An instant Wall Street Journal bestseller and “ a joy to read ” (Douglas Stone and Sheila Heen, authors of *Difficult Conversations*), *Ask for More* shows that by asking better questions, you get better answers—and better results from any negotiation. In this groundbreaking new book on negotiation, Alexandra Carter—Columbia law professor and mediation expert who has helped students, business professionals, the United Nations, and more—offers a straightforward accessible approach anyone can use to ask for and receive more. We 've been taught incorrectly that the loudest and most assertive voice prevails in any negotiation, or otherwise, both sides compromise, ending up with less. Instead, Carter shows that you get far more value by asking the right questions of the

But Berger also shares human stories of people using questioning to solve

In a world of increasing ideological diversity, kids are being challenged to think through their own beliefs at an early age. Questions like How can you believe the Bible is true?; Why can't we just agree that love is love?; and Isn't Christianity against diversity? can seem like roadblocks for kids who are following Jesus, as well as for those who might otherwise consider faith in Christ. In this helpful book—written both for Christian kids and for those who think Jesus is just a fairy tale character—Rebecca McLaughlin invites readers ages 12–15 to dig deep into hard questions for themselves and perhaps discover that the things that once looked like roadblocks to faith might actually

Asking Good Questions moves beyond a traditional discussion of ethical theory, focusing on how educators can use these important frameworks to facilitate critical thinking about real-life ethical dilemmas. In this way, authors Nancy Stanlick and Michael Strawser offer students a theoretical tool kit for creatively addressing issues that influence their own environments. This text begins with a discussion of key ethical theorists and then guides the reader through a series of original case studies and follow-up activities that facilitate critical thinking, emphasize asking thought provoking questions, and teach the student to address the complexity of ethical dilemmas while

secret and silent and teaches readers how to see it clearly.” –Melinda Gates

"Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." – Former U.S. President Barack Obama

Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing;

how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to

the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and

revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.
