Legislative Document

This book provides a critical evaluation of the statutory framework for co-ownership regulations in Turkish law and it acquaints Turkish jurists with the existence of trust of land in English law. It is posited upon the argument that solutions to the problems observed in the administration and enjoyment of co-owned properties in Turkish Law may be overcome by the introduction of a new institution, which is inspired by the trust mechanism in English law. This renders the existing Turkish regulation for the management of the co-owned properties outdated, unreasonably complex, and extremely artificial with some assumptions. After successfully establishing that the Turkish system is currently inadequate to provide an efficient system, this book provides the indications for a solution. Being aware of the limitations of the Turkish legal system and the restricted possibility of the direct reception of trust, this book examines to what extent the current institutions in Turkish law would replace the functions of trust in the context of co-ownership. This examination results in searching for a new system as it is concluded that any of the trust-like devices in the current Turkish law could not effectively and comprehensively serve the purposes that the English trust does. Therefore, this book suggests that a new mechanism, inspired by the English trust of land, would provide the required mechanisms for an efficient managerial system for co-owned properties. Rather than asserting to solely focus on a comprehensive new system, this book discusses the possible solutions and urges further research about the matter. Hence, the so-called alien system, trust of land, and its capability to provide an alternative but efficient and productive solution to the managerial problems of the co-owned properties, would be made familiar with the Turkish jurists.

Through Homelessness Prevention in Treatment of Substance Abuse and Mental Illness: Logic Models and Implementation of Eight American Projects, psychiatrist, psychologists, and social workers will discover the results of eight, three-year long development projects funded by the Substance Abuse and Mental Health Services Administration (SAMHSA) designed to prevent homelessness in high- risk populations who have problems with alcoholism, drug abuse, and/or mental illness. Through this informative book, you will examine the theory or logic guiding each program, including an up-to-date review of the literature supporting each theory. You will also find a description of the implementation of the program as well as its history, the practical issues involved in delivering services, the pitfalls, lessons learned, and recommendations for the future so you can use the best ideas to implement in your own community and stop these individuals from reaching the streets. Homelessness Prevention in Treatment of Substance Abuse and Mental Illness provides insight into how to deal with many common issues that you are faced with every day, such as matching clients to appropriate services, preventing relapse, case management, training in independent living skills and money management, acquiring and maintaining housing, and benefits and employment for your disadvantaged clients. Compelling and informative, this unique book provides you with many tips and suggestions on how you can help the disadvantaged in our population avoid the added trauma of becoming homeless, such as: examining a new modified therapeutic community (TC) intervention program for mothers recovering from substance abuse who live with their children so you can learn to treat the family as a whole and not just treat the person with a "problem" gaining insight into a new intervention program for families caring for another family member with serious mental illness or substance abuse disorders so you can address such issues as the importance of respite for the family and home visits for relationship building among the entire household discovering a new, independent living model which allows clients with serious mental illnesses to select their own apartments learning about a new program in Philadelphia that offers support services to clients with serious mental illnesses and substance use disorders and provides several levels of housing from emergency shelter to highly supportive permanent housing discovering a community counseling center in Chicago that operates a "bank" that helps mentally ill clients or those with substance use disorders develop skills to independently manage their financial affairs through the use of "vouchers" that can be redeemed for cash for the payment of monthly bills Homelessness Prevention in Treatment of Substance Abuse and Mental Illness provides you with new insights into how you can help your clients overcome political, economic, and environmental barriers to treatment that can lead to homelessness. This essential book will help you improve your services to your clients as well as give you step-by-step guide to implement these new programs in your community.

Risk Analysis Based on Data and Crisis Response Beyond Knowledge

This book collects the papers presented at the 7th International Conference on Risk Analysis and Crisis Response (RACR-2019) held in Athens, Greece, on October 15-19, 2019. The overall theme of the seventh international conference on risk analysis and crisis response is Risk Analysis Based on Data and Crisis Response Beyond Knowledge, highlighting science and technology to improve risk analysis capabilities and to optimize crisis response strategy. This book contains primarily research articles of risk issues. Underlying topics include natural hazards and major (chemical) accidents prevention, disaster risk reduction and society resilience, information and communication technologies safety and cybersecurity, modern trends in crisis management, energy and resources security, critical infrastructure, nanotechnology safety and others. All topics include aspects of multidisciplinary and complexity of safety in education and research. The book should be valuable to professors, engineers, officials, businessmen and graduate students in risk analysis and risk management.

The fourth edition of Fire Officer: Principles and Practice was significantly updated and reorganized to better serve the Fire Officer I and Fire Officer II. The content meets and exceeds the job performance requirements for Fire Officer I and II in the 2020 Edition of NFPA 1021, Standard for Fire Officer Professional Qualifications. The new edition places an emphasis on the application of leadership traits and management theories, common leadership and management challenges, and how leadership is used to meet objectives. The basic principles and methods of Community Risk Reduction are also discussed. In addition, the program now has two distinct sections: Section One includes eight chapters, which set the foundation for Fire Officer I knowledge and understanding.

Section Two comprises six chapters, which encompass the higher level competencies required for Fire Officer II. This new organization will allow you the flexibility to teach your Fire Officer I and II course(s) exactly the way you wish.

This Country Profile on Uzbekistan's housing and land management sectors, prepared at the request of the Government of Uzbekistan, is the 18th in the series. The Country Profile programme continues to focus on specific challenges or achievements in the housing and land management sectors that are particularly relevant to the country under review. In the case of Uzbekistan, these issues include housing policies and Government support measures for the construction of housing in rural areas; increased demand for housing of the fast-growing population; and depleted urban infrastructure inherited from the Soviet times.

This book includes empirical and theoretical research concerned with all aspects of end user computing including development, utilization, and management and covering Web-based end user computing tools and technologies, end user computing software and trends, and end user characteristics and learning.
