*national politics. Drawing on a wide range of methodological approaches from queer theory, film theory, ethical philosophy and psychoanalysis, this volume sheds light on the way the Greek Weird Wave challenges, deconstructs and re-imagines traditional notions of Greekness, the Greek nation and the Greek patriarchal family. This is achieved through close textual analysis of the subversive thematics and idiosyncratic forms of six films made by some of the best-known and most celebrated contemporary Greek directors including Dogtooth (2009) and*

*Fashion | Sense is designed to explode "fashion," and with it, the stigma in philosophy against fashion's superficiality. Fashion appears to be altogether differently occupied, disingenuous and insubstantial, even sophistic in its pretense to peddle surfaces as if they were something deep. But is fashion's apparent beguilement more philosophical than it seems? And is philosophy's longing for exposed depth*

## Read Book Another Antigone

*concealing fashion in its anti-fashion stance? Using primarily ancient Greek texts, peppered with allusions to their echoes across the history of philosophy and contemporary fashion and pop culture, Gwenda-lin Grewal not only examines the rift between fashion and philosophy, but also challenges the claim that fashion is modern. Indeed, fashion's quarrel with philosophy may be at least as ancient as that infamous quarrel between philosophy and poetry alluded to in Plato's Republic. And the quest for fashion's origins, as if a quest for a neutrally-outfitted*

The dramatic trilogy has been flourishing for some time now in new works and revivals of older works by American, British, and European playwrights. This book analyzes recent American works by Caucasian, African American, Asian American, and Hispanic American men and women. There are five chapters beginning with *Opposing Families* (trilogies of, e.g., Lanford Wilson, Foote, Machado, and McCraney are examined). Carson, Rabe, and McLaughlin are among those in the *Classical Reimaginings* chapter while

Coen, Berc, and Wolfe constitute the Medieval Reimaginings chapter. Van Itallie, Havis, Rapp, and Hwang, among others, create New Forms. LaBute, Fierstein, and Nelson, among others, create New Selves. The concluding chapter is devoted to Ruhl ' s Passion Play, which spans 400 years of theatre-creating from Elizabethan England to Hitler ' s Germany to the Reagan era in America.

A new perspective on the principal developments in translation practice and theory in Germany during the Age of Goethe with emphasis on the work of Goethe, H ö lderlin, and Kleist as translators.

The first two chapters of this book isolate and describe the literary phenomenon of the Sophoclean tragic hero. In all but one

## Read Book Another Antigone

of the extant Sophoclean dramas, a heroic figure who is compounded of the same literary elements faced a situation which is essentially the same. The demonstration of this recurrent pattern is made not through character-analysis, but through a close examination of the language employed by both the hero and those with whom he contends. The two chapters attempt to present what might, with a slight exaggeration, be called the "formula" of Sophoclean tragedy. A great artist may repeat a structural pattern but he never really repeats himself. In the remaining four chapters, a close analysis of three plays, the Antigone, Philoctetes, and Oedipus at Colonus, emphasizes the individuality and variety of the living figures Sophocles created on the same basic armature. This approach to

## Read Book Another Antigone

Sophoclean drama is (as in the author's previous work on the subject) both historical and critical; the universal and therefore contemporary appeal of the plays is to be found not by slighting or dismissing their historical context, but by an attempt to understand it all in its complexity. "The play needs to be seen as what it was, to be understood as what it is."

