*Do you have a book about angels for someone whos a complete beginner?" Doreen Virtue frequently hears this question at her workshops, and usually points them to her book Healing with the Angels. Yet, even that book is a bit advanced for newcomers. One morning she clearly saw and heard the title Angels 101, and Doreen knew that the angels wanted her to write a very basic and elementary book. Angels 101 is a nondenominational overview of who the angels are; their role in various spiritual texts and religions; the ways that angels help us and how to call upon them; information on guardian angels, archangels, and departed loved ones; and frequently asked questions about the angels. No matter where you are on a spiritual or religious path, this book is sure to deepen your understanding and love of the angels - and it makes the perfect gift for someone new to these concepts!*

Here is a new text that fulfills an emerging need in both higher and public education and stands to break new ground in addressing critical skills required of graduates. When working on their last book, It Works for Me, Creatively, the authors realized that the future belongs to the right-brained. While Daniel Pink and other visionaries may have oversimplified a bit, higher education is ripe for the creative campus, while secondary education is desperately seeking a complement to the growing assessment/teach-to-the-test mentality. You don't have to study the 2010 IBM survey of prominent American CEOs to know that the number one skill business wants is students who can think creatively. To meet the demand of new courses, programs, and curricula, the authors have developed a 200-page "textbook" suitable for secondary or higher education courses that are jumping on this bandwagon. Introduction to Applied Creative Thinking, as the title suggests, focuses not on just developing the skills necessary for creative thinking, but on having students apply those skills; after all, true creative thinking demands making something that is both novel and useful. Such a book may also be used successfully by professional developers in business and education. For this book, Hal Blythe and Charlie Sweet are joined in authorship by Rusty Carpenter. He not only directs Eastern Kentucky University's Noel Studio for Academic Creativity but has co-edited a book on that subject, Higher Education, Emerging Technologies, and Community Partnerships (2011) and the forthcoming Cases on Higher Education Spaces (2012). Introduction to Applied Creative Thinking is student-friendly. Every chapter is laced with exercises, assignments, summaries, and generative spaces. Deals with a broad range of children's psychic abilities in a thought-provoking and down to earth manner.

The joint ages of friends Joy Lennick and Jean Wilson may add up to one hundred and seventy one years, but there's nothing "old lace" about these two women writers; while the "arsenic" connection is questionable... Both adept at delving into the messy, murky world of murder, it is enlightening, and sometimes, a relief... to discover their added light, humorous touch.

This makes for a diverse selection of highly entertaining short stories to tickle the fancy of readers of a variety of genres. Jean Wilson worked as a Queen's Nurse in the 1950s, and soon earned the affectionate nickname 'The Angel of Aldgate' for her cheerful, hard work among the sick of the East End of London; and Joy Lennick wore a few hats before becoming an author in 1984; adding many writing projects to her long list, including five books.

*You know Dr. Christiane Northrup as the best-selling author of books such as Women’s Bodies, Women’s Wisdom and The Wisdom of Menopause—a beloved and trusted expert on everything that can go right with the female body. Now she brings her wisdom and insight to illuminate the mind, soul, and spirit as well. In this joyfully encouraging new book—as useful for men as it is for women—Dr. Northrup explores the essential truth that has guided her ever since medical school: our bodies, minds, and souls are profoundly intertwined. Making life flow with ease, and truly feeling your best, is about far more than physical health; it’s also about having a healthy emotional life and a robust spiritual life. When you view your physical well-being in isolation, life can become a constant battle to make your body “behave.” When you acknowledge the deep connection between your beliefs and your biology and start to tune in to the Divine part of yourself, it’s a whole new ballgame—and the first step in truly making your life easy. Take your well-being into your own hands as you learn to:*

- Untie the knots of blame and guilt that harm your health
- Use sexual energy consciously to increase vitality
- Balance your microbiome through healthy eating
- Cultivate a healthy ego that serves you (not vice versa)
- Communicate directly with the Divine
- And much more

*Drawing on fields from epigenetics to past-life regression to standard Western medicine, Dr. Northrup distills a brilliant career’s worth of wisdom into one comprehensive user’s guide to a healthy, happy, radiant life.*

*How to Hear Your Angels is a step-by-step manual on how to clearly receive messages from your angels and guides. The material was culled from Doreen Virtue's best-selling book Messages from Your Angels and from her workshops. Doreen has been assigning this reading material to her Angel Therapy Practitioner students for many years, and at their request has compiled the information in this handy book. Within these pages, you'll discover your communication 'style' so that you can more easily recognize the visions, words, thoughts, and feelings you receive as Divine guidance. The book is filled with charts to help you discern the difference between true Divine guidance and the voice of the ego, and it will help you engage in clear and understandable conversations with Heaven.*

