Features of Nevada Real Estate License Exam Prep (NV-RELEP): National Principles & Law Key Point Review (60 pages) Real Estate Math Key Formula Review & Practice (20 pages) Nevada-Specific Laws and Regulations Key Point Review (20 pages) National Practice Tests (500 questions) Nevada Practice Tests (140 questions) Nevada Simulation Exam (100 questions) We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for. That's why we created the Nevada Real Estate License Exam Prep (NV-RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works - or fails to work. NV-RELEP is comprehensive in that it contains both key content review and testing practice. And the text review is Nevada-specific - not just simplistic national content, but terse, relevant and accurate Nevada laws and regulations presented as a well-organized set of state 'key point reviews' ideal for pre-test memorization.

But let's not dismiss the importance of the national content either. NV-RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice - one of the most widely used principles textbooks in the country. Finally, our national content, as well as our question selection, is further tailored to the state testing outline promulgated by Pearson Vue for Nevada. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Nevada license exam. A word about the test questions... NV-RELEP's testing practice section consists of ten national practice tests, three state practice tests, and one state exam simulation test. The practice tests are roughly 50 questions in length and the simulation test is 100 questions. The test questions are designed to cover the content covered by the law reviews - which reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further

reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your Nevada real estate exam. So good luck!!

Florida has long been a beacon for retirees, but for many, the American dream of owning a home there was a fantasy. That changed in the 1950s, when the so-called "installment land sales industry" hawked billions of dollars of Florida residential property, sight unseen, to retiring northerners. For only \$10 down and \$10 a month, working-class pensioners could buy a piece of the Florida dream: a graded home site that would be waiting for them in a planned community when they were ready to build. The result was Cape Coral, Port St. Lucie, Deltona, Port Charlotte, Palm Coast, and Spring Hill, among many others—sprawling communities with no downtowns, little industry, and millions of residential lots. In *The Swamp Peddlers*, Jason Vuic tells the raucous tale of the sale of residential lots in postwar Florida. Initially selling cheap homes to retirees with disposable income, by the mid-1950s developers realized that they could make more money selling parcels of land on installment to their customers. These "swamp peddlers" completely transformed the landscape and demographics of Florida, devastating the state environmentally by felling forests, draining wetlands, digging canals, and chopping up at least one million acres into grid-

like subdivisions crisscrossed by thousands of miles of roads. Generations of northerners moved to Florida cheaply, but at a huge price: high-pressure sales tactics begat fraud; poor urban planning begat sprawl; poorly-regulated development begat environmental destruction, culminating in the perfect storm of the 21st-century subprime mortgage crisis.

practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews – which reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question’s answer is accompanied by a brief explanation, or “rationale” to further reinforce your understanding. In the end, as you know, it’s all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass.
