American diners began to flock to Chinese restaurants more than a century ago, making Chinese food the first mass-consumed cuisine in the United States. By 1980, it had become the country's most popular ethnic cuisine. Chop Suey, USA offers the first comprehensive interpretation of the rise of Chinese food, revealing the forces that made it ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption. Engineered by a politically disenfranchised, numerically small, and economically exploited group, Chinese food's tour de America is an epic story of global cultural encounter. It reflects not only changes in taste but also a growing appetite for a more leisurely lifestyle. Americans fell in love with Chinese food not because of its gastronomic excellence but because of its affordability and convenience, which is why they preferred the quick and simple dishes of China while shunning its haute cuisine. Epitomized by chop suey, American Chinese food was a forerunner of McDonald's, democratizing the once-exclusive dining-out experience for such groups as marginalized Anglos, African Americans, and Jews. The rise of Chinese food is also a classic American story of immigrant entrepreneurship and perseverance. Barred from many occupations, Chinese Americans successfully turned Chinese food from a despised cuisine into a dominant force in the restaurant market, creating a critical lifeline for their community. Chinese American restaurant workers developed the concept of the open kitchen and popularized the practice of home delivery. They streamlined certain

Chinese dishes, such as chop suey and egg foo young, turning them into nationally recognized brand names.

Day of the Oprichnik

Dichterliebe: an Authoritative Score, Historical Background, Essays in Analysis, Views and Comments

In the early part of the twentieth century, Gershom Scholem (1897-1982) founded the academic discipline of the study of Jewish Mysticism. In so doing, he not only broke new scholarly ground; but he also revolutionized the field of Judaic Studies as a whole and left an indelible mark on the study of religion.

This rich and exciting sci-fi trilogy follows the search of one man—raised to be the ultimate general, the penultimate killing machine—for his own humanity and for the son he's never known. The final conflict is about to begin.... The Forbidden Borders form a seemingly unassailable gravity-powered barrier, cutting humankind off from the wider universe, confining rival empires to a few star systems, and leaving them to strive endlessly against one another for total control. But now the weakest have fallen, only two mighty empires remain, and each must once again turn to the man both fear

more than they fear one another. The man each is determined to hire—or, failing that, to assassinate—Staffa kar Therma, Lord Commander of the Companions. Trained to be the ultimate killing machine, the penultimate general, Staffa has led his crack Companion mercenary troops to victory time and again. Throughout the human worlds, the Lord Commander is cursed as the Star Butcher, bringer of death and destruction. And never before has he turned his back from undertaking a new contract. But along with his most recent victory has come a discovery that will have repercussions throughout all the star systems within the Forbidden Borders. For Staffa has learned that the son stolen from him in infancy may still be alive, and nothing will stand between Staffa and the search for his son—even though his quest may well lead to his own destruction....

A Study in Joachimism

Gershon Scholem

The Race to Save Earth's Most Endangered Species

"The Feast of Saint Abraham is characterized by originality, profound scholarship (especially with regard to new manuscript sources), and by clarity and felicity of style. . . .

A fine book."—Bernard McGinn, University of Chicago

Joachim of Fiore proclaimed a philosophy of history which exercised a powerful influence in succeeding centuries. This book traces the influence of his prophecies concerning a Third Age of the Spirit to come, as later expressed in the themes of New Spiritual Men, Last World Emperor, Angelic Pope, and Renovatio Mundi. It shows that these ideas were not only the mainspring of various heterodox groups, but also engaged the attention of certain church leaders, university scholars, Renaissance thinkers, Protestant theologians, and political rulers down to the seventeenth century.

100 Heartbeats

Latino Boom

In the Footsteps of Queen Victoria

Part autobiography, part fiction, this early work by the author of *The Master and Margarita* shows a master at the dawn of his craft, and a nation divided by centuries of unequal progress. In 1916 a 25-year-old, newly qualified doctor named Mikhail Bulgakov was posted to the remote Russian countryside. He brought to his position a diploma and a complete lack of field experience. And the challenges he faced didn't end there: he was assigned to cover a vast and sprawling territory that was as yet unvisited by modern conveniences such as the motor car, the telephone, and electric lights. The stories in *A Country Doctor's Notebook* are based on this two-year window in the life of the great modernist. Bulgakov candidly speaks of his own feelings of inadequacy, and warmly and wittily conjures episodes such as peasants applying medicine to their outer clothing rather than their skin, and finding himself charged with delivering a

baby—having only read about the procedure in text books. Not yet marked by the dark fantasy of his later writing, this early work features a realistic and wonderfully engaging narrative voice—the voice, indeed, of twentieth century Russia's greatest writer. One of *The Telegraph's Best Fiction Books 2011* Moscow, 2028. A cold, snowy morning. Andrei Danilovich Komiaga is fast asleep. A scream, a moan, and a death rattle slowly pull him out of his drunken stupor—but wait, that's just his ring tone. And so begins another day in the life of an oprichnik, one of the czar's most trusted courtiers—and one of the country's most feared men. Welcome to the new New Russia, where futuristic technology and the draconian codes of Ivan the Terrible are in perfect synergy. Corporal punishment is back, as is a divine monarch, but these days everyone gets information from high-tech news bubbles, and the elite get high on hallucinogenic, genetically modified fish. Over the course of one day, Andrei Komiaga will bear witness to—and participate in—brutal executions; extravagant parties; meetings with ballerinas, soothsayers, and even the czarina. He will rape and pillage, and he will be moved to tears by the sweetly sung songs of his homeland. He will consume an arsenal of drugs and denounce threats to his great nation's morals. And he will fall in love—perhaps even with a number of his colleagues. Vladimir Sorokin, the man described by Keith Gessen (in *The New York Review of Books*) as “[the] only real prose writer, and resident genius” of late-Soviet fiction, has imagined a near future both too disturbing to contemplate and too realistic to dismiss. But like all of his best work, Sorokin's new novel explodes with invention and dark humor. A startling, relentless portrait of a troubled and troubling empire, *Day of the Oprichnik* is at once a richly imagined vision of the future and a razor-

sharp diagnosis of a country in crisis.

In 100 Heartbeats, conservationist and television host Jeff Corwin provides an urgent, palpable portrait of the wildlife that is suffering in silence and teetering on the brink of extinction. From the forests slipping away beneath the stealthy paws of the Florida panther, to the giant panda's plight to climb ever higher in the mountains of China in search of sustenance, to the brutal poaching tactics that have devastated Africa's rhinoceros and elephant populations, Corwin takes readers on a global tour to witness firsthand the critical state of our natural world. Along the way, he shares inspiring stories of battles being waged and won in defense of the earth's most threatened creatures by the conservationists on the front lines. These stories of hope and**
