thought and shed light on income disparity. Unit 2 includes readings that examine labor and race relations in American history and culture. The articles in Unit 3 focus on American popular culture and competing standards of beauty. The final unit offers selections that explore the politics of constructions of womanhood, manhood, motherhood, and fatherhood through the lens of the Obama White House. Each reading is supported by pre-reading questions that inspire critical thinking and self-reflection, as well as post-reading questions that challenge deeper analysis concerning issues of power and empowerment. A diverse collection of current scholarship, Intersections is well suited for courses in history, politics, economics, sociology, gender studies, ethnic studies, and popular culture. Maureen Elgersman Lee is an associate professor of history at Hampton University. She earned a doctorate of arts in humanities with a concentration in African-American studies and a M.A. in African and African-American studies from Clark Atlanta University. "I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Teaching History in the Digital Age

In this course, which is the second part of a two-year study of U.S. History that begins in Grade 8, students will study the history of the United States since Reconstruction to the present. Historical content will focus on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies of the Cold War and post-Cold War eras, and reform movements including civil rights. Students will examine the impact of geographic factors on major events and analyze causes and effects of the Great Depression. Students will examine the impact of the constitutional issues on American society, evaluate the dynamic relationship of the three branches of the federal government, and analyze efforts to expand the democratic process. Students will describe the relationship between the arts and the times during which they were created. Students will analyze the impact of technological innovations on the American labor movement. Students will use critical-thinking skills to explain and apply different methods that historians use to interpret the past, including points of view and historical context.

In Government, the focus will be on principles and beliefs upon which the United States was founded and on the structure, functions, and powers of government at the national, state, and local levels. This course is the culmination of the civic and governmental content and concepts studied from kindergarten through required secondary courses. Students will learn major political ideas and forms of government in history. A significant focus of the course will be on the U.S. Constitution, its underlying principles and ideas, and the form of government it created. Students will analyze major concepts of republicanism, federalism, checks, and balances, separation of powers, popular sovereignty, and individual rights and will compare the U.S. system of government with other political systems. Students will identify the role of government in the U.S. free enterprise system and examine the strategic importance of places to the United States. Students will analyze the impact of individuals, political parties, interest groups and the media on the American political system, evaluate the importance of voluntary individual participation in a democratic society, and analyze the rights guaranteed by the U.S. Constitution. Students will identify examples of government policies that encourage scientific research and will use critical-thinking skills to create a project on a contemporary government issue.

The U.S. History course will lead students into a deeper understanding and appreciation of their country's post-Civil War history. The first unit is a refresher covering events from the European discovery of America until Reconstruction. Next, students will learn how industrialization and the railroads empowered the growth of America in late 19th century. Moving to the 20th century, students will explore the Progressive movement and America's emergence as a world power during World War I. Investigating the Great Depression and World War II will give students insight into their continuing influence on America today. Students will examine the Civil Rights movement, the Warren Court, and the impact of technology on the life of Americans. The course concludes with a survey of recent events under the George W. Bush and Barack Obama administrations.

This textbook provides a global historical perspective on varying themes from the 1400's - 1940's. It encompasses topics such as European rivalries in the Caribbean, revolutions in America and France as well as wars and racism that occurred throughout these 5 centuries.

This document is part of a series of units in United States history. It is designed for teachers to use in teaching colonial history and the American Revolution in greater depth than that provided in many textbooks. The unit contains 16 chapters, the first of which explains the unit's focus on four kinds of questions of interest to historians. These questions are: (1) contextual questions, (2) factual questions, (3) moral or value questions, and (4) questions of explanation. Chapters 2-4 look primarily at contextual questions, introducing students to the social, political, economic, and ideological settings of the Revolution. The central section of the unit, chapters 5-15, is concerned with both factual and moral or value questions. Students not only learn about the events that led up to the Revolution, they also compare conflicting accounts of these events. They learn a three-criterion test for determining whether specific acts of protest are justified and apply this test to a number of examples of colonial protest. A central activity in this portion of the unit is reenactment of the trial of the British soldiers involved in the Boston Massacre. Following this experience, students examine the similarities and differences between the Boston Massacre and the confrontation between Vietnam war protesters and a contingent of the National Guard at Kent State University 200 years later. Other major activities in this portion of the unit include analyzing the Declaration of Independence and debating whether the Revolution was justified. The final chapter invites students to act as historians, choosing among three schools of historical interpretation and writing essays detailing how the interpretation explains the Revolution's causes. (DK)

"Learn About the United States" is intended to help permanent residents gain a deeper understanding of U.S. history and government as they prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the history and government of the United States will make their journey toward citizenship a more meaningful one.

Self-Learning U.S. History & Geography with Creative Writing and Art: Workbook 2 is the second book in a 2-book 2-year self-learning curriculum, suitable for all school age children. Middle-schoolers and high-schoolers can work independently, while elementary students may work with assistance. Self-Learning U.S. History & Geography with Creative Writing and Art is used to help children explore not only the 50 states, but also to practice researching, creative writing, and art skills. Although the focus could be narrowed to only a single subject such as History or Geography, this workbook series could be a great Unit Study. The Self-Learning U.S. History & Geography with Creative Writing and Art workbooks comprise a study of the United States, as in-depth as you choose for it to be. Each workbook contains 36 weeks worth of instructions for a 5-day per week study. The instructions are provided, but the student does the research, thus increasing both the student's interest in the topic and the amount of information he or she retains. Students using the Self-Learning U.S. History & Geography with Creative Writing and Art workbooks will research, write, draw maps, and be encouraged to use their imagination and creativity. Use Self-Learning U.S. History & Geography with Creative Writing and Art to give your child the satisfaction, confidence, and joy of taking charge of their own education with self-learning. * This curriculum is not aligned to any state or national standards, as the author believes that education should be tailored to meet the needs of each individual child.