*Sprinkled amid the basic topics of St. Thomas's thought-knowledge of God, the virtues, good and evil, and the soul—are overlooked aspects of his philosophy such as angels, the emotions, the Old Law, and the resurrection. In Aquinas 101, Reverend Francis Selman highlights both the standard and neglected themes from one of the Catholic Church's greatest minds. The result is an engaging, readable, and immensely useful introduction to St. Thomas Aquinas that provides a broad overview for novices and fresh material for Aquinas scholars. Book jacket.*

When Doreen Virtue visited Santorini Island in Greece recently, she was contacted by a powerful group of angels calling themselves the "angels of Atlantis." Doreen was then taken on an amazing spiritual adventure, where she uncovered the ancient secrets of the healing temples of the healing temples of the lost civilizations of Atlantis. Doreen found that her previous healing work with the angels, as well as the thousands of case studies of angelic healing that she ' d amassed over the years, dovetailed perfectly with the messages from the angels of Atlantis. Part spiritual adventure story and part reference book, Angel Medicine is a three-part work that relates the exciting story of Doreen ' s recovery of memories of Atlantean healing methods along with messages from the Egyptian and Greek prophet and deity Hermes and the angels. The second and third parts of the book reveal the scientific studies, case studies, methods, and charts supporting the importance of love and light in healing. Because Scientology is not exactly a mainstream religion, there are conflicting impressions about it. In some cultures, Scientology is classified as religion, while others believe it to be a cult. Still, some groups see it as a commercial enterprise, while others claim it's a non-profit organization. This just proves that most people don't fully understand Scientology. However, the believers and followers of Scientology - including many famous celebrities such as Tom Cruise, John Travolta, Kelly Preston and Kirstie Alley, just to name a few - claim it to be a religion following the intent and of the original founder. This book was written for those who want to learn what the Church of Scientology represents, and the basic principles and beliefs of Scientology. I intend to help clarify any incorrect perceptions while revealing what Scientology is really all about. Continue reading to discover the reason behind this oft-misjudged practice once and for all.

"Northrup explores [what she feels is] the essential truth that has guided her ever since medical school: our bodies, minds, and souls are profoundly intertwined. Making life flow with ease, and truly feeling your best, is about far more than physical health; it's also about having a healthy emotional life and a robust spiritual life. The life force, also known as " spirit, " is the essence of being and the conscious and most important form of energy. Living energy is personal and within our conscious control, and by learning about it, we can use it to transform our life into vibrant and meaningful expressions of who we really are. Consciousness is purely energetic and therefore difficult to quantify in mechanistic terms. It is the characteristic of living energy and is the foundation of awareness. Consciousness is the thread running through all life. Living Energy is an introduction to the process of mystic spirituality. The reader is encouraged to attain a deep and meaningful connection to the divine with expanded awareness. The principles given in this book are equally relevant to the novice and the advanced practitioner. Robert explains how we may reveal our hidden potential by shifting our perception away from what is customary and comfortable to open the doors to greater spiritual awareness.