A study in the dramatic methods of Sophocles, especially in the revelation of character, as the primary essence of Sophocles' art.

desire to know more about the ancient world. With a chapter on each of the three major Greek tragedians (Aeschylus, Sophocles, and Euripides), McDonald provides a balance of textual analysis, practical knowledge of the theatre, and an experienced look at the difficulties and accomplishments of theatrical performances. She shows how ancient Greek tragedy, long a part of the standard repertoire of theatre companies throughout the world, remains fresh and alive for contemporary audiences. Criminal justice is centrally concerned with what people

scholarship that has largely dismissed the democratic civic assembly--the *ekklēsia*--as an institution that retained real authority in the first century CE. Using an interdisciplinary approach, she examines a range of classical and early imperial sources to demonstrate that *ekklēsia* democracy continued to saturate the eastern Roman Empire, widely impacting debates over authority, gender, and speech. In the first letter to the Corinthians, she demonstrates that Paul's

persuasive rhetoric is itself shaped and constrained by the democratic discourse he shares with his Corinthian audience. Miller argues that these first-century Corinthians understood their community as an authoritative democratic assembly in which leadership and "citizenship" cohered with the public speech and discernment open to each. This Corinthian identity illuminates struggles and debates throughout the letter, including those centered on leadership,

## Read Book Another Antigone

community dynamics, and gender. Ultimately, Miller's study offers new insights into the tensions that inform Paul's letter. In turn, these insights have critical implications for the dialogue between early Judaism and Hellenism, the study of ancient politics and early Christianity, and the place of gender in ancient political discourse. How adoption and its literary representations shed new light on notions of value, origins, and identity

professor, a passionate ex-actress, who finds herself entangled with every aspect of the play—including the playwright. (1 man, 1 woman.)

A radically new way of thinking about form and context in literature, politics, and beyond *Forms* offers a powerful new answer to one of the most pressing problems facing literary, critical, and cultural studies today—how to connect form to political, social, and historical context. Caroline Levine argues that forms organize not only works of art but also political life—and our attempts to know both art and politics.

Inescapable and frequently troubling, forms shape every aspect of our experience. Yet, forms don't impose their order in any simple way.

## Read Book Another Antigone

Multiple shapes, patterns, and arrangements, overlapping and colliding, generate complex and unpredictable social landscapes that challenge and unsettle conventional analytic models in literary and cultural studies. Borrowing the concept of "affordances" from design theory, this book investigates the specific ways that four major forms—wholes, rhythms, hierarchies, and networks—have structured culture, politics, and scholarly knowledge across periods, and it proposes exciting new ways of linking formalism to historicism and literature to politics. Levine rereads both formalist and antiformalist theorists, including Cleanth Brooks, Michel Foucault, Jacques Rancière,

Mary Poovey, and Judith Butler, and she offers engaging accounts of a wide range of objects, from medieval convents and modern theme parks to Sophocles's *Antigone* and the television series *The Wire*. The result is a radically new way of thinking about form for the next generation and essential reading for scholars and students across the humanities who must wrestle with the problem of form and context.

*Greek Tragic Women on Shakespearean Stages* argues that ancient Greek plays exerted a powerful and uncharted influence on early modern England's dramatic landscape. Drawing on original research to challenge longstanding assumptions about Greek texts'

## Read Book Another Antigone

invisibility, the book shows not only that the plays were more prominent than we have believed, but that early modern readers and audiences responded powerfully to specific plays and themes. The Greek plays most popular in the period were not male-centered dramas such as Sophocles' Oedipus, but tragedies by Euripides that focused on raging bereaved mothers and sacrificial virgin daughters, especially Hecuba and Iphigenia. Because tragedy was firmly linked with its Greek origin in the period's writings, these iconic female figures acquired a privileged status as synecdoches for the tragic theater and its ability to conjure sympathetic emotions in audiences. When Hamlet reflects on the moving power of tragic

## Read Book Another Antigone

performance, he turns to the most prominent of these figures: 'What's Hecuba to him, or he to Hecuba/ That he should weep for her?' Through readings of plays by Shakespeare and his contemporary dramatists, this book argues that newly visible Greek plays, identified with the origins of theatrical performance and represented by passionate female figures, challenged early modern writers to reimagine the affective possibilities of tragedy, comedy, and the emerging genre of tragicomedy. The historiography of African religions and religions in Africa presents a remarkable shift from the study of 'Africa as Object' to 'Africa as Subject', thus translating the subject from obscurity into the global
