The accounting cycle is best learned by doing. Thus, the goal of this accounting simulation is to provide the student with a hands-on approach to learning the accounting cycle--from analyzing and journalizing transactions and events to financial statement preparation and end-of-period closing. If completed manually, this simulation may take 10 - 14 hours to complete. Alternatively, the student may use computerized accounting packages such as Simply Accounting by Sage, QuickBooks®, MYOB®, etc.

• Strictly as per the Term-II syllabus for Board 2022 Exams(March-April) • Includes Questions of the both -Objective & Subjective Types Questions • Objective Questions based on new typologies introduced by the board- I. The Sales and Use Tax Answer Book is the key reference source for which practitioners have been searching. Not only is it comprehensive and clear; it also provides extensive citation to important case and statutory law. Forty-five states and the District of Columbia impose a sales tax on the retail sale of tangible personal property and selected services. In addition, there are 7,500 cities, municipalities, towns, school districts, counties, and other special taxing districts that levy sales and use taxes. The varying rates, the changing jurisdictional boundaries, the different tax bases, and the often inconsistent and contradictory interpretations of similarly worded statutes are all covered. The book also includes a chapter on sales tax reforms, particularly the Streamlined Sales Tax Project.

This book teaches students how to use accounting software that is available on the Web: QuickBooks for the Web. Step-by-step instructions show students how to apply accounting concepts to real-world situations.
