Named one of Time magazine's Ten Best Books of the Year, Tahir Shah's The Caliph's House was hailed by critics and compared to such travel classics as A Year in Provence and Under the Tuscan Sun. Now Shah takes us deeper into the real Casablanca to uncover mysteries hidden for centuries from Western eyes. In this entertaining jewel of a book, Tahir Shah sets off across Morocco on a bold new adventure worthy of the mythical Arabian Nights. As he wends his way through the labyrinthine medinas of Fez and Marrakech, traverses the Sahara sands, and samples the hospitality of ordinary Moroccans, Tahir collects a dazzling treasury of traditional wisdom stories, gleaned from the heritage of A Thousand and One Nights, which open the doors to layers of culture most visitors hardly realize exist. From master masons who labor only at night to Sufi wise men who write for soap operas, In Arabian Nights takes us on an unforgettable, offbeat, and utterly enchanted journey.

Product Description Phonology is the study of the changes that can affect a word, and sometimes even two words, for different reasons relating to a certain implied heaviness, like the existence of two identical letters or two letters that are close to each other or a hamza or a weak letter. The phonological changes are recognized as the assimilation of a letter to another, the substitution of a letter for another, the addition or elision of a letter or vowel and the transfer of a letter or vowel to another position. This study explores in detail when these changes are necessary, allowed or forbidden. The presentation of the rich data, the theoretical analyzes of the phonological elements and the references to the different works from the classical period of the 8th century until our days, offer a detailed and accessible study for both the students and researchers of Arabic. General Introduction to Persian Literature

Persian literature is the jewel in the crown of Persian culture. It has profoundly influenced the literatures of Ottoman Turkey, Muslim India and Turkic Central Asia and been a source of inspiration for Goethe, Emerson, Matthew Arnold and Jorge Luis Borges among others. Yet Persian literature has never received the attention it truly deserves."A History of Persian Literature" answers this need and offers a new, comprehensive and detailed history of its subject. This 18-volume, authoritative survey reflects the stature and significance of Persian literature as the single most important accomplishment of the Iranian experience. It includes extensive, revealing examples with contributions by prominent scholars who bring a fresh critical approach to bear on this important topic. The first volume offers an indispensable entree to Persian literature's long and rich history, examining themes and subjects that are common to many fields of Persian literary study. This invaluable introduction to the subject heralds a definitive and ground-breaking new series.

This handbook is a collection of English proverbs and idioms with Arabic translations. The author ventures to translate these English proverbs and idioms with Equivalents from Arabic culture, formal and popular. The aim is to help Arab students of English comprehend an English idiomatic expression and properly render it into Arabic. Another aim behind writing this handbook is to help translator students make use of these English idiomatic expressions while translating Arabic proverbs into English instead of lingering over thinking about the words and expressions to be used. Undergraduate Arab students of English translation studies in particular, should have a lot of English idioms and fixed expressions besides their English skills of speaking and writing. This handbook is chiefly intended for them. Arabic culture is rich with proverbs and idioms. Spoken Arabic proves to be a good source for a translator student to pick up equivalents or substitutions for the English proverbs and idioms. Here, I have translated English idioms and proverbs by finding an Arabic saying or quotation that approximates the intended message of the original. It is safer to say that finding direct literary Arabic proverbs for English sayings with same linguistic equivalences is difficult. However, I do my best effort to find for every English idiom or proverb recorded here an Arabic parallel which are seen to roughly have equivalent meaning, if not similar meaning, or effect on the Arab audience but dissimilar form. To put it differently, translating of English proverbs has been partly based on personal renderings and partly on cultural substitutions by replacing an English idiomatic expression with an Arabic one, no matter if the Arabic substitution does not have the same linguistic equivalence of a particular English idiom or proverb. Importantly, the Arabic substitution should have an equivalent effect on Arab audience. Indeed, a lot of time has been put into collecting English idioms and proverbs from various sources. Much more time has been put into reading various Arabic sources of proverbs and wise sayings in an effort to find