For ages 3 to 5 years. With the city blanketed in a deep snow, Ryan's dad is worried about how he will get to work. However, four year old, Ryan, knows just what to do. In this book we look at the history of the South African Nuclear Weapons Program, long denied but always winked about, an open secret to many although the details were always vague with rumours of Israeli assistance in designing the bombs. In fact, the Israeli input was negligible as the South African nuclear weapons worked in an entirely unique way, yielding about what the Hiroshima bomb did and considered "sufficient" as a deterrent against a Soviet Union originated and supported conventional attack. This attack almost came to be in 1988 - 1989 via Angola into what was then South West Africa and today Namibia. Masses of conventional forces were gathered, and plans were made - in history the same as the attack on South Vietnam by North Vietnamese Forces the decade before. History always repeats itself. A brilliant South African "Maskirovka" from the Chief of Staff in Pretoria stopped the planned invasion as well as the very public mobilising order of 400,000 men from the Army Reserves.South Africa also had the means to deliver nuclear bombs accurately, all discussed in this book and may even have done so, although, we don't know. It is one of the big "ifs" in history. As said, the invasion never took place and in no small way due to the Battle of Cuito Cuanavale which is often written about in GMJ Books. It was the largest tank battle in Africa since the Second World War and South African Forces won hands down.It is beyond maddening to the author that no Western "Expert" today knows that in 1978, South Africa produced working nuclear weapons. They either don't know, forgot history, or are incompetent, or more probably, both.Just before Mr. Mandela took office as the newly democratically elected president, the atomic devices were handed over to the US Government for dismantling. That act was until now the only time in the world where a country willingly got rid of its nuclear arsenal. Everyone applauded. Yet, the means to manufacture such weapons did not disappear with the weapons, something no one in the West realises. If a place like Iran wants a nuclear weapon, they merely need to ask the South Africans that have the know-how and proven capability to produce them in record time. It is old technology. In Code Name Angel we deal with nuclear weapons and the risk of such weapons in the hands of terrorists using them against the West. You should not doubt that terrorists will use nuclear devices if they have them - they stated their intentions to do so many times in the past. The normal rules of MAD, retaliation, do not apply to them. There is no reason to doubt that they would flatten a Western city if given the opportunity and such opportunities can be created easily enough as this book explains. Description: Spymaster extraordinaire, Angelique Dawson and her team must recover lost or roguery manufactured South African nukes on their way to Iran or Al-Qaeda or both for all we know. The warheads are escorted by Zimbabwean Intelligence operatives in cahoots with Iranian Intelligence. This was one of the first major Egg Breaker operations that never made the newspapers and took place mostly in southern Mozambique, the chosen exfiltration point for the weapons. Major Geoffrey Foxtrot, under command of his handler, Angelique Dawson, later his wife and soul, tracks the weapons down in a combined operation with Mossad Agents but that is only the first step. Disarming the devices is another story as Angelique insists on doing so herself, plus the Zimbabweans are also around to prevent the bombs from being intercepted in the first place. A clash between the two groups is unavoidable. If you wish to read about Covert and Special Forces Operations in sub-Saharan Africa, the GMJ Books are the place to start. You will learn about covert operations, Special Forces techniques, and military history not known outside the select few. Code Name Angel is the 7th book of the popular GMJ Series.

Guide to Working and Healing with Divinities and Deities. Archangels and Ascended Masters is a thoroughly researched book in a lively encyclopedia format, listing 77 divinities from Greek, Roman, Egyptian, Asian, Babylonian, Tibetan, Buddhist, Celtic, Theosophical, New Age, Catholic, Cabalistic, Jewish, and Christian roots. Doreen Virtue carefully studied and wrote about the history of each of the deities, what role they serve today, how they can help us with specific life problems, and how to call upon each one. Doreen spent time in communication with each divinity to ensure that the being was reachable, and to discover the essence of his or her personality and current dealings with the world - and within these pages, she includes a channeled message or impression from each of the ascended masters and archangels. Many of her channelings were conducted at power points throughout the world, such as Stonehenge in England; the Irish coast; Kona, Hawaii; and the New Zealand rain forest. A comprehensive chart lists a number of life situations such as Addictions, Finding a Soulmate, Emergency Money, Healing Physical Illness, and various personal and family concerns. Beneath each topic is a list of whom to call upon when dealing with that particular challenge. Doreen also includes prayers to help you call upon multiple divinities for specific issues such as "increased clairvoyance" and "resolving conflict."

The angels, including Archangel Michael, provide healing words that will help you to understand some of life's mysteries, heal from emotional and physical pain, and make crucial life decisions. Each of the 10 chapters in this book by Doreen Virtue features a message from Heaven to help you to understand what's going on in your life, and to support you, and help you to feel safe, secure, peaceful, and happy. The angels wish to hold your hand and help you over the hurdles that have kept you from realizing your dreams--until now!

