The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education system does not reflect this growing trend in what has been called "The Browning of America." Why is it acceptable that a student can matriculate from Kindergarten through high school and not have one Black male as his or her teacher? Why has it been a challenge to recruit and in many instances retain Black males in the classroom? Unopened Books explains what is referenced in the book as the Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian educator, and school leader; coupled with practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation but an actionable approach to increase the number of Black men in the classroom. The Wonder Years Daylen Daniels and Chase McCoy are as different as night and day. Chase is the beautiful golden boy. Gorgeous, popular, and the quarterback of the football team. Daylen is the quiet introvert. Lovely curves, shy, and sees herself as an outcast or geek. After Day moves next door to Chase, a run-in with a bully, a domestic dispute, and one treehouse hideout, an impenetrable bond is made. As they grow up, their attachment for each other grows with them, but is it strong enough to risk their friendship over a little game of spin the bottle, and a devious enemy could shake the very foundation of their friendship. Or it could start a tumultuous romance that spans decades. Take this journey with these two best friends through first love, heartbreak and tragedy from childhood to adulthood as the two find that young love isn't as strong as they'd thought. A story of true growing pains in...Chasing Day.

This title examines the work of 35 artists, including Jimmie Durham, David Hammons, José Bedia, Rebecca Belmore and James Lee Byars, who began using ritualistic practices during the 1970s and 1980s as a way of reinterpreting aspects of their cultural heritage. Selections from the works of more than seventy-five avant-garde comic artists are brought together in a definitive anthology that serves as a broad historical overview of the comic book medium and a roundup of some of today's best North American comic artists--including Art Spiegelman, Chris Ware, R. Crumb, Joe Sacco, Daniel Clowes, Lynda Barry, and many others.

*This Year Will Be Different* is a book for and about entrepreneurial women; a practical guide for everyone who wants to start their own business or become a freelancer. It's filled with tricks, stories and interviews with women who are now making money as bloggers, designers, consultants, photographers and many more great professions within the creative industry. Since the nineteenth century, when art history became an established academic discipline, works of art have been 'read' in a variety of ways. These different ways of describing and interpreting art are the methodologies of artistic analysis, the divining rods of meaning. Regardless of a work's perceived difficulty, an art object is, in theory, complex. Every work of art is an expression of its culture (time and place) and its maker (the artist) and is defined by its media (what it's made of). The methodologies discussed here (formal analysis, iconology and iconography, Marxism, feminism, biography and autobiography, psychoanalysis, structuralism, race and gender) reflect the multiplicity of meanings in an artistic image. The second edition includes nineteen new images, new sections on race and gender, orientalism, and colonialism, and a new epilogue that analyzes a single painting to illustrate the different methodological viewpoints.

*Art across Time* combines sound scholarship, lavish visuals, and a lively narrative to provide students with a comprehensive, accessible, and engaging introduction to Art History. For students with majors and non-majors alike, the text offers readers more than a chronology of art, placing each work within the time-and-place context within which it was created. Encountering and interpreting a work of art in context offers the reader the richest possible experience of it. Large scale and high quality visual reproductions of artworks are often presented from multiple perspectives to enhance visual appeal and allow students to view details and elements of composition with greater ease. A thoughtful pedagogical approach helps students consider what they are viewing.

For an undergraduate introductory level course in humanities. An introduction to the world's major civilizations. This Fourth Edition is an introduction to the world's major civilizations—to their artistic achievements, their history, and their cultures. Through an integrated approach to the humanities, *Arts and Culture* offers an opportunity to view works of art, read literature, and listen to music in historical and cultural contexts. In studying the humanities, we focus our attention on works of art, literature, and music that reflect and embody the central values and beliefs of particular cultures and specific historical moments.

Less than thirty years after Lewis and Clark completed their epic journey, Prince Maximilian of Wied—a German naturalist—and his entourage set off

on their own daring expedition across North America. Accompanying the prince on this 1832–34 voyage was Swiss artist Karl Bodmer, whose drawings and watercolors—designed to illustrate Maximilian’s journals—now rank among the great treasures of nineteenth-century American art. This lavishly illustrated book juxtaposes Bodmer’s landscape images with modern-day photographs of the same views, allowing readers to see what has changed, and what seems unchanged, since the time Maximilian and Bodmer made their storied trip up the Missouri River. To discover how the areas Bodmer depicted have changed over time, photographer Robert M. Lindholm and anthropologist W. Raymond Wood made several trips over a period of years, from 1985 to 2002, to locate and record the same sites—all the way from Boston Harbor, where Maximilian and Bodmer began their journey, to Fort McKenzie, in modern-day western Montana. Pairing sixty-seven Bodmer works side by side with Lindholm’s photographs of the same sites, this volume uses the comparison of old and new images to reveal alterations through time—and the encroachment of a built environment—across diverse landscapes. Karl Bodmer’s *America Revisited* is at once a tribute to the artistic achievements of a premier landscape artist and a photographer who followed in his footsteps, and a valuable record of America’s ever-changing environment.

