When we say we are entitled to miracles, we are saying that we are entitled to Love. We are entitled to have peace of mind and live a peaceful existence. Many times though, we do not experience our lives this way. We seem to struggle for just one glimmer of happiness, no matter how fleeting it may be. We have searched for peace, love, and happiness many times out in the world, and every single time we came up short. Based on the spiritual text, A Course in Miracles, "I am Entitled to Miracles!" provides a down-to-earth approach to its sage wisdom. Throughout the book easy practical application exercises help readers to apply these wise spiritual principles. Rev. Deborah Phelps, of MiraclesOne, has been studying and teaching A Course in Miracles since 1993. With humor, honesty and love, she knows that she teaches what she herself needs to learn. As a meditator since 1980 and a trained meditation teacher, Rev. Deb knows the value of silence, inner peace, and a strong connection with the Holy Spirit.

Originally published in 1977, these examples of research and scholarly argument were collected in honor of Professor Sidney W. Bijou. In the language of academics, they constitute a Festschrift: a festival of scholarly writing, performed to celebrate the career of a person who produced, and stimulated others to produce, exactly such contributions throughout a long, valuable, and productive professional history. Since 1955, Dr Bijou had worked almost exclusively within the approach variously labelled as the functional analysis of behavior, the experimental analysis of behavior, operant conditioning, or Skinnerian psychology. From his point of view, it seems clear, the first of these labels was the correct one. It was the principle of objective, direct, observable analysis that attracted him.
