*crazy. I surely was
lost. I was not sure
when was the last time
my daughter ate, how
much she ate, etc... The
problem was she didn't
want to drink breast
milk. We had huge
difficulties, so I
needed to give her
formula as well. This is
why I started to take
notes - just to make
sure she's got
everything she needs. My
notebook is simple
because, as a mother,
time is definitely not
on your side. I am*

*convinced that writing
down meal breaks, the
amount of milk your baby
had and the number of
dirty diapers you
changed is enough. This
is the most important
data at the very
beginning - if the baby
eats and digests, you
can be sure they are
fine. Each page provides
you the ability to
record: date and
indication of which day
of the week for each
page time of feeding
with space to indicate
breast feeding*

Baby log book tracker for
Newborns Raising a baby is
one of the most
unpredictable things a
person will go through in
their lives. For that
reason, many doctors suggest
keeping a logbook of your
child, to learn about the
best care schedule for them.
Each child will require
different care methods, and
different scheduling. This
logbook has been designed
for parents with newborn

children, all the way up until they are toddlers, who are looking to discover patterns in their child's day to day routine, and to adapt their parental care towards them. It will also be vital in understanding causes of ill health, tiredness, mood swings and any other positive or negative reactions from your child. This book is also extremely useful for babysitters or childminders, or children who are in dual care. By handing over this book with your child, those taking over care will know exactly what your child has done for the day, and will be able to provide this