*GUAMAZING Hand Drawn Art Featuring Chamorro Designs* is an adult Guam coloring book that highlights the beautiful images of the island and the tropics. Bertha Aflague, a Chamorro native of Guam, enjoys practicing the artful dance of her pen as she creates beautiful patterns that bring Guamanians and its visitors across the world back to the islands! Detach yourself from the everyday distractions, excite your senses and unwind with detailed designs that will keep you entertained. Enjoy coloring a new collection of unique tropical and Guam-related images for your artistic endeavor. These unique hand-drawn designs are best colored with fine colored pens and pencils. The use of heavy felt tip markers may bleed through and are not recommended.

Across the realms of multimedia production, information design, web development, and usability, certain truisms are apparent. Like an *Art of War* for design, this slim volume contains guidance, inspiration, and reassurance for all those who labor with the user in mind. If you work on the web, in print, or in film or video, this book can help. If you know someone working on the creative arena, this makes a great gift. Funny, too.

Art across Time Volume Two

Your Turn!

From prehistory through the Fourteenth Century, volume one of Art across Time presents the most accessible survey of art history available. Unencumbered by global flashbacks and confusing concurrent narratives, Art across Time presents a manageable survey that emphasizes art in its cultural and social context.

Art Hilmo was a teenage boy in Norway when the Nazis invaded and began to take the Jewish families to concentration camps. Knowing their lives were at stake, Art's family decided they would risk everything to help these poor Jewish people.

The world is infected and humanity is reduced to creatures of vicious insanity.

Doctor Thorn's rescue by a group of young survivors is just the beginning of their nightmarish journey to survive. In this apocalyptic landscape, humankind has one final hope that rests on the strength and determination of 10 young men and women.

By the time he is twelve, Frank Levy understands that to attain his wishes, he must depend upon himself. In the young adult edition of Life with an Accent we meet Levy as a happy toddler oblivious to political dangers. Seeking safety, in 1936 his family moves from Germany to the British Mandate of Palestine. Ten years later they emigrate to America to be with grandma. Again, Levy must change languages, cultures, even his name. With every effort to adapt, he sees that the history we live through matters.

The Monster on Top of the Bed

This Year Will Be Different

Naji is a loose cannon addicted to gunsmoke, fast money, and making it happen at all costs.

Nathan is college bound and determined to escape the streets. Gotta is a smooth talking

playboy with a sweet tooth for teenage girls. Nikki the lone female in the family is beautiful,

ambitious, and just as wild as her brothers. How else could she control them. K.K. the baby

boy is 7 going on 25 and too grown for his own good. Journey with this family as they rescue

Young Savage, encounter beef, internal conflict, and situations that test their love and loyalty to each other .

"Blimp, blop, blimp, bloop. Suzy gripped her sheets tightly. Was that noise coming from under her bed?" Helps Children Banish Bedtime Fears So begins Suzy's adventure where she meets

Karrit, another child, and one that lives far under her bed. The two children banish their

bedtime fears and become best friends by treating each other the way that they want to be

treated. A Fear of Monsters is Common A fear of monsters under the bed is common with

children of all ages, starting with a vague sense of the unknown with younger toddlers and

graduating to perhaps a more solid image in the minds of older children. The Monster on Top of

the Bed flips the idea around, like the famous Disney Movie Monsters Inc., and bases the story

on the concept that it's the monsters that are actually afraid of the children. The Children Model

The Golden Rule In this beautifully illustrated book we meet two children--Suzy and Karrit, and

we discover that sometimes things are not always what they seem and when the monster fears

the child, we come to see a different perspective on misunderstandings and ignorance. We also discover that it is easy to misinterpret the meanings of words and actions, when Karrit explains to Suzy that certain things she says and does, frightens him. Although the words, "The Golden Rule" never appear in the book, the way the two children treat each other as though they would like to be treated enable the two of them to work together to work out their differences. A friendship forms, and a new light is shed upon them both when they realize that maybe they aren't so different from each other after all. A Mantra that Banishes Nighttime Fears When things get scary, both children use Grandmom's mantra, which is highly effective in banishing monsters, "'You're welcome to stay until I say, 'Nay!' Then it's time to go, and you can't say, 'no.'" This is an empowering bedtime story. The multimedia edition contains a link to an .mp4 file that features the same audio tracks in the CD version. Children can listen to the story being read by four narrators who read the story in English, Spanish and Italian. There are page turning sounds to let the child know when to turn the page. There are slight differences between the words in CD version and the Kindle version. Children like the challenge of finding the differences. In addition to reading the story, the multimedia kindle edition also contains bonus material, including an interview with the illustrator, and other stories and poems written by the author. Order Copies For Yourself and Your Friends... It's perfect for three to six-year olds, and six-to-twelve year olds (who are sometimes still afraid of monsters) find the story charming and enjoy reading it to their younger siblings.