A Little Book of Western Verse

Properly, while I endeavor to expound the principles of Christian social justice, I shall also endeavor to show you how these principles can be applied. And just as properly, it will be my hope to bestir you to action-Christian action, American action-for faith without good works is dead. Thus, at the outset, while I am deeply grateful to everyone of you for, the heroic sacrifices you have made, and in this independent chain of radio stations, may I ask you for one more favor today-the favor of a prayer to the Holy Ghost. I beseech all of you to ask the spirit of understanding to fill me with prudence; and the spirit of fortitude to give me strength and courage to carry on the battle against the hidden powers of darkness-perhaps not quite so hidden today as yesterday. May I also suggest that ignorant of the causes of poverty, wretchedness and exploitation-may I suggest that you ask these innocent children to whisper a prayer for one who fully recognizes how unworthy he is but who fully realizes what a golden opportunity God has given to him to be an instrument for good. You are anxious to know what topics I shall discuss during the insuing year. Roundly speaking, it is my hope that you will be concerned chiefly with Christian social justice. While my ultimate objective is to help more and more men to save their immortal souls, I recognize how difficult it is for man to practice Christian virtue, to live a holy life in peace and contentment, when he and a great group of his fellowmen are denied unjustly an equitable share in the goods and wealth of this world-goods and wealth which our Lord has provided for us. I am concerned for you upon all men for all men to use and enjoy-goods and wealth, which, alas, have been concentrated in the hands of a few to the detriment of the many because an un-Christian species of social injustice was foisted upon us in the past few centuries and because, as a result of this, an alien philosophy of social injustice, under the name either of Communism or Naziism, is endeavoring to win our allegiance. I am concerned for you in that social justice challenges these several systems for the attention and the support, in this instance, of the American public-a public composed of persons who, despite their many faults and shortcomings, will never surrender the heritage of Bethlehem, of Pilate's hall, of Calvary Hill or of the Easter morning sepulchre from whose empty depths there echo and re-echo the immortal words, HI am the light of the world. I am concerned for you with these precious heritages it is our hope to carry on a campaign of instruction and inspiration even though we find ourselves opposed by the rugged individualists on the right and by the unchristly radicals on the left. It is our hope to convert a zealous band of followers into a group of active Christians-. Christians who, by the sincerity of their lives and the logic of their doctrines shall win men to Christ. There is no way other than Christ's way for saving America and restoring prosperity and peace for all. My friends, at the outset, permit me to clarify the fundamental doctrine of Christian social justice-the doctrine that differentiates it from every other plan of life proposed for man to follow. It is this: Christ came on earth not only to redeem and save individuals but also to establish an absolute and permanent order of society in His own time: aware of the universal slavery practiced virtually by every nation; and conscious of the spiritual darkness which had encompassed every kingdom, empire, republic and tribe, our Saviour well understood that man, left to his natural abilities, was unable to acquire peace and prosperity in this world and save his immortal soul in the hereafter. Where Angels & Devils Tread

How the Divine Inside Can Heal Your Body and Your Life

*Douglas Connelly examines what the Bible says about angels, focusing on their ministry among God's people from ancient days to the present.*

*Based on the Gospel of Matthew, this book is the first of five in the series. The only reason Luke is even at the church youth overnight event is because his mother convinced him to go after an argument. His mother wants him to be baptized but, at 15, Luke doesn't believe he is old enough and doesn't know Jesus well enough. That changes when Luke meets an angel who says he has been chosen by God to deliver a message. First Luke must decide if what he saw and heard is real and then he must decide if he will go. Luke sets out on what he is sure is a crazy adventure with his friend Keith. Starting on bicycles they end up crossing half the United States on a mission for God. Along the way, they learn much more about loving Jesus while facing bullies, drugs and even seeing death - - and Luke delivers God's message. He delivers it to a senior pastor of a large church and the pastor doesn't even know he needs the message.*

*Legions of loving and trustworthy archangels watch over us, and you can develop an even closer relationship with them by learning their names and specialties. In this uplifting nondenominational book, Doreen Virtue guides you in connecting with her 15 favorite archangels; and you'll read true stories from people who received protection, miraculous healings, and amazing guidance from these beloved heavenly beings. Archangels want to help each and every one of you live healthier and happier lives. As unlimited beings, archangels can assist everyone simultaneously, and this fascinating book will teach you which archangels to call upon for various situations. Whether you're new to working with angels, or someone who has believed in angels all your life, you'll want to refer to Archangels 101 again and again.*

*Never before had they known such hope. In a world drenched in violence and oppression, here was a man armed with a message of peace and freedom. Into lives nearly overwhelmed by grief and sorrow, he brought compassion and healing and the deepest joy. To people who felt like outcasts and aliens, he showed the way home. And then, in one devastating night, all their hopes collapsed. This is where our story begins—in the valley of despair. It is a tale of two friends, a stranger, and a search for truth in a world gone mad with doubt. Historian Joseph Loconte unlocks the meaning of their exchange, set in the chaotic days following the execution of Jesus of Nazareth. Drawing from literature, film, philosophy, history, and politics, Loconte shows how this biblical drama is an integral part of our own story. Sooner or later, we will find ourselves among the searchers.*
