This book shows how the introduction of intermediation is relevant in studying political and public policy processes, as they are increasingly accompanied by grey spaces in public and non-public

arenas that cannot be categorized as purely representative or purely participative. Instead, 'hybrid' mechanisms are developing in the policy-making process, which bring in new actors who either are unelected while being required to represent or advocate for the common good of others or are directly elected but challenged by identity/rights-based issues of the people they are required to act in the best interest of. By proposing a

conceptual frame on intermediation and addressing five different Latin American countries and a wide range of case studies –from human rights, labour relations, neighbourhood management, municipal bureaucracies, social accountability, to complex national systems of citizen participation–this volume shows the versatility and validity of a tridimensional frame, the “cube of political intermediation” (CPI) as a tool for analysing public

policy and understanding contemporary democratic innovation in Latin America. Although it was first published more than thirty-five years ago, Up the Organization continues to top the lists of best business books by groups as diverse as the American Management Association, Strategy + Business (Booz Allen Hamilton), and The Wharton Center for Leadership and Change Management. 1-800-CEO-READ ranks Townsend's bestseller first among eighty books

that “every manager must read.” This commemorative edition offers a new generation the benefit of Robert Townsend’s timeless wisdom as well as reflections on his work and life by those who knew and worked with him. This groundbreaking book continues to remind us not to get mired in all those sacred organizational routines that stifle people and strangle both profits and profitability. He shows a way to humanize business and a way to have fun

while making it all work better than it ever worked before.

Through the compelling story of the Tierra Amarilla conflict, David Correia examines how law and property, in general, and a Mexican-period land grant in northern New Mexico, in particular, have been constituted through violence and social struggle. Spain and Mexico populated what is today New Mexico through large common property land grants to shepherders and agriculturalists. After the U.S.-Mexican War the area saw rampant land speculation and dubious property adjudication with nearly all the grants being

rejected by U.S. courts or acquired by land speculators. Of all the land grant conflicts in New Mexico's history, Tierra Amarilla is one of the most sensational, with numerous nineteenth-century speculators ranking among the state's political and economic elite and a remarkable pattern of resistance to land loss by heirs in the twentieth century. Correia narrates a long and largely unknown history of property conflict in Tierra Amarilla characterized by nearly constant violence—night riding and fence cutting, pitched gun

battles, and tanks rumbling along the rutted dirt roads of northern New Mexico. The legal geography he constructs is one that includes a remarkable cast of characters: millionaire sheep barons, Spanish anarchists, hooded Klansmen, Puerto Rican freedom fighters-or as J. Edgar Hoover, another of the characters in Correia's story would have called them, "terrorists." By placing property and law at the center of his study, "Properties of Violence" first reveals and then examines a central irony: violence is not the opposite of

law but rather is essential to its operation.

Zitlally's family is undocumented, and her father has just been arrested for speeding and deported back to Mexico. As her family waits for him to return—they've paid a coyote to guide him back across the border—they receive news that he and the coyote's other charges have been kidnapped and are being held for ransom. Meanwhile, Zitlally and a new friend find a dog in the forest near their trailer park. They name it Star for the star-shaped patch over its eye. As time goes on, Zitlally starts to realize that Star is her father's "spirit animal," and that as long as Star is safe, her father will be also. But what will happen to Zitlally's dad when Star disappears? "A vibrant, large-hearted story."—Publishers Weekly, Starred (on Red Glass)
