

Amuse Journey

The Lord of the Rings trilogy has delighted millions of fans worldwide in book and movie form. With the theatrical release of the two-part film *The Hobbit* slated for 2012 and 2013, attention will once again turn to J. R. R. Tolkien's classic works. In a culture where truth is relative and morality is viewed as old-fashioned, we welcome the chance to view the world through hobbit eyes: we have free will, our choices matter, and living a morally heroic life is possible. In this engaging and thought-provoking book, Tolkien expert Matthew Dickerson shows how a Christian worldview and Christian themes undergird Tolkien's Middle-earth writings and how they are fundamentally important to understanding his vision. This revised and expanded edition of *Following Gandalf* includes new material on torture, social justice, and the importance of the body. First English translation of the chivalric biography of the foremost knight of the late Middle Ages.

The Road

“Not buying it, huh?” My mother acknowledged her assertion that the woman she pointed out at the rehab center as being her dead husband was a bit of a stretch. But this was the kind of conversation I had with Mom as her cognitive abilities declined and her psychosis fully bloomed. The true, heart-wrenching, and yet hilarious stories at the center of Dementia Sucks were borne of a journal and blog that author Tracey Lawrence kept as her mother transformed from classic Jewish mother, to mildly forgetful Floridian grandma, to geriatric delinquent removed by police for knife-play at a rehabilitation facility. Really. Tracey’s journey takes her from

being an established graphic artist in northern New Jersey through bouts of full-time, hands-on caregiving of both her aging parents. She discusses many of the common challenges families face, and provides a humorous and highly educational perspective on her emotionally charged ride through geriatric illnesses, doctors, hospitals, insurance, facilities, family dynamics, and much more. Anyone who has family members they care about will want to read this book. Whether dementia visits or not, some aspect of Tracey's caregiving journey will likely resonate with, amuse, and enlighten you. The trick to surviving loss after loss is to find the humor in it all and avoid punching anyone, least of all yourself. This irreverent look shows you the way. With wit, wisdom, and a sharp scalpel, Jack Hartnell dissects the medieval body and offers a remedy to our preconceptions. Just like us, medieval men and women worried about growing old, got blisters and indigestion, fell in love, and had children. And yet their lives were full of miraculous and richly metaphorical experiences radically

different from our own, unfolding in a world where deadly wounds might be healed overnight by divine intervention, or where the heart of a king, plucked from his corpse, could be held aloft as a powerful symbol of political rule. In this richly illustrated and unusual history, Jack Hartnell uncovers the fascinating ways in which people thought about, explored, and experienced their physical selves in the Middle Ages, from Constantinople to Cairo and Canterbury. Unfolding like a medieval pageant, and filled with saints, soldiers, caliphs, queens, monks and monstrous beasts, this book throws light on the medieval body from head to toe—revealing the surprisingly sophisticated medical knowledge of the time. Bringing together medicine, art, music, politics, philosophy, religion, and social history, Hartnell's work is an excellent guide to what life was really like for the men and women who lived and died in the Middle Ages. Perfumed and decorated with gold, fetishized or tortured, powerful even beyond death, these medieval bodies are not passive and buried away; they can still teach us what it means to be human.

A masterful work of personal reportage, this volume is also a vibrant portrait of a mysterious people and

an essential document of a disappearing culture. Fabled, feared, romanticized, and reviled, the Gypsies—or Roma—are among the least understood people on earth. Their culture remains largely obscure, but in Isabel Fonseca they have found an eloquent witness. In *Bury Me Standing*, alongside unforgettable portraits of individuals—the poet, the politician, the child prostitute—Fonseca offers sharp insights into the humor, language, wisdom, and taboos of the Roma. She traces their exodus out of India 1,000 years ago and their astonishing history of persecution: enslaved by the princes of medieval Romania; massacred by the Nazis; forcibly assimilated by the communist regimes; evicted from their settlements in Eastern Europe, and most recently, in Western Europe as well. Whether as handy scapegoats or figments of the romantic imagination, the Gypsies have always been with us—but never before have they been brought so vividly to life. Includes fifty black and white photos.

