*Social TV***How Marketers Can Reach and Engage Audiences by Connecting Television to the Web, Social Media, and Mobile****John Wiley & Sons**

This valuable handbook covers the relations between writer/publisher and publisher/public, including the latest approaches to clearing text for libel, privacy, and related legal exposure, contracts, negotiating royalties, advances, options, writer's warranty, subsidiary rights splits; intellectual property issues, including electronic publishing and software, trademark and copyright law, filing procedures; antitrust issues; with expert analysis on numerous other topics. By Mark A. Fischer, E. Gabriel Perle and John Taylor Williams. Perle, Williams and Fischer on Publishing Law, Fourth Edition describes contract and problem issues commonly encountered in negotiating royalties, advances, options, writer's warranty, subsidiary rights splits, and much more. You'll also find intellectual property issues as they affect publishing, including electronic publishing and software, trademark and copyright law, filing procedures, antitrust issues, and more, including: Extensive coverage of copyright issues including fair use, duration and ownership. International considerations in publishing including coverage of conventions and treaties. The authors also look at international issues involved in contract drafting. Complete coverage of moral rights, what they are and how they are treated both domestically and internationally. An overview of how antitrust laws in the US impact publishing rights. Publishing contracts are examined in depth. Given that the publishing landscape now includes eBooks, periodicals, traditional print and multimedia considerations, drafting an effective contract has become even more important. The authors explore this topic in great detail. And much more.

This remarkable volume shows you what is available on the world's largest network and how to access the information immediately. The Internet Yellow Pages, with its unique "phone book" design and easy-to-reference alphabetical format, transcends area codes to provide up-to-date information for Internet users around the globe.

For any digital TV developer or manager, the maze of standards and specifications related to MHP and OCAP is daunting—you have to patch together pieces from several standards to gather all the necessary knowledge you need to compete worldwide. The standards themselves can be confusing, and contain many inconsistencies and missing pieces. Interactive TV Standards provides a guide for actually deploying these technologies for a broadcaster or product and application developer. Understanding what the APIs do is essential for your job, but understanding how the APIs work and how they relate to each other at a deeper level helps you do it better, faster and easier. Learn how to spot when something that looks like a good solution to a problem really isn't. Understand how the many standards that make up MHP fit together, and implement them effectively and quickly. Two DVB insiders teach you which elements of the standards that are not needed, and explain the special requirements that MHP places on implementations of these standards. Once you've mastered the basics, you will learn how to develop products for US, European, and Asian markets—saving time and money. By detailing how a technician can develop products for both the OCAP and MHP markets, Interactive TV Standards teaches you how to leverage your experience with one of these standards into the skills and knowledge needed to work with the critical, related standards. Does the team developing a receiver have all the knowledge they need to succeed, or have they missed important information in an apparently unrelated standard? Does an application developer really know how to write a reliable piece of software that runs on any MHP or OCAP receiver? Does the broadcaster understand the business and technical issues well enough to deploy MHP successfully, or will their project fail? Increase your chances of success the first time with Interactive TV Standards.

Brand new, this publication provides practical guidance in dealing with the types of insurance that are available for individual and entity participants in the sports and entertainment industries. It identifies the nuances of the insurance, requirements in the insurance policies that may need to be honored to obtain coverage, and overlooked sources of coverage. This unique product not only provides in-depth explanations of the substantive law but also nuts and bolts practical guidance for lawyers in handling virtually all issues that can arise involving insurance for all participants and entities in the sports and entertainment industries in the United States. It analyzes germane insurance provisions, coverage issues and court decisions thus providing a thorough grounding in the current insurance law needed to successfully handle sports and entertainment insurance law issues. It applies general insurance principles to the needs of participants in the sports and entertainment industries. Insurance law principles that pertain to policyholders and insurers in general are explained and applied to instances and scenarios involving sports and entertainment events and participants. It further provides in-depth analysis of the insurance provisions, issues and court decisions unique to the sports and entertainment industries. Individuals and entities in the entertainment and sports industries are the subject of a wide variety of claims and lawsuits. The economic consequences vary, but can reach millions, if not tens of millions of dollars, and can involve everything from paying lawyers and experts to defend against lawsuits, to paying to repair or rebuild property, to suffering losses from injuries, cancellations, delays, cast changes or closures and loss of business during periods of restoration. The publication features practice insights, strategic guidance, comments and warnings. Insightful, expert guidance is provided giving you the key do's and don't's of practice. Appendices of key decisions and sample forms are provided. This publication thus presents a complete package of the tools you need to practice in this lucrative area of the law successfully.

