Volume I also incorporates more advanced topics, including a comprehensive discussion of graha condition, important yogas and various confluence techniques. One of the greatest gifts of Vedic Astrology is its many predictive systems. Popular timing techniques explained in this volume include the Vimshottari system of dashas and bhuktis and Gochara (planetary transits). When the birth chart shows a potential for certain events and experiences to occur, then dashas-bhuktis and

transits serve as astrological timing triggers that "ripen" the particular event and produce life-changing events, such as a marriage, the birth of a child, a new career path or severe illness. To make accurate predictions, we have to marry the static nature of the Vedic birth chart with dynamic timing triggers. Lastly, the biggest stumbling block for students of Vedic Astrology is where to begin the birth chart interpretation process. Without a sensible process for chart interpretation, we

"Ever since my first journey to India I have desired to share the knowledge I was fortunate enough to receive. can be extracted. I have done my best to keep philosophy from this work, as that is not my present purpose. It is my intention only to present Hindu astrology in a way that it deserves to be presented, which is long overdue -- a way which western astrologers can understand and utilise, and which will clear away the mystery and finally put into perspective the enormously complex techniques which make up the bulk of most textbooks on the subject. Having worked with both Hindu and western systems, it is my experience that the two greatly complement each other and together form the basis for a complete and profound astrology."