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the

road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

Travel Book: A Travel Guide of Hidden Gems That

Takes You on a Journey You Will Never Forget If

you're traveling the world - or if you just want to

travel the world from your armchair - this book will

enlighten and amuse you. It could add a few unusual

stops to your itinerary, as well. We suggest some intriguing natural sights, such as the perfectly conical Chocolate Hills, Indian pilgrimage mountains topped by temples, whole forests of identikit crooked trees, and volcanoes inside volcanoes. Perhaps festivals are more to your taste. Would you prefer the anarchic creativity of Burning Man, a Japanese cry-baby competition, or a massive food fight? We'll also tell you which major city still lets shepherds drive their flocks through the streets every autumn. If you've ever wondered where you can see the most human skulls in one place, we have a whole section on macabre sights that will answer that question and many more. A slightly different take on the impermanence of human life comes with industrial tourism, from abandoned whaling stations to massive salt mines. If you enjoy shopping on your travels, we have a whole section devoted to great markets and funfairs, including flea markets, souks, and even specialized markets where you can shop for Buddhist amulets. And we finish with a look at alternatives to the bucket list for travelers who want to avoid the crowds and explore somewhere a bit different. Plus, because the internet (as everyone knows) is made of cats, we have the purrfect section on cat islands, cat cafes, cat temples and even a whole city called Cat. Perhaps you're just too busy this year for that round-the-world trip. But this book could give you ideas ... and deliver a lot of fun facts

en route. This book will uncover hidden gems you never knew existed! It takes travelling to a whole new level!

"Fun, fanciful, and even informative." —People The first comprehensive history of felines—from the laps of pagan gods to present-day status as meme stars—as revealed by a very learned tabby with a knack for hunting down facts Since the dawn of civilization, felines have prowled

alongside mankind as they expanded their territory and spread the myth of human greatness. And today, cats are peddled on social media as silly creatures here to amuse humans with their antics. But this is an absurd, self-centered fantasy. The true history of felines is one of heroism, love, tragedy, sacrifice, and gravitas. Not entirely convinced? Well, get ready, because *Baba the Cat* is here to set the record straight. Spanning almost every continent and thousands—yes, thousands—of years, *Baba's* complex story of feline survival presents readers with a diverse cast of cats long forgotten: from her prehistoric feline ancestors and the ancient Egyptian cat goddess Bastet to the daring mariners at the height of oceanic discovery, key intellectuals in the Enlightenment period, revered heroes from World Wars I and II, and the infamous American tabbies. *Baba*, a talented model in addition to a scholar, goes beyond surface-level scratches, pairing her freshly unearthed research with a series of stunning costume portraits to bring history to life. A paws-on journey through the feline hall of fame, with in-depth research and four-legged testaments that will make you rethink who defines history, *A Cat's Tale* is a one-of-a-kind chronicle that introduces readers to the illustrious ancestors of their closest companions and shows, once and for all, that cats know exactly what they're doing.

The visual artist behind such cult films as *Hairspray* traces his haphazard cross-country hitchhiking journey at the sides of a motley group of unsuspecting drivers, including a gentle farmer, an indie band and the author's unexpected hero. 75,000 first printing.

Your trip is booked! This unique little book has a diverse mix of content: romantic and challenging poetry; unusual short stories, art analysis discussions and a broad range of articles, that should entertain and amuse travellers on their long and short journeys. A diverse collection of fiction and nonfiction literature from across the Arabic-speaking world. Cultural Journeys into the Arab World provides a fascinating window into Arab culture and society through the voices of its own writers and poets. Organized thematically, the anthology features more than fifty texts, including poems, essays, stories, novels, memoirs, eyewitness accounts, and life histories, by leading male and female authors from across the Arabic-speaking world. Each theme is explored in several genres, both fiction and nonfiction, and framed by a wealth of contextual information

