history from the perspective of plant science. From victory gardens to drugs, timber, rubber, and fibers, plants supplied materials with key roles

in victory. Vegetables provided the wartime diet both in North America and Europe, where vitamin-rich carrots, cabbages, and potatoes nourished

millions. Chicle and cacao provided the chewing gum and chocolate bars in military rations. In England and Germany, herbs replaced

pharmaceutical drugs;
feverbark was in demand
to treat malaria, and
penicillin culture used
a growth medium made
from corn. Rubber was
needed for gas masks and

painters: Winslow Homer (1836-1910), Thomas Eakins (1844-1916), and Thomas Dewing (1851-1939). Asma Naeem considers how these painters turned, in ways

File Type PDF Asma Goes To War American Society Of Marine Artists

significant for their individual artistic ventures, to themes of sound and listening throughout their careers. She shows how the aural dimension of

File Type PDF Asma Goes To War American Society Of Marine Artists

these artists' pictures
was an ideological
product of period class,
gender, cultural,
racial, and
technological
discourses. Equally

File Type PDF Asma Goes To War American Society Of Marine Artists

important, by looking at such materials as the artists' papers, scientific illustrations, and technological brochures, Naeem argues that the

has complex and
previously unconsidered
connections to
developments in sound
and listening during a
period when

unprecedented innovation in the United States led to such inventions as the telegraph and phonograph and forged a technological narrative that continues to have

force in the twenty-first century. Naeem's unusual approach to the work of these three well-known American artists offers a transformative account of artistic

Asthma is a respiratory condition marked by spasms, swelling, and
