This book examines performance projects of Shakespeare's plays for young people in terms of their value for their young audiences. Using interviews with theatre workers and workshops with young people, the book argues that it is by trusting young people's experience of performances, rather than promoting a range of pre-determined textual understandings of the plays, that they might gain most benefit. It argues that by privileging the meanings young people make of Shakespeare, new and exciting interpretations of his work might be found.

Adele Wiseman was a seminal figure in Canadian letters. Always independent and wilful, she charted her own literary career, based on her unfailing belief in her artistic vision. In *The Force of Vocation*, the first book on Wiseman's writing life, Ruth Panofsky presents Wiseman as a writer who doggedly and ambitiously perfected her craft, sought a wide audience for her work, and refused to compromise her work for marketability. Based on previously unpublished archival material and personal interviews with publishers, editors, and writers, *The Force of Vocation* charts Wiseman's career from her internationally acclaimed first novel, *The Sacrifice*, through her near career-ending decisions to move into drama and non-fiction, to her many years as a dedicated mentor to other writers. In the process, Panofsky presents a remarkable and compelling story of the intricate negotiations and complex relationships that exist among authors, editors, and publishers. Your students and users will find biographical information on approximately 300 modern writers in this volume of *Contemporary Authors(R)*.

English as a Vocation

The Protestant doctrine of vocation has had a profound influence on American culture, but in recent years central tenets of come under assault. *Vocation: Discerning Our Callings in Life* explores current responses to the classic view of vocation and statement and application of this doctrine for contemporary North American Christians. According to Douglas Schuurman, many today find it both strange and difficult to interpret their social, economic, political, and cultural lives as responses to God's call. From this biblical perspective, Schuurman argues, Christians must recover the language, meaning, and reality of life as vocation, and do just that. Developed in dialogue with audiences as diverse as college students, industrial workers, business leaders, church professional theologians and ethicists, the book examines the theological and ethical dimensions of vocation as these have been historically and in relation to our modern social setting.

Now in its 23rd year, the *International Review of Industrial and Organizational Psychology* has attracted contributions from leading researchers and produced many citation classics. Each volume is a state-of-the-art overview of topics spanning the full spectrum of psychology and 2008 is no exception. Areas covered include leadership development, the psychology of careers, employee recruitment, promotion in the workplace, and politics at work. Each chapter is supported by a valuable bibliography. For advanced student researchers and professionals this remains the most current and authoritative guide to new developments and established knowledge in the field.

Focusing on relationships between Jewish American authors and Jewish authors elsewhere in America, Europe, and Israel, this book explores the phenomenon of authorial affiliation: the ways in which writers intentionally highlight and perform their connections with Jewish American literary identity, including among others Cynthia Ozick, Saul Bellow, Nicole Krauss, and Nathan Englander. He also explores how Israeli writers such as Sayed Kashua perform their own identities through connections to Jewish Americans. Whether by incorporating other writers into fictional work as characters, interviewing them, publishing critical essays about them, or invoking them in public life, writers use a variety of methods to forge public personas, craft their own identities as artists, and infuse their art with cultural associations. Hadar's analysis deepens our understanding of Jewish American and Israeli literature, positioning them in relation with one another as well as with European writing. The result is a thought-provoking challenge to the concept of home and each of these literary traditions as diasporic and questions the oft-assumed centrality of Hebrew and Yiddish to global Jewish literary process, Hadar offers an approach to studying authorial identity-building relevant beyond the field of Jewish literature.

The Politics of Performing Shakespeare for Young People

A new translation of two celebrated lectures on politics, academia, and the disenchantment of the world. The German sociologist Max Weber is one of the most venturesome, stimulating, and influential theorists of the modern condition. Among his most significant works are the so-called vocation lectures, published shortly after the end of World War I and delivered at the invitation of a group of student activists. The question the students asked Weber to address was simple and haunting: In a modern world characterized by the division of labor, economic expansion, and unrelenting change, was it still possible to consider an academic or political career as a genuine calling? In response Weber offered his famous diagnosis of "the disenchantment of the world," along with a challenging account of the place of morality in the classroom and in research. In his second lecture he introduced the notion of political charisma, assigning it a central role in the modern state, even as he recognized that politics is more than anything "a slow and difficult drilling of holes into hard boards." Damion Searls's new translation brings out the power and nuance of these celebrated lectures. Paul Reitter and Chad Wellmon's introduction describes their historical and biographical background, reception, and influence. Weber's effort to rethink the idea of a public calling at the start of the tumultuous twentieth century is revealed to be as timely and stirring as ever.

What is my calling? How do I best live it out? Will my vocation change? In this revised edition of his popular book, Gordon Smith addresses these and other questions you may be struggling with. And he leads you through a process to discover your vocation by listening to God and becoming a coworker with him.