Originally known as a brand for greeting cards, Hallmark has seen a surge in popularity since the early 2010s for its made-for-TV movies and television channels: the Hallmark Channel and its spinoffs, Hallmark Movie Channel (now Hallmark Movies & Mysteries) and Hallmark Drama. Hallmark's brand of comforting, often sentimental content includes standalone movies, period and contemporary television series, and mystery film series that center on strong, intuitive female leads. By creating reliable and consistent content, Hallmark offers people a calming retreat from the real world. This collection of new essays strives to fill the void in academic attention surrounding Hallmark. From the plethora of Christmas movies that are released each year to the successful faith-based scripted programming and popular cozy mysteries that air every week, there is a wealth of material to be explored. Specifically, this book explores the network's problematic relationship with race, the dominance of Christianity and heteronormativity, the significance placed on nostalgia, and the hiring and re-hiring of a group of women who thrived as child stars.

This book is a true treasure trove of original research, incisive observations, and useful practical pointers. Written by an author who has read more than sixty thousand conflicts decisions in the last thirty years, the book skillfully guides American and foreign readers through the labyrinthine alleys of American choice-of-law litigation in the last twenty years and distills the resulting lessons for attorneys, academics, and lawmakers.

Fear has long served elites. They rely on fear to keep and expand their privileges and control the masses. In the current crisis of the capitalist world system, elites in the United States, along with other central countries, promote fear of crime and terrorism. They shaped these fears so that people looked to authorities for security, which permitted extension of apparatuses of coercion like police and military forces. In the face of growing oppression, rebellion against elite hegemony remains possible. This book offers an analysis of the crisis and strategies for rebellion. This book covers artificial intelligence and ubiquitous cities. It discusses the applications of the relevant tools in bringing revolutionary new lives to mankind. It showcases various applications of artificial intelligence in benefiting human society. For example, AI classification shortens the human time required for classifying court cases; humanoid robots help us perform heavy-duty jobs like humans, connect all the smart home devices, and take care of the kids and the elderly. It also presents the application of AutoML to predict housing prices.

This book contains the proceedings of the Fourth International Workshop on Product Family Engineering, PFE-4, held in Bilbao, Spain, October 3-5, 2001. This workshop was the fourth in a series started in 1996, with the same s-ject, software product-family engineering. Proceedings of the second and third workshops have been published as LNCS 1429 and LNCS 1951. The workshops were organized within co-operation projects of European - dustry, the 7rst two by ARES (Esprit IV 20.477) 1995-1999. This project had three industrial and three academic partners, and focused on software archit- turesforproductfamilies.SomeofthepartnerscontinuedinITEAproject9005, ESAPSP1999-2001).ITEAisthesoftwaredevelopmentprogram(?!2023)within the European Eureka initiative. ITEA projects last for two years and ESAPS ? was succeeded by CAFE (ITEA ip00004), which started in 2001 and will t- minate in 2003. This workshop was initially prepared within ESAPS and the ? preparation continued in CAFE. Due to the attacks in the USA of September 11, several people were not able to 7y and therefore did not show up. However, we have included their submissions in these proceedings. The session chair presented these submissions, and their inputs were used during the discussions. It was planned that Henk Obbink be workshop chair, and Linda Northrop and Sergio Bandinelli be co-chairs. However, because of personal circumstances Henk Obbink was not able to leave home during the workshop. Moreover both co-chairs had already enough other duties. Therefore the chairing duties were taken over by the program chair, Frank van der Linden.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.
