Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build an emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygand's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market.

The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygand Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

"Management Accounting, Workbook 1 – Balance Sheet | Profit/Loss Account" is based on the textbook "Management Accounting," and is designed for supplementing the textbook "Management Accounting". The textbook "Management Accounting," describes in detail the Big Picture – the central overall connection in accounting/controllers – as well as the elements which affect this connection: Balance Sheet | Profit/Loss Account | Finance Plan | Budgeted Balance Sheet. The "Workbook 1 – Balance Sheet | Profit/Loss Account" is based on the textbook "Management Accounting," and presents and explains in detail – in form of numerical examples – the effects of concrete accounting activities and business cases in and on balance sheet and profit/loss account. Target groups of "Management Accounting, Workbook 1 – Balance Sheet | Profit/Loss Account" are students of economic/business courses in the framework of their basic education or in the framework of their introductory courses, students doing post-graduate programmes, as well as managers in enterprises with practical experience – all of them facing the challenge of having to understand and to apply the basic connections of accounting in enterprises – presented in and through balance sheet and profit/loss account. "Management Accounting, Workbook 1 – Balance Sheet | Profit/Loss Account" is supplemented and continued by "Management Accounting, Workbook 2 – Profit Plan | Finance Plan | Budgeted Balance Sheet".

An accounting study guide with questions, and answers is a helpful tool for anyone that is taking an accounting class. An accounting course book covers topics extensively. With the study guide the person can take the quizzes, and check their answers. The study guide shows which answer is correct. Some study guide books will explain why the other answers is close, but not correct. Once the person takes the quiz on a specific topic. They will find out where their weakness is, and what areas they have to study. The book will help them prepare for class exams, and any professional exams they may take.