equivalents and substitutions. Spoken Arabic and informal Arabic sources have been found richer with equivalents for English proverbs and idioms than literary Arabic sources. I have cautiously resorted to informal Arabic expressions to translate most of the English proverbs and idioms given here. Yemeni expressions here are picked up by word of mouth from people. Searching the Internet high and low for Arabic proverbs, formal and popular, helps me much overcome many problems. No reference for the English and Arabic proverbs, idioms, quotes etc is included here. As a matter of fact, the literal translations of English proverbs made by some Arab writers sound poor., and it lacks the equivalent effect on the Arab reader. It is no exaggeration when I say that I have beaten my brain out all the time trying to find an Arabic equivalent or a substitution which has a corresponding effect on Arab audience regardless of the sum meaning of the words used in an English proverb. There are 1600 items, or even more, listed as main English proverbs and idioms with equivalent number of Arabic translations. Corresponding or related proverbs are listed as (*) symbol, except where necessary, I have given my own renderings. They are marked as (*). As already mentioned, because a proverb or an idiomatic expression is indirect, its meaning is greater than the meaning of the individual words put together. Unlike literal translation which is based on the sum meaning of these words taken individually, figurative translation sounds not only more beautiful, but also more fitting with the message and spirit of the original. To sum up, since proverbs and idioms are metaphoricals, a translator should be aware more of the message of a proverb other than the sum meaning of words taken individually. I hope that readers will find it very interesting

Parallel with the previous volume of conference papers in 2008, Sudan's Wars and Peace Agreements, most of these selected and thematic articles were originally presented as papers at the 31st meeting of the Sudan Studies Association (SSA) at Arizona State University in 2012. Since that time, the Comprehensive Peace Agreement of 2005 provided for the self-determination referendum of 2011 that resulted in the independence of the new Republic of South Sudan. The previous book presaged this present volume as the, perhaps inevitable, outcome of endless conflicts with no serious effort to "make unity attractive." As this book goes to press, the new Republic of South Sudan is itself wracked with violent conflict. The hopes to build a new, democratic and civil

society in the south from the many inherited problems have now devolved to dysfunction itself. Reading this book will realistically help in understanding these "Roads" taken. The editors and authors have created a multi-faceted account which reveals the complex foundations of these conflicts between north and south, and recently within the south itself. While Khartoum struggles onward with the Islamist project, regional conflicts and grave economic problems, Juba stumbles with corruption, armed rebellion and a grave humanitarian crisis. The half-full glass of dreams of social and economic development supported by oil revenue has been replaced by a glass half empty with new varieties of political dysfunction in which both nations have grave problems in security and economic stability in a generally troubled regional "neighborhood."

Humanitarian lessons and practical insights from the prophet of Islam The words of Muhammad, messenger of God and prophet of Islam, have a special place in the hearts of his followers. Wielding an authority second only to the Qur'an, they are cited by scholars in a vast array of disciplines—including law, theology, metaphysics, poetry, grammar, history, and medicine—and are quoted by Muslims to one another in their daily lives. Light in the Heavens by al-Qadi al-Quda'i, a Sunni judge in the Fatimid court in Egypt, is an outstanding example of a compilation of these sayings, known as hadiths, that circulated orally and were later assembled and written down. From North Africa to India, generations have used Light in the Heavens as a teaching text for children as well as adults, and many of its 1,200 sayings are familiar to individuals of diverse denominations and ethnicities. For Muslims—who consider Muhammad's teachings the fount of wisdom and the beacon of guidance in all things, mundane and sublime—these sayings provide a direct window into the inspired vision of one of the most influential humans to have walked the Earth.

Originally published in 1983, The Cambridge History of Arabic Literature was the first general survey of the field to have been published in English for over fifty years and the first attempted in such detail in a multi-volume form. The volumes of the History provide an invaluable source of reference and understanding of the intellectual, literary and

religious heritage of the Arabic-speaking and Islamic world. This volume begins its coverage with the oral verse of the sixth century AD, and ends with the fall of the Umayyad dynasty two centuries later. Within this period fall major events: the life of the Prophet Muhammad, the founding of the Islamic religion, the great Arab Islamic conquests of territories outside the Arabian Peninsula, and their meeting, as overlords, with the Byzantine and Sasanian world. Contributors to this volume discuss an array of topics including the influences of Greeks, Persians and Syrians on early Arabic literature.

It comprises five hundred items, ranging from the seventh to the twentieth centuries, and is organized under a number of headings which provide a broad classification of the subject matter.

Bringing together over 3000 proverbs that have their roots in the ancient civilisations of Persia and Sumeria, along with those of Kurdish, Turkish and Andalusian origin.
