In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with

Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS

WINNER • A deep and compassionate novel about a young man who returns to 1940s Cajun country to visit a black youth on death row for a crime he didn't commit. Together they come to understand the heroism of resisting. A “majestic, moving novel ... an instant classic, a book that will be read, discussed and taught beyond the rest of our lives” (Chicago Tribune), from the critically acclaimed author of *A Gathering of Old Men* and *The Autobiography of Miss Jane Pittman*.

A disruptive guide to help women reject societal double standards and succeed by showing up as their authentic, vulnerable, powerful selves. We've all heard of the “glass ceiling” for women. Yet even for women who break through the societal barriers to success, there's another danger: the glass ledge.

“When the very qualities that help us achieve

greatness turn into self-defeating behaviors, that's when we trip over the glass ledge," teaches Iman Oubou. "Yet we don't need to lose ourselves to become the ideal image of a hardworking, camera-ready woman. There is a better way to fulfill our dreams—one that allows us to be ourselves, on our own terms." With *The Glass Ledge*, Oubou offers a disruptive guide that explores the 10 most common themes around which women tend to derail themselves. Each chapter focuses on one of these self-sabotaging themes, incorporating counterintuitive and eye-opening information, as well as anecdotes from the author's personal journey, stories from other high-profile, successful women, and scientific research about why we act the way we do—and how to reclaim the story of our lives. While societal norms around gender dynamics have shifted, there's still a long way to go. "We don't have to wait for the culture to change for us," Oubou says. "Each of us has the power to change the beliefs and behaviors we don't want." *The Glass Ledge* is a practical and inspired call for any woman who wants to rewrite the narrative of success—and pay her efforts forward into the world.

accessible to businessmen of the time. When published in 1925, the book topped the nonfiction bestseller list, and was one of the best-selling non-fiction books of the 20th century. Since its publication, *The Man Nobody Knows* has divided readers. Some welcome the portrayal of Jesus as a strong character, whom no one dared oppose, and praise the use of familiar stereotypes to stimulate interest in religion, whilst others ridicule the suggestion that Jesus was a salesman. Critics have suggested that *The Man Nobody Knows* is a prime example of the materialism and "glorified Rotarianism" of the Protestant churches in the 1920s.

Out of Many is a coherent narrative of American history that offers insight into how diverse communities and different regions have shaped America's past. The text reveals the ethnic, geographical and economic diversity of the United States by examining the individual, the community and the state and placing a special focus on the country's regions, particularly the West. The updated edition features new and expanded coverage of a wide variety of topics in addition to MyHistoryLab tools that connect the text to interactive online learning tools to bring U.S. history to life.

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the

The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-

During the Paris Peace Conference of 1919, while key decisions were debated by the victorious Allied powers, a multitude of smaller nations and colonies held their breath, waiting to see how their fates would be decided. President Woodrow Wilson, in his Fourteen Points, had called for "a free, open-minded, and absolutely impartial adjustment of all colonial claims," giving equal weight would be given to the opinions of the colonized peoples and the colonial powers. Among those nations now paying close attention to Wilson's words and actions were the budding nationalist leaders of four disparate non-Western societies--Egypt, India, China, and Korea. That spring, Wilson's words would help ignite political upheavals in all four of these countries. This book is the first to place the 1919 Revolution in Egypt, the Rowlatt Satyagraha in India, the May Fourth movement in China, and the March First uprising in Korea in the context of a broader "Wilsonian moment" that

challenged the existing international order. Using primary source material from America, Europe, and Asia, historian Erez Manela tells the story of how emerging nationalist movements appropriated Wilsonian language and adapted it to their own local culture and politics as they launched into action on the international stage. The rapid disintegration of the Wilsonian promise left a legacy of disillusionment and facilitated the spread of revisionist ideologies and movements in these societies; future leaders of Third World liberation movements--Mao Zedong, Ho Chi Minh, and Jawaharlal Nehru, among others--were profoundly shaped by their experiences at the time. The importance of the Paris Peace Conference and Wilson's influence on international affairs far from the battlefields of Europe cannot be underestimated. Now, for the first time, we can clearly see just how the events played out at Versailles sparked a wave of nationalism that is still resonating globally today.
