inform the law. The book is alive to the fact that land law and conveyancing impinge upon a vast area of social ordering and expectations, and exert a fundamental influence upon the lifestyles of ordinary people. Most importantly, *Conveyancing-Principles and Practice* is designed along the new Advocates Training Programme as a core text for students of conveyancing, legal practitioners, real estate investors, estate agents, commercial and banking institutions, auctioneers, Government departments and the citizenry.

A Heart Like His

God loves you just the way you are, but he refuses to leave you there. He wants you to be just like Jesus. Can you think of a better offer? In Just Like Jesus, pastor and bestselling author Max Lucado reminds us that being just like Jesus feels like an impossible goal until we accept one simple truth: God loves us. Jesus felt no guilt; God wants you to feel no guilt. Jesus had no bad habits; God wants to do away with yours. Jesus had no fears; God wants the same for you. Jesus had no anxiety about death; you needn't either. God's desire, his plan, his ultimate goal is to make you into the image of Christ.

Not only does God love each of us exactly as we are, he wants us, little by little, to become like him. He doesn't love us and leave us alone; he loves us enough to live within us, making our hearts his home. But doing so requires a bit of sprucing up, remodeling, refurnishing. Why? Because he wants us to have a heart like his too. Just Like Jesus will teach you how far God will go to transform us into his likeness. Along the way, Max addresses questions that might arise as you examine the peaceful, passionate, and pure heart of Christ, including: How do we know that God wants us to be made in his image? How does this change occur? If

The study of Syro-Mesopotamian civilization has greatly advanced in the past twenty-five years. In particular the renewed interest in Eastern (or 'Mesopotamian') Syria has radically altered our understanding of not only the ancient Near East, but of the Bible as well. With Syria east of the Euphrates

becoming one of the most active areas of archaeological investigation in the entire Near East, the need for a synthesis of this research and its integration with the Hebrew Bible has greatly increased. This volume charts the state of our knowledge, following a general chronological flow, and will appeal not only to scholars of the ancient Near East but also to Biblical specialists interested in the historical and religious backgrounds to the Israelite and Judahite kingdoms.

Marion C. Sheridan, Director

This book focuses on the representation

theory of q -Schur algebras and connections with the representation theory of Hecke algebras and quantum general linear groups. The aim is to present, from a unified point of view, quantum analogs of certain results known already in the classical case. The approach is largely homological, based on Kempf's vanishing theorem for quantum groups and the quasi-hereditary structure of the q -Schur algebras. Beginning with an introductory chapter

dealing with the relationship between the ordinary general linear groups and their quantum analogies, the text goes on to discuss the Schur Functor and the θ -Schur algebra. The next chapter considers Steinberg's tensor product and infinitesimal theory. Later sections of the book discuss tilting modules, the Ringel dual of the q -Schur algebra, Specht modules for Hecke algebras, and the global dimension of the q -Schur algebras. An appendix gives

a self-contained account of the theory of quasi-hereditary algebras and their associated tilting modules. This volume will be primarily of interest to researchers in algebra and related topics in pure mathematics.