" Ellen wants to escape her demons, namely a step-mother named Helen, and her reputation as the school klutz." So Ellen takes a summer job as a camp counselor in the Adirondacks where she meets the lifeguard, Vic, whom she hates on site, until sparks of passion ignite between them. A teenage romance is rekindled when they meet again as adults. 'Seeking answers to the past, they return to the Adirondacks in a quest that turns dangerous for a dramatic conclusion.'

A modern woman in the court of King Richard III is torn between saving the man she loves and stopping a historic wrong in this time-travel romance. English historian Jayne Lyons has pinned her career hopes on proving that her ancestor, King Richard III, was not the nefarious villain of Shakespeare's tragedy. In fact, she believes he is innocent of the infamous murder of the Princes in the Tower. But while volunteering with the search for his missing grave, Jayne gets a much closer look at Richard than she expected. Cast back into the brutal 15th century, she suddenly finds herself in the middle of Richard's army camp. Realizing that she may not be able to return home, Jayne begins to adjust to her new life. And the more she gets to know the true Richard, the more she is drawn to him. She even starts entertaining the hope of saving him. But the Princes are missing, and all evidence points to Richard. When he asks her to spy for him against his enemy, Henry Tudor, she must decide whether to help the man she loves, even though he may be one of history's greatest villains. **THE 2018 RONE AWARD WINNER FOR BEST IN TIME TRAVEL**

James Gurney, New York Times best-selling author and artist of the Dinotopia series, follows Imaginative Realism with his second art-instruction book, Color and Light: A Guide for the Realist Painter. A researched study on two of art's most fundamental themes, Color and Light bridges the gap between abstract theory and practical knowledge. Beginning with a survey of underappreciated masters who perfected the use of color and light, the book examines how light reveals form, the properties of color and pigments, and the wide variety of atmospheric effects. Gurney cuts through the confusing and contradictory dogma about color, testing it in the light of science and observation. *Adventure was one thing, art another, but the main driver for the trip to Timbuktu was to help raise funds for research at the University of Edinburgh for FragileX. Further details can be found on the website, London to Timbuktu for Fragile X. 50 countries visited and now, along with a group of friendly individuals, I had just driven through the Sahara. With these muckers I had ventured deeply into the dark-continent. In this uncertain world there is no guarantee that you will return from any journey, large or small. Some intrepid adventurers like the Victorian, Alexander Gordon Laing, who made it all the way to Timbuktu, but sadly never made it back to his homeland of Scotland - he was slain en-route. I write this promotional e-book to introduce the e-book From Blackpool Tower to Timbuktu, (and back again). The main thing I have learnt is a guess at the scope of things that are yet to be learned - a big scope. Travelling to Timbuktu was part of that scope. A significant theme of this book is autobiography in order to describe the motive; the attempt to make art. I see no fixed issues, rather developmental journeys. I hope you glean something here and that may inspire your own endeavours and that you enjoy this promotional e-book, an introduction to the larger e-book, From Blackpool Tower to Timbuktu, (and back again). *Wayne Vansant's critically acclaimed World War II comic series that began with Days of Darkness now depicts the gripping war in the Pacific at Guadalcanal and the Battle of Bloody Ridge in the issue collected graphic novel Days of Wrath. When the U.S. Navy orders its ships to run from the Japanese fleet, they abandon American troops on a bloody battered island in the South Pacific. This is the powerful story of the long, vicious battle for Guadalcanal. As the men left on Guadalcanal find out that there will be no prisoners taken on either side. It is a kill or be killed battleground as the stranded U.S. marines fight against overwhelming odds and hope for reinforcements before it's too late. As the events unfold, a Marine unit is deployed onto a small grassy hill to hold off the onslaught of Japanese assault troops. The three day-three night battle that ensues will go down in history as the Battle of Bloody Ridge. Collects comic book issues 1-4. A Caliber Comics release.*

*Eddie Cruz grew up in a tough neighborhood in Brooklyn. Crime, gangs, and drug use were commonly witnessed in his day-to-day life. But what made for a challenging childhood transformed Cruz into a naturally skilled law enforcement agent, and by the time he turned twenty-six, he had been promoted to detective. Using the knowledge he gathered over his years in the undercover narcotics division and as a private investigator, he created Surveillance, an easy-to-use and comprehensive guide. The private sector differs greatly from general law enforcement, and this instructional guide provides clear, honest, and lighthearted insights into what makes surveillance work such a unique pursuit. Though the profession of private investigative work has its added challenges--due to working alone a lot of the time--it can be safer if approached in a smart manner. Surveillance is the must-read instruction manual for all levels of expertise, from beginners to seasoned investigative veterans.