By turns celebratory and sceptical, Career Limiting Moves is a selection of essays and reviews drawn from a decade of immersion in Canadian poetry. Inhabiting a milieu in which unfriendly remarks are typically spoken sotto voce—if at all—Wells has consistently said what he thinks aloud. The pieces in this collection comprise revisionist assessments of some big names in Canadian Poetry (Margaret Atwood, Lorna Crozier, Don McKay and Patrick Lane, among others); satirical ripostes parrying others' critical views (Andre Alexis, Erin Moure, Jan Zwicky); substantial appraisals of underrated or near-forgotten poets (Charles Bruce, Kenneth Leslie, Peter Sanger, John Smith, Peter Trower, Peter Van Toorn); assessments of promising debuts (Suzanne Buffam, Pino Coluccio, Thomas Heise, Peter Norman) and much else besides—including a few surprises for anyone who thinks they have Wells's taste figured out. Zachariah Wells is the editor of Jailbreaks: 99 Canadian Sonnets and the author of two collections of poetry.

This is the first in-depth study of post-war female religious life. It draws on archival materials and a remarkable set of eighty interviews to place Catholic sisters and nuns at the heart of the turbulent 1960s, integrating their story of social change into a larger British and international one. Shedding new light on how religious bodies engaged in modernisation, it addresses themes such as the Modern Girl and youth culture, '1968', generational discourse, post-war modernity, the voluntary sector and the women's movement. Women religious were at the forefront of the Roman Catholic Church's movement of adaptation and renewal towards the world. This volume tells their stories in their own words.

Vocation as the Heart of Christian Epistemology

This guide provides a wealth of ideas for incorporating high-quality children's books of all kinds into K-6 classrooms. Numerous practical strategies are presented for engaging students with picturebooks, fiction, nonfiction, and nontraditional texts. --from publisher description

From earliest times the Western Church has fiercely debated questions about the place of the ministry within the Church and Church government. What requirements should be met by candidates for holy orders and what do we expect of priests and ministers: personal holiness, training for their calling, social skills or merely the possession of official ordination? The Church has at different times produced very different answers and the 30 scholars from Britain, the Netherlands, and Belgium, whose papers in this volume follow the course of the debate concerning the good shepherd from the early church through to modern times, show on the one hand what happens to Christian communities that have lost a clear view of the functions of the ministry and on the other just how much trust people have always placed in their priests and pastors. With contributions by Anton Weiler, Charles Caspers, Robert Swanson, Petty Bange, Mathilde van Dijk, Claire Cross, Fred van Lieburg, Ingrid Dobbe, Frank van de Pol, Eamon Duffy, Joke Spaans, Trevor Johnson, Gian Ackermans, David Wykes, Jeremy Gregory, W.M. Jacob, Joris van Eijnatten, Nigel Yates, David Bos, Leo Kenis, F.G.M. Broeyer, Frances Knight, John Tomlinson, Stuart Mews, Lieve Gevers and Ian Jones.

Booker Prize winner and Living National Treasure, Thomas Keneally still divides critical opinion: he is both a morally challenging stylist and a commercial hack, a wise commentator on society and a garrulous leprechaun. Such judgements are located in the cultural politics of Australia but also linked to ideas about what a literary career should look like. 'Thomas Keneally's Career and the Literary Machine' charts Keneally's production and reception across his three major markets, noting clashes between national interests and international reach, continuity of themes and variety of topics, settings and genres, the writer's interests and the publishers' push to create a brand, celebrity fame and literary reputation, and the tussle around fiction, history, allegory and the middlebrow. Keneally is seen as playing a long game across several events rather than honing one specialist skill, a strategy that has sustained for more than 50 years his ambition to earn a living from writing.

The Setting for Human Flourishing

The Vocation of Sara Coleridge

Need to Know

The Cambridge Review

Vols. 1-26 include a supplement: The University pulpit, vols. [1]-26, no. 1-661, which has separate pagination but is indexed in the main vol.

*This book presents a fundamental reassessment of Sara Coleridge. It examines her achievements as an author in the public sphere, and celebrates her interventions in what was a masculine genre of religious polemics. Sara Coleridge the religious author was the peer of such major figures as John Henry Newman and F. D. Maurice, and recognized as such by contemporaries. Her strategic negotiations with conventions of gender and authorship were subtle and successful. In this rediscovery of Sara Coleridge the author revises perspectives upon her literary relationship with Samuel Taylor Coleridge. Far from sacrificing her opportunities in service of her father's memory, her rationale is to exploit his metaphysics in original religious writings that engage with urgent controversies of her own times. Sara Coleridge critiques the Oxford theology of Newman and his colleagues for authoritarian and elitist tendencies, and for creating a negative culture in religious discourse. In response, she experiments with methodologies of collaborative, dialogic exchange, in which form as much as content will promote liberal, inclusive and productive encounters. She develops this agenda in her major religious work, the unpublished *Dialogues on Regeneration* (1850-51), which this book examines in its penultimate chapter.*

