

Aqa Science Exam Papers

Helps students manage their revision and prepare for exams efficiently. This title offers content that is broken into manageable sections. It provides exam tips and techniques to support students in the revision process.

In line with the new AQA Modular double award specification, the guide is designed to prepare students for their AQA Modular exams with plenty of exam practice for both end-of-module tests and terminal exams, and indicates the material students need to revise for their terminal exams.

Practise and prepare for AQA GCSE Combined Science with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book.

Practise and prepare for AQA GCSE Physics with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book.

75 Long Answer Questions in GCSE Science

For the 2016 Qualifications

Answering six mark questions in your GCSE is much more than just writing down six correct things. There is a skill to answer them that needs to be practiced. Here I have written 25 questions on each subject, given you the answers and guided you to how to answer to get full marks. The more you practice, the more confident you'll be in the exam! Example Question 58 - Renewable and Non-Renewable Energy Sources In June 2017, for the first time, over 50% of energy in the UK was supplied by renewable energy. The UK government is leading a drive to promote the increased use of renewable energy sources for generating electricity. Evaluate the use of renewable and non-renewable energy sources. Planning... * Evaluate give good points bad points your option and justify your opinion* You can use a table for planning* What are the good points (aim for at least 2)?* What are the bad points (aim for at least 2)?* What is your opinion?* Explain why you have that opinion* Don't stress too much about your opinion, the examiner is never going to cross-examine you on this, just make one up Table of Contents* Exam command words * Glossary of exam command words * How to answer 6-mark questions * How the examiners will mark you * Biology * 1 - Drugs * 2 - Respiration * 3 - Genetic Engineering * 4 - Plant Growth * 5 - Digestive System * 6 - Reflex Arcs * 7 - Leaves * 8 - Pathogens * 9 - Genetic Testing * 10 - Contraception * 11 - IVF * 12 - Defence Against Pathogens * 13 - Drugs * 14 - Sport * 15 - Cloning * 16 - Stem Cells * 17 - Menstrual Cycle * 18 - IVF * 19 - Cells * 20 - Homeostasis * 21 - * 22 - Genetic Disorders * 23 - Enzymes * 24 - Hormonal Contraception. * 25 - Plants * Chemistry * 26 - Covalent bonding * 27 - Rates of Reaction (concentration) * 28 - Atoms and Ions * 29 - Magnesium Chloride * 30 - Reactivity series * 31 - Extracting Copper * 32 - Rates of Reaction (Temperature) * 33 - Water * 34 - Properties of mystery white powders * 35 - Fractional Distillation * 36 - Diamond and Graphite * 37 - Le Chatelier's Principle * 38 - Evolution of Atmosphere * 39 - Life Cycle Assessment * 40 - Metals * 41 - Carbon in the Atmosphere * 42 - Reactivity in Group 1 and Group 7 * 43 - States of Matter * 44 - Rate of Reaction (surface area) * 45 - The Periodic Table * 46 - Models of the Atom * 47 - Group 1 * 48 - Group 7 * 49 - Aluminium Electrolysis * 50 - Acids and Alkalis * Physics * 51 - Generators * 52 - Radioactivity * 53 - Journeys * 54 - Thermistors * 55 - Nuclear Power * 56 - Isotopes * 57 - Forces * 58 - Renewable and Non-Renewable Energy Sources * 59 - AC/DC * 60 - Surfaces * 61 - Car Safety * 62 - Climate Change * 63 - Heating * 64 - National Grid * 65 - Energy Changes * 66 - Diodes * 67 - Circuits * 68 - Waves * 69 - Electromagnetic Spectrum * 70 - Loudspeakers * 71 - Waves * 72 - Newton's Laws of Motion * 73 - Atmosphere * 74 - Weight * 75 - Electrical Safety * Answers

An exact match to AQA which includes personalised learning activities to enable students to review what they have learnt. and advice from examiners on common pitfalls and how to avoid them.

Freesciencelessons is the most viewed GCSE Science channel on Youtube and has helped countless students to achieve or exceed their expectations in their GCSE Science exams. This is the companion workbook for the GCSE Combined Science Foundation Physics 2 videos for the AQA specification. Written by Shaun Donnelly (who appears in every video), this book contains hundreds of questions to guide students through the course. Accompanied by detailed on-line answers, this is the perfect resource for every student following the AQA specification. Every topic is covered in depth, including all the required practicals. A specimen exam paper is also included, allowing students to check their progress across the subject.

This book has been accepted onto the AQA approval process. This book covers Unit 1 of the new 2016 GCSE Combined Science Synergy course. The grouping of content follows that in the specification. Topic openers set the scene by providing a short overview of the links between the different chapters in a Topic. Linking questions between spreads and from chapter to chapter also help explain the narrative thread that links a Synergy topic together. Working Scientifically objectives linked to the AQA Combined Science: Synergy specification are identified, and questions addressing Working Scientifically skills embedded throughout. * Each spread is divided into three sections - starting with language, ideas and questions that are accessible to all, increasing in complexity to develop and practise ideas further. * Key concept spreads highlight core ideas that students must understand before they can move on, and which will develop their understanding of the whole topic. * A dedicated spread for every required practical helps students analyse the practical, reflect on the science skills and knowledge they have developed and apply these skills to different contexts. * Maths skills spreads focus on the maths requirements of the AQA Combined Science specification, explaining concepts and providing opportunities to practise and apply maths in a relevant scientific context. * Throughout the

the questions become increasingly synoptic, helping students to draw together ideas from any part of Unit 1 in preparation for terminal exams. * Higher-only content is clearly flagged so students can move seamlessly between tiers depending on their performance during the course. * End of chapter questions allow students to check that they have understood the ideas in the chapter and can apply these to new contexts. The questions are levelled in four sections of Higher