that places the literary texts within the historical, political, cultural, and social background of the region. Spanning a century of Arab creative writing—from the “ dean of Arabic letters ” Taha Hussein to the Nobel laureate Naguib Mahfouz and the celebrated poet Adonis—the anthology offers unforgettable journeys into the rich and dynamic realm of Arab culture. Representing a wide range of settings, viewpoints, and socioeconomic backgrounds, the characters speak of their conditions, aspirations, struggles, and achievements living in complex societies marked by tensions arising from the persistence of older traditions and the impact of modernity. Their myriad voices paint a vivid and intimate portrait of contemporary Arab life in the Middle East, revealing the common humanity of a region of vital significance in world affairs.

New, superbly translated omnibus of five of Jules Verne's most renown stories. "One of the best storytellers who ever lived."--Arthur C. Clarke In one dazzling decade, French novelist Jules Verne took readers places they'd never gone before. . .the age of dinosaurs. . .the undersea realm of Atlantis. . .the craters and crevices of the moon. . .and a whirlwind aerial tour of the planet earth! Though he penned his unforgettable yarns in French, Verne plunked big parts of them down in America. And he himself possessed an American sassiness, nerve, and sense of humor, so Americans have returned the compliment: we've released dozens of Hollywood films based on his astonishing tales, and we've created the U.S.S. Nautilus, the NASA space missions, and other technological triumphs that have turned Verne's visions into practical reality. Here are Jules Verne's best-loved novels in one convenient omnibus volume, but with a huge difference. This book features new, accurate, accessible, and unabridged translations of these five visionary classics, translations that are complete down to the

smallest substantive detail, that showcase Verne's farseeing science with unprecedented clarity and accuracy, capture the wit, prankishness, and showbiz flamboyance of one of literature's leading humorists and satirists. This is a Verne almost completely unknown to Americans. . .yet a Verne who has an uncannily American mindset! So these heroes and happenings are part of our heritage: Phileas Fogg chugging across the wild, wild west. . .the impossible underground journey of Professor Lidenbrock. . . the deep-sea exploits of secretive Captain Nemo. . .and a moon shot so realistic, it inspired U.S. astronaut Frank Borman a full century later. Jules Verne was a science buff with a showbiz background, and finally these classic stories have a translator with the same orientation: Frederick Paul Walter is one of America's foremost Verne scholars. . . But he's also a scriptwriter, broadcaster, and part-time fossil hunter! Enriched with dozens of classic illustrations, *The Amazing Journeys of Jules Verne* will be a family favorite in every home library. Jules Verne was born in 1828 into a French lawyering family in the Atlantic coastal city of Nantes. Though his father sent him off to a Paris law school, young Jules had been writing on the side since his early teens, and his pet topics were the theater, travel, and science. Predictably enough, his legal studies led nowhere, so Verne took a day job with a stock brokerage, in his off hours penning scripts for farces and musical comedies while also publishing short stories and novelettes of scientific exploration and adventure. His big breakthrough came when he combined his theatrical knack with his scientific bent and in 1863 published an African adventure yarn, *Five Weeks in a Balloon*. After that and till his death in 1905, Jules Verne was one of the planet's best-loved and best-selling novelists, publishing over sixty books. In addition to the five visionary classics in this volume, other imaginative favorites by him include *The Mysterious Island*, *Hector Servadac*, the *Begum's*

Millions, Master of the World, and The Meteor Hunt. Verne ranks among the five most translated authors in history, along with Mark Twain and the Bible. Frederick Paul Walter is a scriptwriter, broadcaster, librarian, and amateur paleontologist. A Trustee of the North American Jules Verne Society, he served as its Vice President from 2000 to 2008. Walter has produced many media programs, articles, reviews, and papers on aspects of Jules Verne and has collaborated on translations and scholarly editions of three Verne novels: The Meteor Hunt, The Mighty Orinoco, and a special edition of 20,000 Leagues Under the Seas for the U.S. Naval Institute in Annapolis. Known to friends as Rick Walter, he lives in Albuquerque, New Mexico.