Many colleges and universities have begun using the language of vocation and calling to help undergraduates think about the future direction of their lives. This language is used in both secular and religious contexts, but it has deep roots in the Christian theological tradition. Given the increasingly multi-faith context of undergraduate life, many have asked whether this terminology can truly serve as a new vocabulary for higher education. If vocation is to find a foothold in the contemporary context, it will need to be re-examined, re-thought, and re-written; in short, higher education will need to undertake the project of hearing vocation differently. In this third volume on vocation from editor David S. Cunningham, the thirteen contributing scholars identify with a wide variety of religious traditions, including Buddhism, Christianity, Hinduism, Islam, Judaism, and Sikhism. Some contributors identify with more than one of these; others would claim none of them. The authors met on multiple occasions to read common texts, to discuss agreements and differences, and to respond to one another's writing; some of these responses are included at the end of each chapter. Both individually and collectively, these contributors expand the range of vocational reflection and discernment well beyond its traditional Christian origins. The authors observe that all undergraduate students--regardless of their academic field, religious background, or demographic identity--need to make space for reflection, to overcome obstacles to discernment, and to consider the significance of their own narratives, beliefs, and practices. This, in turn, will require college campuses to re-imagine their curricular and co-curricular programming in order to support their students's reflection on issues of meaning, purpose, and identity.

The Force of Vocation

Family Vocation

How shall we live? What is the good life? What is the value of a person? What is my place in this world? Is God active in this world? These are questions that have been asked in every culture and in every era. From the Hebrew concept of Shalom (wholeness/well-being) to the Greek concept of Eudaimonia (happiness) and even to the American notion that all people have the right to life, liberty, and the pursuit of happiness, great thinkers have pondered what it means for humans to flourish. The doctrine of vocation uniquely answers these questions. A certain level of security, prosperity, and freedom are essential components of human flourishing. God provides these components by working through humans in their stations in life such as parents and police (security), farmers and bankers (prosperity), and soldiers and governments (freedom). And yet there is more for which we strive. We are the type of beings whose wonderment drives us to the pursuit of knowledge, justice, and achievement. In short, we desire to be justified. We want to be valued. We want to be right or just. We strive for epic-ness. But no mere human adulation will satisfy. Nor can we justify ourselves before God with our broken lives. God justifies Christians through Christ and then uses them. God adds another component to human flourishing: purpose. He uses Christians in his economy of love to take care of the world. He lifts us from the ordinary to accomplish the extraordinary, even as we pursue ordinary tasks. For the Christian, these stations become callings or vocations. This can only be fully appreciated if the Christian knows that he or she is free from pleasing God through works. Once the Christian is freed from this burden the whole of the Christian life is reoriented to the free exercise of love towards neighbor. It is the highest calling, the truly good, flourishing, and happy life.

This book explores how a small circle of Cambridge literary critics turned into a movement that revolutionized the way English was taught and brought popular culture into classrooms. The leader, F. R. Leavis, was a well-known and controversial writer. The focus of this book is not on Leavis but on the people who put his ideas into practice.

*How should a Christian think? If a serious Christian wants to think seriously about a serious subject--from considering how to vote in the next election to choosing a career; from deciding among scientific theories to selecting a mate; from weighing competing marketing proposals to discerning the best fitness plan--what does he or she do? This basic question is at the heart of a complex discourse: epistemology. A bold new statement of Christian epistemology, *Need to Know* presents a comprehensive, coherent, and clear model of responsible Christian thinking. Grounded in the best of the Christian theological tradition while being attentive to a surprising range of thinkers in the history of philosophy, natural science, social science, and culture, the book offers a scheme for drawing together experience, tradition, scholarship, art, and the Bible into a practical yet theoretically profound system of thinking about thinking. John Stackhouse's fundamental idea is as simple as it is startling: Since God calls human beings to do certain things in the world, God can be relied upon to supply the knowledge necessary for human beings to do those things. The classic Christian concept of vocation, then, supplies both the impetus and the assurance that faithful Christians can trust God to guide their thinking--on a "need to know" basis.*

The Nemesis of Faith

What does it mean to be called as a husband, a wife, a parent, a child? How does the grace of the gospel impact how we carry out our particular calling? How does God's presence influence the struggles that families face? Gene Veith joins forces with his daughter Mary Moerbe to explore these kinds of questions as well as the roles of calling and vocation in family life. Though we have little control over who is in our family (other than choosing a spouse and deciding to have children), God has placed us with specific people for specific reasons. Veith and Moerbe show how our roles are distinct and important to God's plan for our lives--and that when we have a biblical understanding of those roles in our families, we can move away from common dysfunctions and toward forgiveness and healing. Writing with sensitivity and wisdom, Veith and Moerbe address the common problems facing contemporary families: the crosses, the weaknesses, and the uncertainties. They articulate a compelling, biblical paradigm for creating and sustaining loving and forgiving families who maintain hope in the face of cultural pressure. This book is an important resource for all Christians, including pastors, counselors, and those working in family ministry.
